CHINA SEA—STRAIT OF MAKASSAR.

Rocks on Laars bank and among the islands north-westward.

THE British Admiralty has given notice (No. 397 of 1897) of the existence of the undermentioned dangers on Laars bank:—

1. A rock, with a depth of 3½ fathoms on it, in approximately lat. 5° 39′ 0″ S, long. 118° 17′ 30″ E.
2. A rock, with a depth of 4 fathoms on it, in approximately lat. 5° 41′ S., long. 118° 20′ E.

Also, of various rocks, with 3¾ fathoms least water on them, between and westward of the islands Medemblik, Bangko, Bangkoang, Hoorn, Little and Great Doang Doangan; all north-westward of Laars bank.

The words "shoal water reported in this locality" have been placed on the chart among the above islands and between them and Kalu Kalukoan to the westward.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 2124 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 17th August 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending the 7th August 1896, and the corresponding period of 1897, is shown in the following statement:—

Imports.—During the period under report, the imports of rice amounted to 249,693 cwts., against 1,834 cwts. in the first week of August 1896. The amount that came from Burma was 242,085 cwts., and from Madras 6,219 cwts. against nil in the corresponding period of last year. The total imports of paddy rose from 1,191 cwts. to 14,090 cwts., owing chiefly to large quantities coming from Burma and Cocanada. Gram and pulses were imported from Madras, Burma, and the Straits Settlements, during the week ending 7th August 1897, while in the corresponding period of last year no such imports took place.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 7th August 1897 is compared with that for the corresponding period of 1896 :—

	1st to 7th August

Total ...	1,07,646	1,46,518	13,242	18,024

Foreign Ports.

The exports of rice from Calcutta to foreign ports declined from 64,877 cwts. in the 1st week of August 1896 to 1,341 cwts. in the period under report. The decline was chiefly due to the absence in 1897 of shipments to the United Kingdom, Demerara, Trinidad and Muscat, to which ports 40,823 cwts. were exported in the week ending 7th August 1896. The despatches to Ceylon fell from 22,760 cwts. to only 485 cwts. The decrease under gram and pulses was chiefly due to smaller exports to the United Kingdom and Ceylon.

Indian Ports.

As regards Indian ports, the exports of rice to Bombay during the first week of August 1896 amounted to 5,826 cwts., against nil in the period under report. Under gram and pulses, Bombay received nothing as against 11,506 cwts. in the corresponding period of last year, and the decrease in the exports to the Madras ports amounted to 2,600 cwts.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Singhbhum.—Rainfall at Chaibassa 4·01, Chakradharpur 4·68. Rice plentiful; price 7 to 9 seers.

General Summary.—There was general rain during the week, but the fall was slight in parts of North Bengal and North Bihar and in the Palamau district of Chota Nagpur. In these districts, however, some rain is reported to have fallen after the close of the week and prospects have improved, but much more is still required, especially in Patna and Champaran and the Madhubani subdivision of Darbhanga, for the transplantation of winter rice. The prospects of *bhadoi* crops are generally good except in Patna, where the crops, as previously reported, were damaged by the recent floods. The harvesting of early rice and jute is proceeding, and on the whole a good outturn is expected. Prices continue almost stationary. In some districts new *aus* rice has come into the market. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Bankura (common rice) 7 to 9½ seers, Nadia (common rice) 7 seers (old) and 10 seers (new *aus*), Murshidabad (common rice) 7½ to 8½ seers (old) and 9 to 10½ seers (new *aus*), Khulna (common rice) 8 seers, Rajshahi (common rice) 7½ seers, Saran (barley) 10 seers 13 chittacks, Champaran (barley) 11¼ seers and (*rahar*) 11⅛ seers, Muzaffarpur (*makai* and *rahar*) 10 seers, Darbhanga (rice) 7½ seers, Santhal Parganas (rice) 7 to 9 seers and (maize) 9 seers, Puri (common rice) 9 to 10 seers, Hazaribagh (rice) 6 to 7¾ seers and (*mahua*) 13 to 24 seers, Palamau (rice) 8 seers, Manbhum (common rice) 7¾ seers.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; ☁ dew.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JULY 1897.

THE marked break in the rains, which began towards the end of June, with westerly winds and unusually high temperature over the whole Province, continued for some days in the beginning of July. It was followed by a period of wet weather, which lasted till after the middle of the month, and then a partial break set in, during which rainfall consisted of scattered showers only. This second break went on till near the end of the month, when general rain again commenced.

The first break, which was coming to a close on the 4th, was due to the formation of a low-pressure area over Assam and North Bengal. The effect on the wind system was seen in the westerly winds over the whole Province; and as at that time dry weather prevailed in Central India, these winds were dry and hot. In consequence during their existence the sky was cloudless, and day temperature was much above the normal, especially in the western districts. The second, but partial, break was due to different causes. Instead of pressure being relatively lowest in the north-east of the Province, it was higher there than that at any other stations, whether inland or on the coast. The pressure gradient was much less steep than usual during July, and the monsoon current was consequently weak both over the Province and the Bay.

The change which brought about a renewal of monsoon weather in both of these cases was connected with the formation of shallow depressions in the north of the Bay. The disturbances were very feeble and were not attended by stormy weather over the Bay. The first moved north-westward and was soon beyond the boundary of the Province, but the second took a northerly or north-north-easterly course, and filled up over the central districts. The general rain which fell in all districts after the westward movement of the first of these two depressions was maintained in Bengal and Bihar by a shallow land depression, which formed only two or three days after the previous one had left the Province. This land depression remained over the northern and central districts for about two days and then moved westward.

During the month, therefore, there were three shallow depressions, two of which formed over the north of the Bay and one in the north of the Province.

Owing to these rather important interruptions, which do not often occur in July, rainfall has not on an average been up to the normal. The only subdivision in which more than the average amount has been received is Orissa, where the excess is 11 per cent. In South-West Bengal, Behar, and Chota Nagpur rather more than 80 per cent. of the normal amount fell, while in the east of the Province the average fall was slightly below 80 per cent.

The month began with a rapid rise of pressure in Assam and North Bengal. The pressure distribution became much more normal, but the westerly winds continued with the high temperature which had been established during the last few days of June. On the 1st of July excess in mean temperature varied from 2° or 3° in the extreme east of the Province to 10° in Chota Nagpur. As the pressure gradient became more normal, easterly winds extended slowly westwards. They were more general in the eastern districts on the 2nd; but though temperature was falling, there was very little rain—only scattered showers. In the west the high temperature with excess between 5° and 10° was maintained. Owing to a slow to brisk fall of pressure on the 3rd and 4th, the change which had been in process during the two previous days was checked, and it was not till the 5th that easterly winds became general over the north of the Province. On that day the pressure distribution was fairly normal, but the first signs of the commencing disturbance were shown in the east of the Bay, where pressure was falling slowly, while there had been a slow to brisk rise elsewhere. Rainfall was then more general in the eastern districts, and temperature was not above the normal, but in the west excess was still between 5° and 10°.

The shallow depression continued to develop slowly on the 6th and 7th, and the centre was close to the Orissa Coast on the morning of the 8th, when pressure was about ·1 inch below the normal at most of the coast stations in the north of the Bay. Showery weather had by that time become general in all districts, and temperature was above the normal by only small amounts. The cyclonic circulation of winds was regular, but they attained to no more than moderate strength. The centre was more to the north on the 9th, near Saugor Island, where pressure was 29·4 inches, with defect of ·14 inches, and a fairly steep gradient obtained over both the Bay and the Province. The depression then moved rapidly westward, and on the 10th ordinary monsoon weather prevailed, with easterly winds except in Orissa.

As the disturbance had been slight, it soon ceased to influence weather in Bengal even in the western districts. On the 11th winds were becoming south or south-west in Chota Nagpur, and a two-fold change occurred in pressure, viz., a brisk rise in Orissa and Chota Nagpur and a moderate fall in North and East Bengal. This was the beginning of the shallow land depression which had such an important influence in maintaining the rainfall till after the middle of the month. Though there was a fairly regular cyclonic circulation of winds over the Province on the 12th, the depression was not well defined

till the 13th, when its centre was near Bhagalpur, with defect in pressure of less than ·1 inch On the 14th it was in practically the same position, but had deepened somewhat, and on the 15th it was over the west of Behar, moving westward. During these three days, while the centre of the depression was over the Province, general heavy rain was falling, most so in the western and southern districts. The moist current from the Bay, set up by the depression, continued for some days; and though rainfall was becoming lighter, it was not till the 20th that it was at all scattered. From the time, therefore, of the commencement of the first depression over the Bay, about the 7th, till the 20th, there was general and at times heavy rain over the whole Province.

Owing to a steady slow increase of pressure on the days following the 16th, the distribution had recovered by the 19th, and a moderate excess prevailed over the Province and the north of the Bay. This gave a distribution of pressure more uniform than usual, and it became more so during the subsequent days, with lighter and more scattered rainfall except in the north-east of the Province. On the 22nd the difference from the normal varied from excess of nearly ·2 inch in East Bengal to a small defect in the south-east of the Bay, and there was very little change in this arrangement till the 26th, when a brisk fall set in. There was then, as compared with the normal, a shallow depression over the south of the Bay. It was transferred rapidly north-westward, and was shown on the 29th as a very slight depression over the north-west angle of the Bay, moving northwards. The greatest defect was only ·05 inch; but as there was a considerable excess in the south-east the gradient over the Bay was moderately steep. Continuing to move northwards, the depression became diffused over Bengal by the 30th, with a cyclonic circulation of light winds round a centre near Jessore; and on the 31st it had almost filled up, the residual depression being over North Bengal.

Rainfall was fairly general on the 29th; but as the depression moved northwards, it became more frequent and heavy, many stations reporting heavy falls on the 30th and 31st.

Pressure changes were never large throughout the month, owing to the occurrence of only very shallow depressions. At the beginning of the month pressure was highest in the south and lowest in the north-east, but a reversal occurred shortly after the middle, and a considerable excess developed over Assam and the east of the Province. Mean pressures are very nearly normal, a small excess prevailing, except in the west of South Behar, where there is a very slight defect.

Temperature, as stated above, was very high in the early part of the month, especially in the western districts, where mean daily excess was for several days as much as 10°. During the period of heavy general rain about the middle of the month, the dense cloud which then prevailed caused low day readings: at other times a fairly normal temperature obtained. Mean maximum values for the whole month are 4° above the normal in Chota Nagpur and the west of South Bihar, and from 1° to 3° elsewhere. Excess in mean minimum temperature is very uniform at about 1.° Means for the larger divisions are all above the normal, excess being 2·5° in Chota Nagpur, 1·9° in Bihar, 1·2° in South-West Bengal, 1° in Orissa, and rather less than 1° in North and East Bengal.

Rainfall.—Orissa is the only subdivision which on an average received more than the normal, and that was due to heavy falls near the coast. Excess was 1·33 inches. In the other subdivisions defect was about 2 inches except in East and North Bengal, where it was 3·6 and 4·1 inches respectively. Notwithstanding the marked break at the beginning of the month and the partial break towards the end, when only scattered showers were falling the number of rainy days, taking a rainy day as one on which a tenth of an inch or more has fallen, was not far short of the normal. The greatest deficiency was four days in South-West Bengal. This shows that the rainfall was well distributed during the second and third weeks, and was not due to any unusually heavy falls.

The area in which falls were most in defect, about 10 inches, is in the north of the Sonthal Parganas and the east of Behar. From there the deficiency diminishes in all directions, but is more than 5 inches only in the west of Behar and part of North Bengal. In the south-west there is an area of deficient rainfall with defect of about 5 inches, including parts of the Orissa Tributary Mahals and the Singbhum and Midnapore districts. Over the greater part of the remaining area a small defect prevails, the exceptions being the coast districts of Orissa, the 24-Parganas and Sundarbans, the west of South Bihar and the Jalpaiguri district, where falls are in excess by variable amounts up to 10 inches.

The total falls for the month are less than 5 inches in parts of Malda and the Sonthal Parganas, and between 5 and 10 inches in the central districts of Bengal proper and the greater part of North Bihar. In the Sundarbans, Backergunge and Noakhali falls generally vary between 10 and 20 inches, and in Chittagong they are between 20 and 25 inches. In North Bengal they as usual increase rapidly towards the hills, but this year they are more irregular, varying from 5 inches in part of Dinajpur to more than 50 inches at Buxa. There is also greater irregularity than usual in Chota Nagpur and South Bihar, but generally falls vary between 10 and 15 inches.

The following table gives a comparison of the falls in the various divisions during the month of July with the normal fall, the actual being given as a percentage of the normal fall. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total of the falls

of the past seven months of the year in each division expressed as a percentage of the normal fall :—

The following table gives full data for the comparison of the actual and normal rainfall of the month of July in all districts of the Province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 25 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage; and the fourth column gives the same information in a slightly different form, expressing as a percentage how much the district rainfall varied in excess or in defect from the normal rainfall :—

The 19th August 1897.—The following Rules are added, as Section X(*a*), to the Rules for the guidance of officers engaged in the administration of the Salt Department in Bengal, which were published under Notification, dated the 29th June 1891, at pages 615-655, of the *Calcutta Gazette* of the 1st July 1891.

SECTION X(*a*).

Rules for the delivery of Salt from boardship by night.

1. THE rules in this Section relate to the unloading of salt from boardship between 6 P.M. and 6 A.M.

2. The night is divided into two watches—(1) from 6 P.M. to midnight, and (2) from midnight to 6 A.M.

3. Night work is confined to salt which is going into bond. Salt shall not be worked under rowanas at night.

4. Any person wishing to discharge salt into bond at night shall submit an application to the Collector or Superintendent, Preventive Service, 24 hours before the time when such work is to begin, stating the name of the vessel, the berth or moorings at which she is lying, the bonded warehouse into which she is to discharge, the hour of commencement of discharge,

the probable number of hours during which work will continue, and the number of scales which it is proposed to work. The applicant shall also undertake to pay the overtime fees prescribed below.

5. If the vessel is lying in the Kidderpore Docks, or in any part of the river between the Docks and the Hooghly Bridge, the application shall ordinarily be granted.

If the vessel is lying below the Docks, it shall only be granted if there is a sufficient number of Inspectors and Custom Officers available.

6. For each watch, one Inspector shall be posted to each vessel. If two or more vessels are lying close together, the same Inspector may take charge of them, if the Superintendent approves.

7. The light employed shall be the electric light, or such other light as may specially be approved by the Superintendent.

The Superintendent may stop work between sunset and sunrise, if he considers the light imperfect, or for any other reasonable cause.

8. The following fees shall be payable for each scale for which application is made :—

	Rs.	A.	P.	
(1) Superintendent	5	0	0	
(2) Inspectors for each watch	3	0	0	
(3) Weighing officers	1	0	0	per hour.
(4) Salary of two officers at Rs. 100 per mensem ...	6	10	8

PLAGUE NOTIFICATION—No. 3.

Calcutta, the 17th August 1897.

In exercise of the powers conferred by section 2 of the Epidemic Diseases Act III of 1897, and by the Notification of the Government of India in the Home Department, No. 302, dated the 4th February, and in supersession of Plague Notification No. 3, dated the 25th May 1897, which is hereby cancelled, the Lieutenant-Governor of Bengal is pleased to declare that all vessels and persons leaving the undermentioned ports in Bengal for ports out of India shall be subjected to the rules in the Regulation hereinafter set forth:—

Calcutta.	Balasore.	False Point.
Chittagong.	Chandbally.	Puri.

RULES.

1. *Medical inspection and bill of health.*—No vessel shall leave any such port for any port out of India until she has been inspected by the Health Officer of the port, and the Master or person in charge of such vessel has obtained from such Officer a bill of health in the form given below, stating that the Master or person in charge, Officers, crew and passengers (if any) of such vessel have been inspected by him by day at the time of embarkation, and are free from infectious disease dangerous to life and from the bubonic plague. Provided that in the case of passengers, a Certificate in the form annexed as Appendix I, by a Commissioned Medical Officer appointed for this purpose, and dated not more than 12 hours before the departure of the vessel, shall be accepted in lieu of examination by the Port Health Officer. Such Certificates shall be annexed to, and form part of, the bill of health.

2. *Removal of infected persons.*—Should the Health Officer of the port be of opinion that any person on board of any vessel so inspected is suffering from the bubonic plague or is not free from the infection of the plague, such person and all his relations and non-medical attendants shall be removed from the vessel to a plague hospital or place of observation appointed by Government, and such parts of the vessel as have been frequented by such person or his relations and attendants shall be disinfected to the satisfaction of the Health Officer. When a case which is ascertained or believed to be plague is discovered on board, the fact shall be stated in the bill of health, as well as the precautionary measures adopted.

3. *Disinfection of suspected articles.*—All contaminated or suspected articles shall be thoroughly disinfected on shore, or in the disinfection lighter, under the supervision of the Port Health Officer, in the manner prescribed in Appendix II.

4. *Fresh bill of health when necessary.*—After the Master or person in charge of the vessel has obtained a bill of health under the provisions of these rules, no person shall be admitted on board such vessel before she leaves the port, unless such vessel is again inspected by the Health Officer of the port, and another bill of health obtained from such officer by the master or person in charge of such vessel.

5. *Port Clearance.*—(*a*) Except as provided for in clause (*b*) of this rule, no port clearance shall be delivered to any vessel bound from any such port to any port out of India,

unless and until the Master or person in charge thereof shall produce the bill of health so to be obtained as aforesaid; and it shall be the duty of Customs Officers to refuse delivery of the port clearance, without the production of such bill of health.

(*b*) Provided that the Collector of Customs may grant port clearance under section 66 of the Sea Customs Act on a guarantee being given by the Agents of a vessel, that within 48 hours of departure they will produce a duplicate copy of the bill of health as finally granted, signed by the Port Health Officer or an additional Port Health Officer, and that if for any reason the Health Officer should refuse to grant the bill of health, they will bring the vessel back to her moorings.

6. *Health Officers.*—The duties of Health Officers under these rules shall be discharged by the Medical Officers named below, or by such other Medical Officer or Officers as may from time to time be appointed for such purpose by the Lieutenant-Governor:—

	Health Officers.
Calcutta	Port Health Officer and Additional Port Health Officers.
Chittagong	Civil Surgeon.
Narayanganj	Civil Hospital Assistant, Narayanganj.
Balasore	Civil Surgeon.
Chandbally	Civil Hospital Assistant, Chandbally.
False Point	Ditto, Jambu.
Puri	Civil Surgeon.

C. E. A. W. OLDHAM,
Offg. Secretary to the Govt. of Bengal.

Bill of Health.

THIS is to certify that the ship (or steamer) sailing under the flag and under the command of as Master, of tons, bound for with a crew of persons* and passengers, is at the time of leaving this port in a satisfactory sanitary condition, and that no case of infectious disease dangerous to life, or of bubonic plague, exists among her Officers, passengers, or crew, all of whom have been inspected by me, with the exception of the persons named below, by day at the time of embarkation.

* Including Officers and able-bodied seamen.

It is further certified that the town and port of are at present† *free from* plague, epidemic cholera, yellow fever and all other dangerous epidemic disease.

† Or as the case may be.

The persons named below, who are personally known to me, or whose identity has been proved to my satisfaction, have produced the annexed Certificates from Medical Officers duly appointed in this behalf.

APPENDIX I.

CERTIFICATE.

I DO hereby certify that I have examined , a passenger on the ship , not more than twelve hours before the departure of the ship from the port of , and find him in good health, except as noted in the margin, and free from any symptoms of bubonic plague.

Rank,

Official designation.

Specially appointed under Rule 1 of Plague Notification No. 3, dated the 17th August 1897, to examine passengers leaving the port of by sea.

APPENDIX II.

UNDER-CLOTHING, bedding, wearing apparel, mattresses, carpets, etc., which are contaminated or *suspected*, should be disinfected in stoves at *normal pressure, or at a pressure of from one and-a-half to two degrees, with or without the presence of steam.*

Before a stove is passed as efficient for the purposes of disinfection, it should be subjected to a test, with the aid of a signal thermometer, showing the moment when the temperature in the middle of a mattress rises to at least 100° (centigrade).

To ensure that the disinfection is effective, this temperature must be maintained for from 10 to 15 minutes.

Disinfecting solutions—

(*a*) Solution of corrosive sublimate, of 1 part in 1,000, with the addition of 10 parts of chloride of soda.

The solution should be coloured with aniline dye or indigo. It should not be placed in metal vessels.

(*b*) A 5 per cent. solution of pure crystallized carbolic acid, *or 5 per cent. of crude commercial carbolic acid, in a warm solution of soft soap.*

The carbolic solutions will be useful, more particularly for disinfecting articles, such as metals, instruments, etc., which can neither be subjected to a temperature of 100° centigrade, nor placed in contact with corrosive sublimate. They may also be used at ports not provided with a disinfecting stove of the prescribed pattern.

NOTIFICATION.—No. 4644J.

The 24th August 1897.—In supersession of the notification dated the 13th June 1892, published in the *Calcutta Gazette* of the 15th idem, page 633, it is hereby notified, under the provisions of section 5 (2) of Act IX of 1887, that the territorial jurisdiction of the Small Cause Court established at Dacca under the abovementioned Act will be conterminous with, and will extend over, the limits of the Sadar, Keraniganj, Sabhar, Nawabganj, Narayanganj and Kapasia police-stations.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION—No. 4766J.

The 24th August 1897.

THE following draft of certain rules which it is proposed to make in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act (IV of 1884) is published, as required by section 18 of the said Act and Government of India, Home Department, Notification No. 1964, dated 2nd September 1887, for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Lieutenant-Governor after the 24th day of September 1897.

2. Any objection or suggestion which may be received from any person with respect to the draft before that date, will be considered by the Lieutenant-Governor.

C. W. BOLTON,
Chief Secy. to the Govt. of Bengal

NOTE.—All changes proposed in the existing rules are indicated in italics.

DRAFT.

In exercise of the powers conferred by sections 5 *and 7* of the Indian Explosives Act (IV of 1884) and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the following rules to regulate the manufacture, possession and sale of explosives in the Lower Provinces of Bengal.

Nothing in these rules relating to the possession of explosives shall apply in any port, as defined in the Indian Ports Act, 1889, for which the Local Government may have made, or may make, special rules under the Indian Explosives Act (IV of 1884) to regulate the possession of explosives.

Nothing in these rules shall apply to the manufacture, possession or sale of any explosive—

(a) by order of the Government, or

(b) by any person employed under the Government in the execution of the Indian Explosives Act (IV of 1884), or as a keeper of a magazine, artizan, soldier, sailor, policeman, or otherwise, or enrolled as a Volunteer under the Indian Volunteers Act (XX of 1869), in the course of his employment or duty as such.

RULES UNDER THE EXPLOSIVES ACT, 1884, FOR THE MANUFACTURE, POSSESSION AND SALE OF EXPLOSIVES IN THE LOWER PROVINCES OF BENGAL.

PRELIMINARY.

1. For the purposes of these rules, explosives shall be classified as follows, namely:—

Class 1	...	Gunpowder.
Class 2	...	Nitrate-mixture.
Class 3	...	Nitro-compound.
Class 4	...	Chlorate-mixture.
Class 5	...	Fulminate.
Class 6	...	Ammunition.
Class 7	...	Firework.

And when an explosive falls within the description of more than one class, it shall be deemed to belong exclusively to the latest of the classes within the description of which it falls.

CLASS 1.—*Gunpowder Class.*

The term "gunpowder" means exclusively gunpowder ordinarily so called.

CLASS 2.—*Nitrate-mixture Class.*

The term "nitrate-mixture" means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance.

The nitrate-mixture class comprises such explosives as—

Pyrolithe,
Hydrolithe,
Poudre saxifragine,

and any preparation coming within the above definition.

CLASS 3.—*Nitro-compound Class.*

The term "nitro-compound" means any chemical compound possessed of explosive properties, or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions.

Division 1 comprises such explosives as—

Nitro-glycerine,	Dualine,
Dynamite,	Glyoxiline,
Lithofracteur,	Methylic nitrate,

and any chemical compound or mechanically mixed preparation which consists, either wholly or partly, of nitro-glycerine or some other liquid nitro-compound.

Division 2 comprises such explosives as—

Gun-cotton ordinarily so called,	Cotton gunpowder,
Gun-paper,	Schultz's power,
Xyloidine,	Nitro-mannite,
Gun sawdust,	Picrates,
Nitrated gun-cotton,	Picric powder,

Tonite (or cotton powder),

and any nitro-compound as before defined which is not comprised in the first division.

CLASS 4.—*Chlorate-mixture Class.*

The term "chlorate-mixture" means any explosive containing a chlorate.

The chlorate-mixture class has two divisions—

Division 1 comprises such explosives as—

Horsley's blasting powder,
Brain's blasting powder,

and any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound.

Division 2 comprises such explosives as—

Horsley's original blasting powder,	Hochstadter's blasting charges,
Erhardt's powder,	Reichen's blasting charges,
Reverley's powder,	Teutonite,
	Chlorated gun-cotton,

and any chlorate-mixture as before defined which is not comprised in the first division.

CLASS 5.—*Fulminate Class.*

The term "fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing classes or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliances for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

The fulminate class *has* two divisions.

Division 1 comprises such compounds as the fulminates of silver and of mercury and preparations of these substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphurate, with or without carbonaceous matter.

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

CLASS 6.—*Ammunition Class.*

The term "ammunition" means an explosive of any of the foregoing classes when enclosed in any case or contrivance, or otherwise adapted or prepared so as to form a cartridge or charge for small-arms, cannon, or any other weapon, or for blasting, or to form any safety or other fuze for blasting, or for shells, or to form any tube for firing explosives, or to form a percussion-cap, a detonator, a fog-signal, a shell, a torpedo, a war-rocket, or other contrivance other than a firework.

The term "percussion-cap" does not include a detonator.

The term "detonator" means a capsule or case which is of such strength and construction, and contains an explosive of the fulminate-explosive class in such quantity that the explosion of one capsule or case will communicate the explosion to other like capsules or cases.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. *The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine-guns which have special chambers.*

The maximum gauge at which a small-arm cartridge can be accepted as "safety" is one inch. The following are the gauges of the machine-gun cartridges which may be accepted as "safety":—

·303-inch cordite.
Martini-Henri rifle, solid case.
·45-inch Gardner, Gatling and Nordenfeldt, except Martini-Henri chambered guns.
·4-inch.
Cartridges of larger gauge are not safety cartridges.

The ammunition class has three divisions.

Division I comprises exclusively—

Safety cartridges,
Safety fuzes for blasting,
Fuzes for shells, and tubes friction for guns, provided there be no more than five fuzes or 25 tubes in one package, and that the package be a hermetically-sealed metal cylinder.
Railway fog-signals.
Percussion-caps.

Division 2 comprises any ammunition, as before defined, which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, which are not safety cartridges,

Cartridges and charges for cannon, shells, mines, blasting, or other like purposes,

Shells and torpedoes containing any explosive,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells,
Tubes for firing explosives,
War-rockets,

which do not contain their own means of ignition.

Division 3 comprises any ammunition, as before defined, with contains its own means of ignition and is not included in Division 1, such as—

Detonators,
Cartridges for small-arms, which are not safety cartridges,
Fuzes for blasting, which are not safety fuzes,
Fuzes for shells,
Tubes for firing explosives,

which do contain their own means of ignition.

By ammunition containing its own means of ignition is meant ammunition having an arrangement, whether attached to it or forming part of it, which is adapted to explode or fire the same by friction or percussion.

CLASS 7.—*Firework Class.*

The firework class has two divisions.

Division 1 comprises firework compositions, that is to say, any chemical compound or mechanically mixed preparation of an explosive or inflammable nature, which is used for the purpose of making manufactured fireworks, and is not included in the former classes of explosives, and also any star and any coloured fire composition, *subject to the proviso hereinafter set forth.*

Division 2 comprises manufactured fireworks, that is to say, any explosive of *any of* the foregoing classes and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, *toy cap or amorce,* serpent, rocket (other than a war-rocket), maroon, lance, wheel, Chinese fire, Roman candle, or other article *specially* adapted for the production of pyrotechnic effects or pyrotechnic signals or *sound signals*:

Provided that a substantially constructed and hermetically closed metal case containing not more than 1 lb. of coloured fire composition of such a nature as not to be liable to spontaneous ignition shall be deemed to be a "manufactured firework."

MANUFACTURE, POSSESSION AND SALE.

(*a*) *General Rules.*

2. An explosive shall not be manufactured *except* under, and in accordance with, the conditions of a license to manufacture the explosive granted under these rules:

Provided that this rule shall *not* apply—

(*a*) to the making of a small quantity of an explosive for the purpose of chemical experiment, and not for practical use or for sale; or

(*b*) to the filling for private use, and not for sale, of any safety cartridges to the amount allowed by these rules to be possessed for private use.

3. *Whoever* manufactures an explosive in contravention of Rule 2 shall be punish*able* with fine which may extend to three thousand rupees.

4. An explosive shall not be possessed except under, and in accordance with, the conditions of a license to possess the explosive granted under these rules:

Provided that this rule shall not apply—

(1) to a person possessing for his private use and not for sale—

(*a*) gunpowder to an amount not exceeding on the same premises 30lbs. or in lieu of the said quantity of gunpowder 15lbs. of any other explosive, or in lieu of any less amount of gunpowder not so possessed, half that amount of other explosive; or

(*b*) gunpowder contained in safety cartridges to an amount not exceeding 150lbs., or in lieu thereof 150lbs. of any explosive contained in ammunition of the 1st division of class 6, or in lieu of any less amount of gunpowder not so possessed, that amount of any explosive so contained:

Exception.—Nothing in the foregoing portion of the proviso to this rule shall be held to authorize the possession for private use—

(*a*) *of any explosive of division 1 of the 3rd (nitro-compound) class, except under the conditions of Rule 4A, or* of any explosive of the 5th (fulminate) class; or

(*b*) of any explosive whereof the possession has been prohibited absolutely by notification under section 6 of of the *Indian Explosives* Act (IV of 1884); or

(*c*) where the possession of an explosive has by notification under that section been prohibited, subject to conditions, of any such explosive except subject to those conditions,

(2) to the possession of an unlimited quantity of fire-works, if obtained and intended for immediate use and not for sale, and if kept for a period not exceeding 14 days in a safe and suitable place, and with all due precautions for the public safety:

(3) to the possession of any explosive by a carrier or other person for the purpose of transport when the same is being kept or transported in accordance with the provisions of the rules made under the *Indian Explosives* Act (IV of 1884), with respect to the transport of such explosive: or

(4) to the possession of any gunpowder, rockets or other explosive on board any ship in pursuance of the provisions of the Merchant Shipping Acts *for the time being in force*, or any order or regulation under those Acts.

4A. An explosive of division 1 of the 3rd (nitro-compound) class shall not be possessed except under one of the following conditions:—

(*a*) *Under a license in Form D or E.*

(*b*) *Under a pass issued by a holder of a license in Form D or E to a person in his employ, such pass to cover not more than 5lbs. of the explosive and not to be valid for more than 24 hours, each pass to bear the name of employé to whom issued, the amount covered, and the date and hour of issue.*

(*c*) *Under a pass issued by a holder of a license in Form E to a person in the employ of a holder of a license in form D to convey not more than 60lbs., or to a person in the employ of a holder of a license in Form E to convey not more than 100lbs. of the explosive in a sealed box to such license-holder, such pass not to be valid for more than 24 hours.*

For the purpose of this rule, the term "license-holder" shall include.

(1) In the case of a license granted to a Company, the Company's local agent, or manager, and any employé of such Company, to whom the local agent or manager has granted permission in writing to exercise his powers under this rule, such permit to be countersigned by the District Magistrate or Subdivisional Officer.

(2) In the case of a license granted to an individual, any employé of such individual authorised under the above conditions to exercise his powers under this rule.

5. *Whoever* possesses an explosive in contravention of rule 4 *or rule 4A* shall be punish*able* with fine which may extend to one thousand rupees.

6. An explosive shall not be sold except under, and in accordance with, the conditions of a license to sell the explosive granted under these rules:

Provided that this rule shall not apply to any person selling any explosive which for his own private use he lawfully possesses, to any person who is not legally prohibited from possessing the same.

7. *Whoever* sells an explosive in contravention of rule 6 shall be punish*able* with fine which may extend to five hundred rupees.

(*b*) *Licensing of the manufacture, possession, and sale of gunpowder and certain explosives.*

8. Licenses to manufacture, possess and sell, or to possess and sell, or to possess an explosive of the 1st (gunpowder) class, or of the 1st division of the 6th (ammunition) class, or of the 7th (fire-work) class, to such total amount during the currency of the license and in such places as shall be approved by the licensing officer, may be granted in a Presidency-town and its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate:

Provided that nothing in any such license shall be deemed to entitle the license-holder to keep at the same time in the place to which the license applies more than 200lbs. of gunpowder, 500lbs. of explosive contained in ammunition of the 1st division of the 6th (ammunition) class, and 200lbs. of fire-works, or any such less quantity of any of these explosive as the licensing officer may direct in this behalf.

9. The following fees shall be paid for every license granted under the last foregoing rule, namely:—

(*1*) a fee of twenty rupees for every license to manufacture, possess and sell the maximum quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;

(*2*) a fee of ten rupees for every license to manufacture, possess and sell half the quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;

(*3*) a fee of five rupees for every license to manufacture, possess and sell a fourth of the quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;

(*4*) a fee of ten rupees to possess and sell the maximum quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;

(*5*) a fee of five rupees to possess and sell half the quantity of explosive mentioned in the *last foregoing* rule, or any less quantity;

(*6*) a fee of two rupees eight annas to possess and sell a fourth of the quantity of explosive mentioned in the *last foregoing* rule, or any less quantity; and

(*7*) a fee of eight annas for every license to possess explosives.

10. Every license granted under rule 8 shall be in Form A, B or C in the schedule hereto annexed, as the case may be, and shall be subject to the conditions prescribed therein.

11. *Whoever* commits a breach of any condition subject to which a license under rule 8 is granted, shall be punish*able* with fine which may extend to five hundred rupees.

(*c*) *Licensing of the manufacture of other explosives.*

12. Licenses to manufacture explosives other than those referred to in rule 8 shall be granted by the Governor-General in Council on payment of such fees, in such form, for such term and subject to such conditions, as the Governor-General in Council may in each case prescribe:

Provided that the Governor-General in Council shall, in the case of any such license, prescribe all the conditions which are hereinafter prescribed for licenses to possess an explosive of the same description and quantity as the manufacturing license is to cover.

13. *Whoever* commits a breach of any condition subject to which a license under rule 12 is granted, shall be punish*able* with fine which may extend to three thousand rupees.

(*d*) *Licensing of the possession of small quantities of other explosives.*

14. Licenses for the possession, at such places as shall be approved by the licensing officer, of explosives other than those specified in rule 8 *may*, if the explosive is not one of the 5th (fulminate) class, and if the quantity to be possessed at the same time does not exceed 60lbs., be granted in a Presidency-town

and its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate.

15. Every license granted under rule 14 shall be in Form D in the schedule hereto annexed, and shall be subject to the conditions prescribed therein. A fee of five rupees shall be paid for every such license.

16. *Whoever* commits a breach of any condition subject to which a license under rule 14 is granted, shall be punish*able* with fine which may extend to one thousand rupees.

(*c*) *Licensing of the possession of explosives generally.*

17. Licenses for the possession of explosives other than those which may be issued under rules 8 and 14 *may*, if the explosive is not one of the 5th (fulminate) class, be granted by the Local Government in accordance with the following procedure:—

(1) The applicant shall submit to the District Magistrate, or in a Presidency-town and its suburbs, to the Commissioner of Police, an application in writing accompanied by a plan (drawn to scale) of the place in which it is proposed to keep the explosive (herein referred to as the magazine) and the site thereof.

(2) The application shall specify such of the following matters as are applicable, namely:—

(*a*) the boundaries of the land forming the site of the magazine, and either any belt of land surrounding the site which is to be kept clear, and the buildings and works from which it is to be kept clear, or the distances to be maintained between the magazine, or any part thereof, and other buildings and works;

[*If a table of minimum distances has been prescribed in this behalf by the Governor-General in Council, or the Local Government with the sanction of the Governor-General in Council, the distances to be maintained between the magazine and the various kinds of buildings shall not be less than those specified for the explosive in question (when stored in the quantity intended) in the Government list of distances.*]

(*b*) the situation, character and construction of all the mounds, buildings and works on or connected with the magazine, and the distances thereof from each other;

(*c*) the amount of explosives and of ingredients thereof wholly or partly mixed to be allowed at the same time within the boundaries of the magazine; and

(*d*) any special terms which the applicant may propose by reason of any special circumstances arising from the locality, the situation or construction of any buildings or works, or the nature of any process or otherwise.

(3) Upon receipt of the said application—

(*a*) The District Magistrate or Commissioner of Police, as the case may be, shall thereupon cause notice to be published of the application, and fix a date on which any person shall be heard objecting to the establishment of a magazine on the proposed site who have not less than seven clear days before the day of hearing sent to the said District Magistrate or Commissioner of Police, and to the applicant, notice of their intention to appear and object with their names, address and calling, and a short statement of the grounds of their objection.

(*b*) Where the site of the proposed magazine is situate within, or within one mile of, the limits of the jurisdiction of any municipality or of any Port authority, the applicant shall serve on such authority notice of the application, and of the date of hearing by the District Magistrate or Commissioner of Police.

(*c*) The said notices shall be published and served at the cost of the applicant by the District Magistrate or Commissioner of Police not less than one month before the date of hearing.

(*d*) The District Magistrate or Commissioner of Police shall fix the date of hearing as soon as practicable after application is made to him, and the time so fixed shall be as soon as practicable after the expiration of the said month from the publication and service of the notices by the applicant.

(*e*) On consideration of the application, and on making such enquiry as may be deemed necessary, the District Magistrate or Commissioner of Police may dissent altogether from the establishment of such new magazine on the proposed site, or assent thereto, either absolutely, or on any conditions requiring additional restrictions or precautions.

(*f*) On the completion of the enquiry, the District Magistrate or Commissioner of Police shall forward the application with his recommendation to the Local Government. The Local Government may thereupon grant the license applied for, either in accordance with the recommendation of the District Magistrate or Commissioner of Police, or with the addition of any additional restrictions and precautions as may be deemed proper, or may refuse such license:

Provided that, if the distance of the proposed magazine from any dwelling house, highway, street, public thoroughfare or public place is less than 200 yards, or if for any other reason it considers it advisable to do so, the Local Government shall, before granting the license, obtain the opinion of an Inspector of Explosives after inspection of the place by him.

If a table of distances to be observed has been prescribed, it will be sufficient to see that the provisions regarding the minimum distance so laid down for the case is not infringed:

Provided that, if the application is for the renewal of a license issued prior to the issue of the table of distances, the Local Government may, if the Inspector of Explosives advises that this can be done without danger, renew the license without requiring that the table of distances shall be complied with.

(*g*) If the Local Government grant a license, it shall forward the same to the District Magistrate or Commissioner of Police, who, when satisfied that the magazine is sufficiently completed according to the license to justify the use thereof, shall confirm the license; but until so confirmed the license shall not come into force.

18. A fee of Rs. 20 shall be paid for every license granted under rule 17.

19. Every license granted under rule 17 shall be in Form E in the schedule hereto annexed, and shall be subject to the conditions prescribed therein.

19A. With the previous sanction of the Government of India and subject to any conditions or restrictions that may be deemed necessary, the Local Government may authorize the possession of explosives under rule 17 in a floating magazine, and may direct the necessary modifications in the procedure prescribed in rule 17 and in license Form E in such special cases.

20. *Whoever* commits a breach of any conditions subject to which a license under rule 17 is granted, shall be punish*able* with fine which may extend to one thousand rupees.

21. Licenses for the possession of explosives of the 5th (fulminate) class shall be granted by the Governor-General in Council on payment of such fees and in such form, and subject to such conditions, as he may in each case prescribe.

22. *Whoever* commits a breach of any condition subject to which a license is granted under rule 21, shall be punish*able* with fine, which may extend to one thousand rupees.

(*c*) *Licensing of the sale of other explosives.*

23. Licenses for the sale of explosives other than those referred to in rule 8 may be granted in a Presidency-town and its suburbs by the Commissioner of Police, and elsewhere by the District Magistrate, to any person licensed to possess the same.

24. A fee of five rupees shall be paid for every license granted under rule 23.

25. Every license granted under rule 23 shall be in Form F in the schedule hereto annexed, and shall be subject to the conditions therein prescribed.

26. *Whoever* commits a breach of any condition subject to which a license under rule 23 is granted, shall be punish*able* with fine, which may extend to five hundred rupees.

(*f*) *Supplementary.*

27. The officers herein undermentioned are authorized, within the areas respectively specified below,—

(a) *to enter, inspect and examine any place, carriage or vessel in which an explosive is being manufactured, poossessed, used, sold, transported or imported under a license granted under the Indian Explosives Act (IV of 1884) or in which they have reason to believe that an explosive has been or is being manufactured, possessed, used, sold, transported or imported in contravention of that Act, or of the rules thereunder;*

(b) *to search for explosives therein;*

(c) *to take samples of any explosives found therein, on payment of the value thereof; and*

(d) *at their discretion to seize, detain, remove and, if necessary for the public safety, destroy any explosive found therein in respect of which there may be reason to believe that the provisions of the said Act or of the rules thereunder have been contravened.*

Areas.	*Officers.*
In all parts of Bengal ...	*The Superintendent of the Gunpowder Factory, Ishapur.* *The Assistant Superintendent of the Gunpowder Factory, Ishapur.*
Within their respective districts ...	*All District Magistrates.*
Within the areas respectively subject to their jurisdiction.	*All Magistrates subordinate to the District Magistrate*
In the Town of Calcutta and its suburbs.	*The Commissioner of Police, Calcutta, and all Police officers of rank not below that of Inspector, if specially deputed in that behalf by the Commissioner of Police.*

Provided that—

(1) *Whenever the Superintendent or the Assistant Superintendent of the Gunpowder Factory, Ishapur, or any Magistrate subordinate to the District Magistrate seizes, detains or removes any such explosive, he shall report the fact to the District Magistrate; and that*

(2) *Neither the Superintendent nor the Assistant Superintendent of the said Factory, nor any Magistrate subordinate to the district Magistrate, shall destroy any such explosive without the previous sanction of the District Magistrate.*

28. A person licensed to possess an explosive shall not be required to take out a license for the manufacture of the explosive by reason that in connection with his magazine or licensed premises he fills for sale or otherwise any cartridge for small arms with the said explosive:

Provided that he observes the following regulations, namely:—

(1) *There shall not be in the room in which such filling is being carried on more than five pounds of gunpowder, or an amount to be prescribed by the Local Government in this behalf of any other explosive, except it is made up into safety cartridges;*

(2) *Any work unconnected with the making of the cartridges shall not be carried on in the room while such filling is being carried on;*

(3) *There shall not be in the room while such filling is being carried on any fire nor any artificial light, except a light of such construction, position or character as not to cause any danger of fire or explosion;*

(4) *The room in which the filling is carried on shall be detached from the magazine, but in the immediate neighbourhood thereof, and at such distance therefrom as may be specified on the license by the authority granting the same; and*

(5) *The occupier shall give notice to the authority granting his license that he intends to carry on such filling of cartridges as is allowed by this rule.*

28A. A person licensed to possess an explosive shall not be required to take out a license for manufacture by reason that, in connection with his magazine or licensed premises he, by filling cartridges, making charges, drying, sifting, fitting or otherwise, adapts or prepares the said explosive for use exclusively in his mine or quarry or in some excavation or work carried on by him, or under his control:

Provided that he observes the following regulations, namely:—

(1) *There shall not be in the workshop in which such adaptation or preparation is carried on more than 100lbs. of gunpowder, or an amount to be prescribed by the Local Government in this behalf of any other explosive;*

(2) *Any work unconnected with such adaptation or preparation shall not be carried on in the said workshop while such adaptation or preparation is being carried on;*

(3) *The said workshop shall be detached from the magazine, but in the immediate neighbourhood thereof, and at such distance therefrom as may be specified on the license by the authority granting the same;*

(4) *An explosive of one description shall not be converted into an explosive of another description and shall not be unmade or resolved into its ingredients; and*

(5) *The occupier shall give notice to the authority granting his license that he intends to carry on such adaptation or preparation as is allowed by this rule.*

D.—GENERAL.

29. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted.

30. If a person licensed to manufacture, possess or sell an explosive dies or becomes bankrupt, or becomes mentally incapable or otherwise disabled, the persons carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the *Indian Explosives* Act (*IV of 1884*) or the rules thereunder for carrying on the business or acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license. Such new license shall be granted on payment of one rupee.

31. The fees leviable under these rules shall be taken in the shape of impressed stamps. Applications for licenses or renewals of licenses shall, if not otherwise provided, be written on plain paper, the licenses themselves being issued on impressed stamps of value equal to the amount of fee leviable in respect of such licenses or renewals.

32. All licenses except licenses to manufacture an explosive under Rule 12, or to possess explosive of the 5th (fulminate) class under Rule 21, shall expire on the 31st December of the year for which they are granted. Licenses granted under Rules 12, 21, shall be current for the terms therein specified. But the currency of a license, may, unless the circumstances have so changed that the grant of a new license would either not be authorized under the Act and rules, or is deemed objectionable by the licensing authorities, on application previous to its expiration, be renewed on payment of the original fee.

33. When a license granted in accordance with these rules is lost or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of eight annas.

34. Any person holding a license, or acting under a license, granted in accordance with these rules, shall be bound to produce the same when called upon to do so by *any Inspector of Explosives* or any Magistrate or by any Police Officer in charge of a police-station or by any Police Officer of higher rank.

35. All Magistrates or other authorities acting under these rules *shall* perform their duties subject to the control of their executive superiors and of the Local Government.

36. Any authority empowered to grant a license under the foregoing rules may, if he thinks fit, direct by an order written on the license that it shall have the effect of a like license under the Indian Arms Act (XI of 1878).

37. Any person lawfully entitled under the Indian Arms Act (XI of 1878) or the rules thereunder, to possess any explosive coming under the head of ammunition as defined in that Act may possess, without license under these rules, any such explosive in reasonable quantities for his own private use.

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder.

2. The license-holder shall keep records and accounts of all explosive manufactured, of all stock in hand, and of all sales, in such form as the Local Government may from time to time direct.

3. The license-holder shall exhibit his stock and his books of manufacture and sales to any Magistrate or to any Police Officer not below the rank of Inspector, when such officer may call upon him so to do.

4. The explosive shall be manufactured in *a tent or any lightly* constructed building exclusively appropriated for the purpose and *separated from any* dwelling-house *by the distance*—

(a) *in the case of gunpowder, of 100 yards,*

(b) *in the case of an explosive of the 1st Division of the 6th (Ammunition) class or of the 7th (Firework) class, of 50 yards,*

and by the same distances from any highway, street, public thoroughfare or public place. *In the case of filling cartridges for small arms the operation may, if preferred, be carried out in the upper room of a building: Provided that no more than 5lbs. of explosive (except such as may be contained in safety cartridges) shall be in the room where the operation is being carried on. In all other cases the manufacture shall be carried on in a one-storeyed building.*

5. All sales of explosive under this license *shall* be effected upon the premises shown on the face of the license.

6. An explosive shall not be sold to any child apparently under the age of 13 years.

7. The explosive possessed by the licensee shall be kept in *a substantially constructed uninflammable building, approved by such officer as the local Government may prescribe*, or in a fire-proof safe, *separated* from any *dwelling-house*, highway, street, public thoroughfare, or public place *by the distances laid down in condition No. 4*, and made and closed so as to prevent unauthorized persons having access thereto, and to secure it from danger from without:

Provided that a quantity not exceeding 50lbs. of gunpowder, or in lieu of each pound of gunpowder not so kept 2lbs. of explosive contained in ammunition of the 1st division of class 6, or an equivalent quantity of an explosive of the 7th (firework) class, may be kept inside a dwelling-house, or in any building other than as last aforesaid, in a receptacle exclusively appropriated to keeping explosive:

Provided also that no explosive *containing its own means of ignition (other than explosive of the 1st Division of the 6th (Ammunition) class), shall be kept in a fire-proof safe.*

8. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any *room or part of a* building, fire-proof safe, or receptacle containing the same, *and no one entering such room or part of any building or such safe or receptacle shall have any iron or steel in their possession, or attached to or on their boots or shoes.*

9. Neither the building exclusively appropriated for the purpose of manufacturing or keeping the explosive, nor the fire-proof safe or receptacle, shall have any exposed iron or steel (*except machinery necessary for the manufacture*) in the interior thereof.

10. All explosives exceeding 5lbs. in amount of the 1st division of the 6th (ammunition) class or of the 2nd division of the 7th (firework) class, and all other explosives exceeding 1lb. in amount, shall be kept in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosives from escaping, and if publicly exposed for sale or sold, the outermost receptacle containing such explosives shall have affixed the name of the explosives in conspicuous characters by means of a brand or securely attached label or other mark.

11. Each description of explosive which may be kept under this license, shall be separated by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other. *Explosives, of the same class, however, may be kept together; and gunpowder may be kept with safety fuses.*

12.* The license-holder shall affix to his shop or place of business a sign-board as required by Rule 11 of the rules framed under the Indian Arms Act (XI of 1878), and shall post up in his shop a copy of section 28 of that Act.

13.* The license-holder shall at the time of purchase endorse upon the license of every purchaser holding a license under Form VIII or IX of the forms prescribed under the Indian Arms Act (XI of 1878) the following particulars:—

(*a*) the name and address of the person who takes delivery of the article sold;

* These conditions are to be added only when the authority granting this license directs, by an order written thereon, that this license shall have the effect of a like license granted under the Indian Arms Act (XI of 1878).

(*b*) the nature and amount of articles sold;
(*c*) the date of sale;
and shall append his signature to the endorsement.

——*of*——

Conditions.

1. This license is given subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder.

2. There shall not be at the same time in the magazine an amount of explosive exceeding the amount specified in the license.

3. The magazine shall be used only for the keeping of the explosive or explosives specified in the license, and of receptacles for, or tools or implements for work connected with, the keeping of such explosive or explosives.

4. The interior of the magazine and the benches, shelves and fittings therein, shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel, and the detaching of any grit, iron, steel, or similar substances in such manner as to come into contact with the explosive, and such interior, benches, shelves, and fittings shall, so far as is reasonably practicable, be kept free from grit and otherwise clean; and in the case of any explosive being possessed which is liable to be dangerously affected by water, due precautions shall be taken to exclude water therefrom.

5. The magazine shall have attached thereto a sufficient lightning conductor *which shall be tested at least once a year.*

6. Before repairs are done to or in any part of a room or magazine, it shall, as far as is practicable, be cleaned by the removal of all explosive or mixed ingredients thereof, and the thorough washing out of such room or part; and after such cleaning, these conditions shall cease to apply to explosive until such room or part of the magazine is again taken into it.

7. Except after such cleaning, all tools and implements used in, or in any repairs to, any part of the magazine shall be made only of wood, copper, or brass, or some soft metal or material, or shall be covered with some safe and suitable material.

8. Due provision shall be made by the use of suitable working clothes without pockets, suitable shoes, searching and otherwise, or by some such means for preventing the introduction into the magazine of fire, lucifer matches, or any substance or article likely to cause explosion or fire, or any iron, steel or grit; but this rule shall not prevent the introduction of an artificial light of such construction, position, or character as not to cause any danger of fire or explosion.

9. No person shall smoke in any part of the magazine.

10. *No* person under the age of 16 years shall be employed in or enter the magazine except in the presence and under the supervision of some grown-up person.

11. Two or more descriptions of explosive which may lawfully be possessed in a licensed magazine, may be possessed in the same magazine, *if* they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other, subject to the following qualifications:—

(*a*) The various explosives of classes 1 (gunpowder), 2 (nitrate-mixture), 3 (nitro-compound), and 4 (chlorate-mixture), safety fuze belonging to the first division of class 6 (ammunition), and such of the various explosives of the 2nd division of class 6 (ammunition) as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space.

(*b*) The various explosives of the 1st division of class 6 (ammunition) may be kept with each other without any intervening partition or space.

(*c*) Such of the various explosives of the 2nd division of class 6 (ammunition) as contain any exposed iron or steel may be kept with each other without any intervening partition or space.

(*d*) The various explosives of the 3rd division of class 6 (ammunition) may be kept with each other without any intervening partition or space.

(*e*) The various explosives of class 7 (firework) may be kept with each other without any intervening partition or space.

Save as aforesaid, two or more descriptions of explosives *shall* not be kept in the same magazine.

12. The licensee and every person employed in or about the magazine shall take all due precaution for the prevention of accidents by fire or explosion in the same, and for preventing unauthorized persons having access to the magazine or to the explosives therein, and shall abstain from any act whatever which tends to cause fire or explosion, and is not reasonably necessary for the purpose of the work in such magazine.

13. *The license-holder shall keep a register of receipt and issue of explosives, showing, in the case of receipt—*

(a) *date of receipt;*
(b) *name and address of person from whom received;*
(c) *description of explosive received;*
(d) *amount received.*

In the case of issue—

(a) *date of issue;*
(b) *name and address of person to whom issued;*

Letter from the Foreign Office, to the Indian Tea Association.

May 21, 1897.

WITH reference to my letter of the 3rd instant, I am directed by the Marquess of Salisbury to transmit to you a copy of a memorandum* which has been received from Her Majesty's Ambassador at St.

* Not printed.

Petersburgh, in which are set forth the regulations that are now being enforced in respect of tea and other products of Eastern origin by the Russain Customs.

Sir N. O'Conor states that no prohibition against the importation of tea is in existence, and that the process of disinfection which is described in the memorandum, and which is only applied to the outer covering of the chests, could not possibly cause any injury to the tea.

I am, &c.,

Notification by the Board of Trade.

London, July 9, 1897.

The Board of Trade have received, through the Secretary of State for the Colonies, the following copy of a Notice issued by the Governor of Malta, viz.:

Government Notice.

His Excellency the Governor, having heard the opinion of the Board of Health, has been pleased to modify Government Notice No. 118 of 7th June 1897, and to direct that the following regulations be observed, viz.:

1. Vessels which are not allowed to enter the Harbour, but are allowed to communicate in quarantine with the Islands of Comino and Cominotto under such restrictions as the Collector of Customs may direct.

(*a*) Vessels that have on board, or have had during the voyage cases of cholera, yellow fever or plague or cases of a disease with symptoms resembling those of cholera, yellow fever or plague.

(*b*) Vessels with pilgrims from the East.

(*c*) Vessels arriving from Arabian Ports in the Red Sea and the Persian Gulf which have not been admitted to free pratique at Suez and Port Said.

2. Vessels which are allowed to enter the Quarantine Harbour to coal and take in provisions under quarantine restrictions.

(*a*) Vessels arriving from Bombay or Kurrachee which have not been admitted to free pratique in any port in the Adriatic or Mediterranean Sea, or which have not, to the satisfaction of the Chief Government Medical Officer, been thoroughly disinfected before being admitted to free pratique at the said port.

(*b*) Vessels arriving from any port without a clean bill of health, which do not fall under any of the preceding regulations.

3. Medical Inspection.

All vessels arriving at Malta shall undergo strict medical inspection.

4. Passengers.

Passengers arriving from Mediterranean Ports must, before landing, declare on oath that they have not been in Bombay or Kurrachee within the last 30 days. All passengers who have been within the last 30 days in Bombay or Kurrachee shall be landed at the Lazaretto and remain there, under such restrictions as may be ordered by the Port Authority, for a period not less than 7 days from the date of disinfection and not less than the number of days required to complete 30 days from the date of departure.

5. Goods.

The importation of coffee coloured with substances injurious to health is prohibited.

The imortation of cotton seed from any port subject to quarantine is forbidden.

The importation of rags is prohibited.

The importation is forbidden before disinfection of the following articles, viz., wearing apparel, soiled linen and clothing, bedding materials, hides, feathers, bones and jute goods.

The importation of vines, vine shoots and fruit packed in vine leaves is prohibited. The importation of plants or roots from any port of the Mediterranean is prohibited unless the same are accompanied by a satisfactory certificate that phylloxera is not known to exist at the place of origin.

By command,
F. VELLA,
Acting Chief Secretary to Government.

Extract from the "Ceylon Government Gazette" No. 5489 of July 23, 1897.

Regulations made by the Governor, with the advice of the Executive Council, under the provisions of the Ordinance No. 3 of 1897:—

1. The regulations made by the Governor, with the advice of the Executive Council, bearing date the 13th and 26th March 1897, are hereby repealed.
2. The landing at any place in this Island of the following goods, shipped at any port on the West Coast of India, or transhipped to any vessel from any vessel which shall have conveyed such goods from any port on the West Coast of India, is prohibited:—
   (1) Used body linen, clothes, bedding, and other personal effects.
   (2) Rags, including rags compressed by hydraulic pressure and transported in bales as merchandise.

(3) Used sacking or bags, carpets, and old embroidery.
(4) Green and untanned hides and skins.
(5) Animal refuse, claws, hoofs, horsehair, hair of animals generally, raw silk, and wool.
(6) Human hair.

3. The transhipment within any port of Ceylon of such prohibited goods from one vessel to another is prohibited.
4. The Principal Officer of Customs at any place at which any landing or transhipment shall take place of such prohibited goods shall, unless the Governor shall otherwise direct, cause the destruction of such goods. The cost of effecting such destruction shall be paid by the owner and consignee of such goods and by the master of the vessel by which such goods were carried. No compensation for such destruction shall be paid to any person.
5. Any vessel having on board any such prohibited goods shall, so long as she shall have any such goods on board, be deemed in quarantine, and such vessel and all persons and goods shall in respect of such vessel be subject to the regulations published on 2nd March 1897, relating to vessels in quarantine.

By His Excellency's command,

Colonial Secretary's Office,
Colombo, July 23, 1897.

E. NOEL WALKER,
Colonial Secretary.

Regulations made by the Governor, with the advice of the Executive Council, under the provisions of the Ordinance No. 3 of 1897:—

1. The regulations made by the Governor, with the advice of the Executive Council, bearing date the 2nd March 1897, are hereby repealed.
2. Every vessel or boat coming to any place in this Island from any place on the West Coast of India shall be subjected to quarantine for a period not exceeding ten days from the date of departure from such port.
3. No person shall within such period of ten days land at any place in this Island from any such vessel or boat.
4. No person shall at any time within such period of ten days carry, take, or convey any goods from any such vessel or boat to any place in this Island.

The 24th August 1897.

No. 106Marine.—In exercise of the power conferred by section 2 of the Epidemic Diseases Act, III of 1897, and by the Notification of the Government of India in the Home Department, No. 302, dated the 4th February 1897, the Lieutenant-Governor of Bengal has been pleased to prescribe as a temporary measure the following rules for quarantine against plague, and for the medical inspection, isolation, observation, and surveillance of persons suffering from, or suspected of being infected with, plague.

These rules shall take effect from the 26th August 1897 in the Port of Calcutta, and shall supersede all previous rules.

I. *Definitions*:—

(1) *Health Officer.*—In these rules "Health Officer" means the Health Officer of the Port of Calcutta, and includes an Assistant Health Officer and any person appointed by name. or in virtue of his office, to perform the duties of an Assistant Health Officer.

(2) *Infected ship.*—Any ship with plague on board, or on board which one or more cases have taken place within 12 days before her arrival, will be considered *infected.*

(3) *Suspected ship.*—Any ship, on board which there has been a case of plague at the time of departure, or during the voyage, but on which no fresh case has occurred for 12 days before her arrival, will be consided *suspected.*

(4) *Healthy ship.*—Any ship, even though coming from an infected port, which has had no death or case of plague on board, either before departure, during the voyage, or on arrival, will be considered *healthy*.

(5) *Observation.*—The term "observation" means that the persons subjected to it will be segregated in a lazaretto or isolation camp, till they have obtained free *pratique*.

(6) *Surveillance.*—The term "surveillance" means that the persons subjected to it will not be isolated; they will at once obtain free *pratique*, but, on arriving at their destination, they will be kept under medical supervision.

II. *Hoisting of yellow flag.*—The Commander of every vessel, including buggalows or other native craft, (*a*) arriving from an infected port, or (*b*) having plague on board, or (*c*) on board of which one or more cases of plague have taken place within 12 days of her arrival, shall, on arrival at the Sandheads, hoist a yellow flag, and indicate by signal the port from which she has come, and shall keep such flag and signal flying until permitted in writing by the Health Officer to haul it down. The Pilot, on going alongside such vessel, shall direct the flag prescribed above to be hoisted, if that has not already been done.

III. *Prohibition of communication.*—The Commander shall not, without first having obtained permission as hereinafter provided, allow any communication except orally with the shore or any other vessel or boat, excepting only with the boat supplying the Pilots* from the Pilot Brig, and in that case, communication shall be limited to receiving on board the Pilot, his Leadsman, servant and baggage.

N.B.—Pilotage is compulsory for all vessels over 100 tons in the Port of Calcutta.

IV. *Stoppage at Diamond Harbour.*—If there is any case of sickness on board, and the Pilot has reason to believe that it is plague, he shall telegraph to the Health Officer from Saugor, and not proceed beyond Diamond Harbour without the permission of the Health Officer.

V. *Stoppage at Mateabrooj.*—If the Pilot has no reason to believe that there is any one suffering from plague on board, he shall bring the vessel up the river to Mateabrooj, and shall anchor it there till the Health Officer has visited it.

VI. *Inspection by Health Officer.*—The Health Officer, as soon as he has received information of the stoppage of the vessel at Diamond Harbour, or of its arrival at Mateabrooj, shall visit it and ascertain by enquiry from the Commander or the Medical Officer on board, or from other sources of information, whether any person on board is suffering or has suffered from plague. For this purpose, he may demand a declaration, on oath, from the Doctor of the ship, or, failing him, from the Captain, that there has been no case of plague on the ship since her departure.

VII. *Rules relating to infected ships*:—

(1) If an infected ship has, under Rule IV, been stopped at Diamond Harbour, she will await the orders of the Health Officer there. If, under Rule V, she has been brought up to Mateabrooj, the Health Officer will direct the Commander to take her to the Sanitary station at Diamond Harbour, or elsewhere as may be appointed by Government, and to await orders there.

(2) On arrival at the Sanitary station, the sick will be immediately disembarked and isolated under the order of the Health Officer.

(3) The other persons on board shall also be disembarked and, when necessary, kept under observation at the Sanitary station for a period varying, in the discretion of the Health Officer, according to the sanitary condition of the ship and the date of the last case. Such period must not exceed ten days from the date of the last case, whether that occurred on boardship or during the period of observation on shore. It is also in the discretion of the Health Officer to allow such persons to proceed to their destination on their giving a written undertaking, in the form annexed as Appendix I, to submit themselves to surveillance by the Medical Officer (if any) appointed for the purpose, at their destination, for a period of ten days from the date of the arrival of the ship. The undertaking shall be executed in duplicate, and one copy shall be sent by the Health Officer to the Medical Officer concerned.

No one arriving on the vessel shall be left on board except those persons whose presence is necessary for the care of the vessel.

(4) The soiled linen and personal effects of the crew and passengers, which, in the opinion of the Health Officer, may be considered as infected, shall be disinfected, in accordance with the rules contained in Appendix II.

(5) The bilge-water will be pumped out after disinfection, and good drinking-water will be substituted for the water stored on board.

(6) All parts of the ship, which have been inhabited by plague-patients, will be disinfected; and the other parts of the ship may also be disinfected at the discretion of the Health Officer.

(7) When these rules have been fully complied with, the Health Officer shall, by an order in writing under his hand, to be delivered to the Commander, permit the yellow flag to be hauled down.

VIII. *Rules relating to suspected ships:*—

(1) If a suspected ship has, under Rule IV, been stopped at Diamond Harbour, she will await the orders of the Health Officer there. If, under Rule V, she has been brought up to Mateabrooj, the Health Officer will go on board of her there.

(2) The passengers and crew will be medically inspected by the Health Officer.

(3) The soiled linen and personal effects of the passengers and crew which, in the opinion of the Health Officer, may be considered as infected, will be disinfected in accordance with the rules contained in Appendix II.

(4) The bilge-water will be pumped out after disinfection, and good drinking-water will be substituted for the water stored on board.

(5) All parts of the ship, which have been inhabited by plague-patients, will be disinfected; and the other parts of the ship may also be disinfected at the discretion of the Health Officer.

(6) Passengers who are suspected by the Health Officer to be infected with plague may be detained under observation in an isolation hospital appointed for the purpose, for ten days from arrival of the ship, or if plague occurs among them while under observation, from the date of the last case.

(7) The crew will not be allowed to land, except on duty, for ten days from the arrival of the ship.

(8) Passengers who are passed on medical inspection as healthy, will be allowed to proceed to their destination on their giving a written undertaking, in the form annexed, to submit themselves to surveillance by the Medical Officer (if any) appointed for the purpose, at their destination, for a period of ten days from the date of the arrival of the ship. The undertaking shall be executed in duplicate, and one copy shall be sent by the Health Officer to the Medical Officer concerned.

(9) When these rules have been fully complied with, the Health Officer shall, by an order in writing under his hand, to be delivered to the Commander, permit the yellow flag to be hauled down.

IX. *Rules relating to healthy ships:*—

(1) A healthy ship shall be given free *pratique* at once, whatever may be the nature of her bill of health.

(2) Such a ship may, at the discretion of the Health Officer, be subjected to the measures prescribed in Rules VIII (2), VIII (3) and VIII (4), but the ship itself may not be disinfected as in Rule VIII (5), except with the consent of the Commander or Agent.

(3) Passengers who, on medical inspection, are suspected by the Health Officer to be infected with plague, may be detained under observation in an isolation hospital appointed for the purpose, for ten days from the date on which the ship left an infected port, or, if plague occurs among them while under observation, from the date of the last case.

(4) The crew will not be allowed to land, except on duty, for ten days from the date on which the ship left an infected port.

(5) The crew and passengers may, at the discretion of the Health Officer, be subjected to surveillance in the manner described in Rule VIII (8), for a period of ten days from the date on which the ship left an infected port.

(6) When these rules have been fully complied with, the Health Officer shall, by an order in writing under his hand, to be delivered to the Commander, permit the yellow flag to be hauled down.

(7) None of the above measures will be considered necessary when the ship has been given free *pratique* at Colombo or other intermediate port.

X. *Ships carrying a Doctor or a stove.*—In exercising the discretion vested in him by the rules under heads VII, VIII and IX above, the Health Officer should take into consideration the fact of there being a Doctor, or a disinfecting apparatus (stove), on board the ship in question.

XI. *Rules relating to crowded and insanitary ships.*—Crowded ships, ships carrying emigrants or return pilgrims, and ships which appear to be in an insanitary state may, at the discretion of the Health Officer, be treated as suspected ships under Head VIII.

XII. *Right of ship to put back to sea.*—Any ship objecting to submit to the obligations imposed by these rules will be free to put back to sea. Such objection must be notified on or before arriving at Diamond Harbour.

XIII. *Rules applying to ships claiming right to put back to sea.*—If ships claiming the right to put back to sea desire to disembark passengers or land goods, they must submit to the rules relating to suspected ships.

XIV. *Provisions and stores.*—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

APPENDIX I.

I (*name*) of (*place*) do hereby declare that it is my intention at once to proceed to (*place*), and I agree to submit myself to medical supervision by (*name or office of Medical Officer appointed for the purpose*) for a period of ten days from (*date from which period is to be reckoned*).

Signed

In the presence of

Health Officer.

APPENDIX II.

Instructions for disinfection.

1. Personal effects, rags, infected bandages, papers, and other articles without value should be destroyed by fire.

2. Under-clothing, bedding, wearing apparel, mattresses, carpets, &c., which are contaminated or *suspected*, should be disinfected in stoves at *normal pressure, or at a pressure of from one and-a-half to two degrees, with or without the presence of steam.*

Before a stove is passed as efficient for the purposes of disinfection, it should be subjected to a test, with the aid of a signal thermometer, showing the moment when the temperature in the middle of a mattress rises to, at least, 100° (centigrade).

To ensure that the disinfection is effective, this temperature must be maintained for from 10 to 15 minutes.

3. Disinfecting solutions—

(*a*) Solution of corrosive sublimate, of 1 part in 1,000, with the addition of 10 parts of chloride of soda.

The solution should be coloured with aniline dye or indigo. It should not be placed in metal vessels.

(*b*) A 5 per cent. solution of pure crystallized carbolic acid, *or 5 per cent. of crude commercial carbolic acid, in a warm solution of soft soap.*

(*c*) Fresh slaked-lime (1).

4. Special instructions to be observed in the employment of disinfecting solutions.

The linen, clothing and articles, soiled by the excreta of patients, should be soaked in the solution of corrosive sublimate. The solution of pure carbolic acid, and the solution of soap and carbolic acid, are equally suited to the purpose. The articles should remain in the solution for at least six hours.

Articles which cannot be subjected to the temperature of the stove (100° centigrade) without injury, such as leather goods, wooden articles stuck together with glue, felt, velvet, silk, &c., should be washed with the solution of corrosive sublimate; coins can be disinfected with the solution of soap and carbolic acid.

Persons engaged in nursing the sick should wash their hands and faces with the solution of corrosive sublimate, or with one of the carbolic solutions.

The carbolic solutions will be useful, more particularly for disinfecting articles, such as metals, instruments, etc., which can neither be subjected to a temperature of 100° centigrade, nor placed in contact with corrosive sublimate.

Slaked-lime is particularly recommended for disinfecting excreta. Expectorated matter should be burnt.

5. Disinfection of ships with plague-patients on board.

The cabin or cabins, and all parts of the ship occupied by the sick or *suspected*, should be cleared out, and all articles in them should be treated as described above.

The partitions should be disinfected with the solution of corrosive sublimate, with an addition of 10 per cent. of alcohol. The washing should commence from the top, horizontally, and be continued downwards, so that the whole surface of the partition becomes covered with a coating of minute drops.

The boarding should be washed with the same solution.

Two hours after, the walls and flooring should be washed over with plenty of water.

6. Disinfection of the hold of an infected ship.

To disinfect the hold, sulphate of iron, in quantity sufficient to neutralize the sulphuretted hydrogen, should first be thrown in, the bilge-water should be pumped out, and the hold washed with sea-water. Solution of corrosive sublimate should then be thrown in.

The bilge-water should not be pumped out while the ship is in port.

---

(1) To get very strong slaked-lime, take lime of good quality, slake it, by moistening it gradually, with half its weight of water. When the operation is completed, put the powder in a carefully-corked receptacle, and place it in a dry spot. As each kilogramme of lime absorbs 500 grammes of water in order to become slack, it acquires a volume of 2 litres 200, and it is sufficient to dilute it with double its volume of water, say 4 kilogrammes 400 grammes, to obtain a white-wash, which will be of about 20 per cent. strength of lime.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 24th September 1897, corresponding with 9th Assin 1304.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them as revenue-free or subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal, assembled for the purpose of making Laws and Regulations under the provisions of the Indian Councils Acts, 1861 and 1892.

THE Council met at the Council Chamber on Saturday, the 7th August, 1897.

Present:

The Hon'ble C. C. STEVENS, C.S.I., Offg. Lieutenant-Governor of Bengal, *presiding*.

The Hon'ble SIR CHARLES PAUL, K.C.I.E., *Advocate-General*.

The Hon'ble M. FINUCANE.

The Hon'ble SURENDRANATH BANERJEE.

NEW MEMBER.

The Hon'ble BABU SURENDRANATH BANERJEE took his seat in Council.

POLLUTION OF THE RIVER WATER.

The Hon'ble BABU SURENDRANATH BANERJEE asked:—

I have the honour to call attention to the reply given by the Hon'ble Mr. Risley in this Council on the 11th July, 1897, regarding the pollution of the river Hooghly by the discharge into it of the sewage of mills on both banks of the river, and to enquire what progress has been made with a view to prevent the further pollution of the river?

Has the attention of the Government been called to the pollution of the river caused by the new mill which has been started at Tittaghar? Is it the case, as stated in one of the newspapers, that the waste jute and kerosine oil discharged into the river by this mill near Charnock pollute the river water to such an extent as to render it unfit for drink? If so, will the Goverment be pleased to take the necessary steps with a view to the prevention of the nuisance?

The Hon'ble MR. BOLTON replied:—

"In reply to the first part of the question asked by the Hon'ble Member, I have to say that in accordance with the answer given by the Hon'ble Mr. Risley in this Council on the 11th July, 1896, the general question of the pollution of the river Hooghly and the *khals* and small streams running into it, by the discharge of sewage, trade refuse and other noxious matter from the various mills and factories situated in the neighbourhood, was referred to the Sanitary Board for their opinion. The Board, while expressing their opinion that the papers submitted to them did not supply any grounds for differing from the conclusions arrived at by Government previously, as stated in Government Resolution No. 524M, dated the 8th February, 1895, suggested that the Sanitary Commissioner should be consulted, and a special medical officer deputed to make a thorough enquiry in the matter. The Sanitary Commissioner was then requested to depute for this purpose a Deputy Sanitary Commissioner with definite instructions for his guidance; but in consequence of the unavoidable transfer of the Deputy Sanitary Commissioner to plague duty, and the deficiency in the staff of medical officers, it has not been possible as yet to complete the enquiry. The matter has not, however, escaped attention, and is still under the consideration of the Sanitary Commissioner.

"The reply to the second part of the Hon'ble Member's question is, that the Government has no information as to the alleged pollution of the river from a new mill started at Tittaghar, but the Sanitary Commissioner will be asked to enquire into this matter in connection with the general question."

OMISSION OF LEGAL PRACTITIONERS FROM JURY LIST.

The Hon'ble BABU SURENDRANATH BANERJEE asked:—

Will the Government be pleased to state whether, as stated in the *Hitabadi* newspaper of the 2nd ultimo, a circular letter has been issued directing District Officers to strike out the names of all legal practitioners from the list of Jurors? Having regard to the fact that the success of the jury system in Bengal is largely dependent upon the association in the practical working of the system of men of intelligence and culture, will the Government be pleased to reconsider its orders in this respect?

The Hon'ble MR. BOLTON replied:—

"In reply to the Hon'ble Member's question I have to say that instructions were issued to the local officers to give effect to the order exempting legal practitioners from service as Jurors or Assessors. The Government has no intention of withdrawing the order."

CONDITION OF RAILWAY PLATFORMS.

The Hon'ble BABU SURENDRANATH BANERJEE asked:—

(*a*) I have the honour to call the attention of the Government to the reply given in this Council on the 3rd April last to a question asked by Rai Eshan Chandra Mittra Bahadur regarding the condition of the platforms at Sheoraphuli, Bhadeswar and Khana Junction. Is the Government aware that no action has been taken in the matter by the Railway authorities, and that the platforms are still in the condition in which they were before to the serious inconvenience of passengers, especially of Hindu ladies?

(*b*) Will the Government be pleased to state if it has received any communication from the Railway authorities which the Government was expecting at the time when it gave the reply? And, if so, will the Government lay it on the table?

(*c*) Will the Government take the necessary steps to the speedy removal of the grievance referred to in this question?

The Hon'ble MR. BOLTON replied:—

"The reply received from the Agent of the East Indian Railway to the communication addressed to him by this Government is laid on the table. It seems to the Lieutenant-Governor that the Agent has given good reasons for raising the platform only at the Seoraphuli Station."

No. 3968, dated Calcutta, the 13th April, 1897.

From—COLONEL R. GARDINER, R.E., Agent, East Indian Railway Company,
To—The Secretary to the Government of Bengal, Public Works (Railway) Dept.

I HAVE the honour to acknowledge your No. 604R of 5th instant, and to state that the question of raising the passenger platforms at Bhadreshwar, Sheoraphuli and Khana Junction is still under consideration, and I am unable as yet to give a definite reply.

2. The point raised is one with very wide bearings. Admit that it is a matter of sufficient public importance for Government to intervene and order high level platforms at these stations, and the same convenience will be demanded elsewhere.

3. The height of platforms at stations between Howrah and Khana Junction vary between one foot and three feet above rail level. The older stations have all comparatively high level platforms, varying between 2 feet 6 inches and 3 feet: where stations have been interpolated, low level platforms have as a rule been supplied. It is of course a convenience to have the floor of the carriage and the platform on the same level, but this is a convenience seldom given either in this Country or in Europe. On the Continent of Europe platforms are, as a rule, only a few inches above rail level. At Sheoraphuli the platforms actually vary between 1 foot 3 inches and 1 foot 6 inches; at Bhadreswar between 1 foot 1 inch and 1 foot 3 inches; at Khana Junction between 1 foot and 1 foot 5 inches above rail level. The Government of India latest standard dimensions lay down that low level platforms (that is at minor stations) are, as a minimum, to be flush with rails; as a maximum 1 foot 2 inches above the same. High level platforms (at important stations) to be as a minimum 2 feet 6 inches above rail with a maximum of 2 feet 9 inches.

4. To raise all the passenger platforms between Howrah and Khana Junction to full height would probably involve an average expenditure on platform alone of some Rs. 2,000 per station, with further consequential expenditure in connection with buildings and approaches, that I am not at present prepared to estimate. It would certainly involve an outlay of close on half a lakh of rupees for what is seemingly rather a sentimental objection. The actual inconvenience amounts to little more than what every one has to encounter in stepping into an ordinary horse carriage or going up and down stairs in a house not conveniently situated entirely on ground level, and the inconvenience, whatever it amounts to, is only experienced on the comparatively rare occasions on which a railway journey is undertaken.

5. As stated in the opening paragraph of this letter, I am having further enquiries made on the subject; but with the large expenditure that is still necessary in connection with the line, I am not disposed to recommend embarking on the heavy expenditure that raising our platforms generally would involve without greater evidence of the requirement than we have yet been given. Very special cases might be given exceptional treatment, but it is essential that it should be made very plain that they are to be rare exceptions.

No. 5170, dated Calcutta, the 22nd April, 1897.

From—Colonel R. Gardiner, R.E., Agent, East Indian Railway Company,
To—The Secretary to the Government of Bengal, Public Works (Railway) Dept.

In continuation of this office No. 3968 of the 13th April, 1897, I have the honour to attach a copy of a statement showing the average daily passenger bookings at certain of the more important stations between Howrah and Khana Junction and the height of the passenger platforms thereat. From a consideration of these figures, I am of opinion that Seoraphuli has a claim to high level platforms, and I will recommend the same to the Board for sanction. Neither Bhadreswar nor Khana Junction have at present a traffic that justifies any special action on their behalf.

ESTATES PARTITION BILL.

The Hon'ble Mr. Finucane presented the Final Report of the Select Committee on the Bill to amend the law relating to the Partition of Estates.

The Hon'ble The President said:—"It appears to me that in the List of Business the items have been, unfortunately, put in the wrong order, as item 4 should stand as item 2. But before I call upon the Hon'ble Mr. Finucane to move that the Report of the Select Committee on this Bill be taken into consideration, I have to say that I think the third item as it stands on the List, which is a proposal made by the Hon'ble Babu Surendranath Banerjee, is not in order. My reason is, that Rule 39 of the Rules for the Conduct of Business of this Council provides a procedure of its own. That Rule runs as follows:—

'The Report shall be taken into consideration by the Council as soon as conveniently may be, but any Member may object to its being so taken into consideration when he has not been furnished for a week with a copy of the Report; and such objection shall prevail, unless the President, in exercise of his discretion, allows the Report to be taken into consideration.'

"It seems to me that this being the procedure as given under that Rule, it is not open for any Member to bring a matter of this kind before the Council by way of a motion. I mention this now in order to give the Hon'ble Member an opportunity, which I think the Rules afford him, of making the objection immediately after I call upon the Hon'ble Mr. Finucane."

The Hon'ble BABU SURENDRANATH BANERJEE said:—"I bow to Your Honour's opinion."

The Hon'ble MR. FINUCANE also moved that the Report be taken into consideration, and that the clauses of the Bill be considered in the form recommended by the Select Committee. He said:—

"Sir, when this Bill was introduced in Council sixteen months ago, I endeavoured to explain its objects and reasons. I stated that it had been under discussion for more than five years, and that there was no desire on the part of Government to rush it through Council.

"The Bill then introduced was published in the Gazette and widely circulated for opinions among Government Officers and Public Associations. Numerous and valuable criticisms were received on it which were considered with great care by the Select Committee.

"That Committee made some important changes in the Bill as originally introduced and presented a preliminary report in January last with the Bill as modified by them.

"The Select Committee which contained Experts on the subject, both official and non-official, unanimously agreed to the provisions of the Bill as amended except on one point, namely, the amount of the proposed limit to the partibility of Government revenue.

"Their report and the Bill as amended have since been published and circulated for criticism.

"The opinions received have been considered by the Select Committee, with the result that some slight verbal modifications have been made in certain sections and that the limit of Rs. 100 proposed in the original Bill and of Rs. 20 proposed in the Bill as at first amended by the Select Committee has been still further reduced.

"The proposal of the Select Committee now is that partition of an estate shall not be allowed—

(*a*) if the annual amount of land revenue for which the separate estate of any of the proprietors would, after partition, be liable would not exceed Rs. 10, or

(*b*) if after separation of the applicant's interest the annual amount of the land revenue for which the separate estate of the remaining proprietor or proprietors would be liable, would not exceed s. 5.

"The Bill as now amended has received the unanimous approval of the Select Committee, and it is hoped will be also unanimously accepted by the Council.

"The Bill is one of details for Experts to settle, (with which details the Council generally will probably not care to be troubled) except on two points, namely, (1) the provisions of Chapter VI relating to a survey and a record of existing rents and assets, and (2) the provisions of section 11 relating to restrictions on partibility of revenue. Chapter VI as it now stands has been accepted by all the Officials and Associations consulted without a dissentient voice. The restriction now proposed on partibility of revenue is, it will, I think, be conceded, the lowest that is compatible with the principle of imposing any restriction at all which principle was affirmed when the Bill was referred to the Select Committee.

"In deference to the views of the Landholders' Associations, the limit originally proposed has been very much reduced, and as that now suggested has been accepted by the representatives of the zamindari interests in the Select Committee, it is hoped the Council will have no difficulty in accepting it also. If this be so, the Bill in its present shape will, it is hoped, be unanimously approved.

"I observe that the Hon'ble Surendranath Banerjee and the Hon'ble Norendra Nath Sen think that the consideration of the clauses of the Bill should be postponed. If these Hon'ble Members have any specific amendments to propose or any improvements to suggest, I am willing to admit that time should be given for the consideration and discussion of their amendments. But if Hon'ble Members have no amendments to propose, I would submit that it is not reasonable to ask this Council to assemble again merely because it is possible that at some future time amendments may suggest themselves to Hon'ble Members which they are not prepared to bring forward now.

"Many of the official and non-official Members may be put to much inconvenience by having to attend meetings of Council. Some of the former have important duties on tour in the Mufassal from which they may have to be recalled to attend meetings of Council, and some of the latter may have to come from long distances to Calcutta. If there is any real necessity for their doing so, the inconvenience they may be put is, as a matter of course, a minor consideration; but if there is not any necessity for putting them to inconvenience, and Hon'ble Members do not intend to propose any specific amendments in the Bill, I hope they will see their way to allowing it to be passed unanimously at the present meeting."

The Hon'ble Babu SURENDRANATH BANERJEE said:—"I wish I could accept the invitation of the Hon'ble Member in charge of the Bill, but as far as I am personally concerned, I must say that I have not had sufficient time to go through the Bill, and when I have stated the facts before the Council, I think the Council will be of opinion that I have not had sufficient opportunity for studying a Bill of this importance and magnitude. Rule 39 to which I refer, and with which I am concerned, distinctly contemplates that Hon'ble Members should have the opportunity of studying the Report of the Select Committee for at least a week. With the permission of Your Honour I will read the words of Rule 39, which run as follows:—

'The Report shall be taken into consideration by the Council as soon as conveniently may be, but any Member may object to its being so taken into consideration when he has not been furnished for a week with a copy of the Report, and such objection shall prevail, unless the President, in exercise of his discretion, allows the Report to be taken into consideration.'

"I only received a copy of this Report on Monday last; and I think my hon'ble friend to the left (Babu Kali Charan Banerjee) received his either on Sunday or Monday. At any rate, it was not put into my hands till Monday; and though other Members may have had time to consider this Report, and were in a position to consider it carefully, I certainly have not had a week's time to study it before the meeting of the Council. I must say that, so far as my experience goes, it has been the practice, I was going to say the invariable practice, of this Council, for Reports of Select Committees to be laid upon the table for at least a week, except in the cases of non-contentious Bills. I do not think that it can be urged that this is a non-contentious Bill. This Bill has given rise to considerable discussion. The papers before us disclose the fact that even amongst the highest Officers of Government, there is considerable difference of opinion in regard to the provisions of this Bill. I do not see what necessity there is for departing from what is the invariable practice of the Council, namely, to give Hon'ble Members sufficient time for the consideration of the Report of the Select Committee, especially when we admit, in connexion with the Bill before us, that it affects a large and important section of the community and has given rise to considerable differences of opinion. I do not think that the Hon'ble Member in charge of the Bill will find himself in a position to get over this difficulty. I myself would have liked to have consulted the various District Boards and other gentlemen interested in this Bill. Many of them have no doubt given their opinions, but it is one thing for the Government to collect opinions, and quite a different thing for elected Members to approach their constituents for this purpose. I fail to see what possible harm can accrue to the Government, if the consideration of this Bill is postponed for a week or a fortnight. The Bill may be taken up at the end of the month or even later on. If you hurry this Bill through Council, I have not the smallest hesitation in saying

that the action of the Government will be open to a great deal of misconstruction, and considerable hardship will be inflicted upon those classes whose good-will it is the interest of the Government to secure in connexion with this Bill. As elected Members in intimate touch with the people, it is our duty to raise this warning-note, and I hope the Government will see its way to allow of an adjournment of the matter in order that the Bill and the Report may be dealt with at a future meeting of the Council."

The Hon'ble The PRESIDENT said:—"I regret I am not able to accept the objection of the Hon'ble Member who has just spoken. The Bill, as the Council have heard from the Hon'ble Member in charge of it (Mr. Finucane), has been before the Council for sixteen months, and I think I am not wrong when I say that during the whole of those sixteen months, with a small exception, the Hon'ble Member who objects has been a Member of this Council. It appears to me, therefore, that he has had ample opportunities of consulting his constituents, and the amendments made by the Select Committee are very few, and for the most part unimportant. They are such that a very small amount of consideration would be required to estimate their propriety, in addition to the consideration which the Hon'ble Member has no doubt given to the Bill during the course of those sixteen months. The one important change is a change in section 11 of the Bill with reference to the limit. In that instance the explanation given by the Hon'ble Member in charge of the Bill has given to the Council the history of the change, and he has explained that as it now stands, a large concession has been made to the landholding interest. This section was accepted by the representatives of that interest who sat in Select Committee, and in fact, it does not differ very much from a suggestion which was made by one of those representatives. For these reasons it does not appear to me to be necessary to adjourn this matter, as although the Hon'ble Member has not had these papers in his hands for a complete week, the deficiency is comparatively small. For these reasons, I decide that the Report of the Select Committee be taken into consideration."

The Hon'ble BABU NORENDRA NATH SEN said:—"After what has fallen from Your Honour, I think it is hopeless for me to expect any concession from Your Honour. However, in making this motion, let me not be misunderstood. It is far from my intention to be obstructive in the least. The importance of the Bill as affecting large classes, having anything to do with the joint ownership of land both as owners and tenants, cannot be exaggerated, and when I say this much, I think I say enough against the Bill being rushed through the Council. When over and above this, I frankly put forward my view as a new Member that I cannot conscientiously give a vote upon this Bill unless sufficient time is allowed me to study all the papers bearing on the subject, and when I appeal to Your Honour, who has been always so distinguished for fair-mindedness, to adjourn the debate upon this Bill, I am sure I do not appeal in vain, but, on the contrary, enlist Your Honour's sympathy on behalf of my motion. I contend that it is simply fair, at least to the new Members, that they should be given time enough to go through the enormous mass of papers, containing the literature on the subject, especially when such literature happens to be of a debatable character. I have no desire at present to go into the merits of the Bill, but when the time comes, I may have a great deal to say, especially in connexion with section 11 of the present Bill, as the proposed limit of Rs. 10 is even much higher than that contained in the Assam Regulation I of 1896. I may also have much to say in connexion with some other sections of the Bill which I may call the procedure sections. It may be necessary, on the part of some of us, to send in timely notices of amendments after a careful consideration of the papers relating to the Bill. I think it is due to the large body of men who may be affected by the Bill, that the Bill, as amended by the Select Committee, together with their final report, should be published in the official Gazette before the Bill is passed into law, so that they may have an opportunity of making themselves acquainted with its provisions, and the recommendations of the Select Committee, as embodied in their final report, and of expressing their opinion on the Bill, if necessary. Besides, I fail to see what necessity there is for hurrying this Bill through the Council. The Bill as at present framed, will be more a source of administrative convenience than anything else. What I

have said will, I trust, be sufficient to convince Your Honour of the reasonableness of my motion. I therefore move 'that the consideration of the Final Report of the Select Committee on this Bill be postponed for two weeks, and in the meantime, that the Bill, as amended, be published in the Gazette."

The Hon'ble MR. FINUCANE said:—"If there is a feeling in the Council that the consideration of the clauses of the Bill be put off, Government will have no objection, but if the general feeling of the Council is that we should now pass the Bill, then I shall make the motion which stands in my name that the Bill be passed into law."

The Hon'ble MR. BOLTON said:—"My own view is that the motion for an adjournment should be agreed to, but the condition should be made that the postponement shall not extend beyond this Session, and that the Bill must be discussed and passed this Session."

The Hon'ble MR. FINUCANE said:—"I have no objection to that, but I think the proposal for the re-publication of the Bill is perfectly useless."

The Hon'ble BABU NORENDRA NATH SEN said:—"I withdraw that part of my motion if the postponement I ask for is granted."

The Hon'ble MR. FINUCANE said:—"I suppose that if Hon'ble Members have any amendments, they will give early notice of them."

The Hon'ble MR. BOLTON said:—"The proper course for the Hon'ble Members will be for both to send in their amendments. Many of these may be eliminated after personal consultation with the Hon'ble Member in charge of the Bill, and when we come to the actual debate, the number may be reduced to two or three, a great deal of time being thus saved to the Council."

The Hon'ble The PRESIDENT:—"Do I understand that the Hon'ble Member is prepared to abandon the second part of his motion, that is to say, that the Bill be re-published?"

The Hon'ble BABU NORENDRA NATH SEN said:—"Yes, I do."

The Hon'ble MR. GRIMLEY said:—"I should like to say that I am in favour of the proposal to postpone the consideration of the Bill. Although it has been considered by the Select Committee most carefully, section by section, still having regard to the importance of the questions at issue it is desirable that Hon'ble Members, who have not taken any part in previous discussions, should be allowed time to give the Bill the attention which it deserves. Their request is reasonable. I think we should lose nothing by allowing them a little time to consider the Bill. The postponment however should only be for a short period, say, for a week or fortnight."

The Hon'ble MR. FINUCANE said:—"It may be postponed to a date to be fixed later, but which will be before the termination of this Session."

The Hon'ble MR. BOLTON said:—"It may be postponed to the next meeting of the Council, without fixing any date to-day."

The Hon'ble The PRESIDENT said:—"The amendment of the Hon'ble Member now runs as follows:—'That the consideration of the Final Report of the Select Committee be postponed.' As it appears from the speech of the Hon'ble Member that he has some substantial objection to raise to the Bill, I shall not oppose his proposition. At the same time, of course, I am unable to modify or withdraw any of the remarks which I have just made, but I hope that on the next meeting of the Council we shall be able to pass the Bill unanimously."

The Hon'ble BABU NORENDRA NATH SEN moved that the consideration of the Final Report of the Select Committee be postponed.

The Motion was put and agreed to.

The Council adjourned to a date to be notified hereafter.

CHOTA NAGPUR TENANCY BILL.

The Hon'ble Mr. GRIMLEY in presenting the Report of the Select Committee on the Bill to regulate the enhancement of rents, the commutation of predial conditions or services, and the registration and resumption of intermediate tenures, in parts of Chota Nagpur, said:—

"It is not necessary to make any lengthy remarks, for when I last had the honour of addressing this Council on the subject, I entered upon a full description of the circumstances which led up to the proposed measure. I gave an account of a long series of disputes between the aboriginal cultivators of the soil and their alien landlords—disputes culminating in a serious agitation which menaced the peace of the country, and gave much trouble to the district authorities. There were faults on both sides: the zamindars for their part demanding more than they were entitled to get, and the raiyats in their turn refusing to pay their legitimate dues, and in some instances claiming to hold land at a quit-rent direct from Government, without the intervention of any zamindar, and seeking to put back the clock of time several centuries and revert to an age when landlords and rents were unknown. The disputes to some extent were traceable to the peculiar system prevailing in Chota Nagpur, under which rents are payable in money, in kind, and in service. The payments in kind are contributions of the produce of the land and stock, tithes of all sorts, pots of milk, vessels of ghee, measures of dhan and rice, cotton, sheep, goats, buffaloes, and here and there a fighting cock in those parts of the country where cock-fighting is a favourite pastime. These contributions are usually termed *rakumâts* and are recognised by the Courts as rent. When the landlords and tenants are on friendly terms, the quantity is determined by the good-will of both: but when there is any tension disputes arise, and the Courts find a difficulty in arriving at a satisfactory settlement. The services to be rendered by the raiyat consist in tilling the lands of the landlord, building his house, and occasionally carrying his luggage. The customary service is three days' digging, three days' ploughing, three days' sowing, three days' cutting, with one or two days for threshing and storing grain. On the last occasion, when the agitation took a pronounced form, it was decided by the Government of Bengal, in consultation with the Commissioner, and with the concurrence of the Government of India, that the best way of preventing disturbances in future would be to give Government the power of intervening and of compelling both landlord

and tenant to accept commutation of the *rakumáts* and services into a money rental. Under the present law, commutation can be made if the parties come forward of their own accord and apply for it. The present Bill goes further than this, and allows Government to insist upon commutation whenever it thinks it expedient to do so. It is not intended that this power shall be exercised in every case of dispute, but only when the peace of the district is threatened.

"In addition to the disputes relating to conditions of service, there were other disturbing causes which had reference to the assessment of rent on excess lands, the enhancement of rent, the system of depositing rent in Court, and other vexed questions, and it was considered that the settlement of these matters would be facilitated by the extension of the Bengal Tenancy Act, with certain modifications, to Chota Nagpur, in place of the existing Act, I (B.C.) of 1879, which, in the opinion of many persons, has not been a success. In these respects the Bengal Tenancy Act was thought to be better adapted to the requirements of Chota Nagpur than the existing law, and it was especially deemed an advantage that the former Act would bring with it a collection of rulings and precepts which would be an invaluable guide to the Courts in deciding cases. It was proposed to omit sections 50 and 74, the former, because the country was not sufficiently advanced to give the raiyats the presumption which it creates in favour of a fixed rent, and the latter, which makes *abwabs* illegal, because it is opposed to the custom of the country, which allows certain cesses to be realised as rents.

"At the present time, however, as the Council is aware, there is a Bill under consideration for the amendment of the Bengal Tenancy Act in some important respects, and in view of this fact, the Select Committee are of opinion that this would be an inappropriate time to extend that Act to Chota Nagpur. I accept this as a reasonable suggestion, and do not therefore propose to press for the introduction of the Act into Chota Nagpur at present. Act I (B.C.) of 1879 will therefore remain, and section 2 of the Bill, which provided for its repeal, has been omitted from the amended Bill.

"Chapter II of the former Bill was a reproduction with a slight modification of sections 19 and 20 of the present Act, which it was necessary to retain, as they prescribe the incidents as regards liability to enhancement of certain tenures peculiar to Chota Nagpur. But as that Act is not to be repealed, there is no necessity for repeating the provisions in question in the present Bill. Chapter II has therefore been omitted.

"Chapter IV, relating to the registration and resumption of intermediate tenures, has also been omitted for the reasons mentioned in the Report of the Select Committee. When I last addressed this Council, I explained at some length the object of this Chapter: but as the subject is extremely technical and somewhat intricate, I do not propose to go over the whole ground again. It is sufficient to say that the object was, first, to secure the summary process of resumption which the zamindar possesses under Act I (B.C.) of 1879 of tenures held conditionally on the survival of male heirs of the original grantee; secondly, to enable him to accept the registration of a transferee without imperilling that right; and thirdly, to provide him with the means of realizing rents from such transferees. With the withdrawal of this Chapter the zamindar will be still left with the same means of resumption as he has under section 34 of the existing Act, but he will continue to labour under his present difficulty in the matter of the recovery of rent. The question of the best means of affording relief will still remain to be solved when the extension of the Bengal Tenancy Act is again considered.

"Regarding the main provisions of the Bill relating to the commutation and record of predial conditions and services I have but little to say, for section 4 is a reproduction with a slight modification of sections 25 and 26 of Act I (B.C.) of 1879, and relates to voluntary commutation at the instance of either the tenant or landlord. The alteration is in the proviso, which prescribes that, in the case of conditions or services other than *rakumáts*, the rent payable on commutation shall not exceed one-fourth of the rent already paid by the tenant. This is necessary in order to prevent the commutation pressing harshly on poor raiyats. Section 5 enables the Government to order the preparation of a record of predial conditions or

services, with or without commutation, whenever it may deem it expedient to make such an order. As I have said before, this provision is intended to meet cases in which such an order is calculated to prevent a serious breach of the peace. Section 6 prescribes the particulars which the record is to contain, which, it will be observed, is a simple record of facts, and does not involve any enquiry into right, title, or status. Section 7 relates to the publication of the record and section 8 to appeals. The provisions regarding appeals follow as nearly as possible those laid down in Act I (B.C.) of 1879. Sections 11 and 12 provide for the defraying of the costs of commutation proceedings and follow section 114 of the Tenancy Act, with the difference that the revenue officer is authorised to require a deposit in advance from the person applying for commutation. The remaining sections of the Bill refer to the power vested in the Local Government for making rules and to the procedure to be observed for making and publishing the rules. The Bill as now prepared is of a simple and non-contentious character, and I trust it will be passed at the next meeting of this Council."

The Council adjourned to Saturday, the 28th instant.

RESOLUTION REVIEWING THE REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR THE YEAR 1896.

MUNICIPAL DEPARTMENT.—MEDICAL.

Dated Calcutta, the 24th August 1897.

RESOLUTION No. 4416Med.

READ—

The report on the Calcutta Medical Institutions for the year 1896.

Read also—

The report for the year 1895, and the Resolution recorded thereon.

The present report, which was due to Government on the 1st May, was not received in this office until the 21st July. The cause of this delay has not been stated.

2. The death-rate for Calcutta during the year 1896 was 35·7 per thousand and for Howrah 37·34, a rate in both instances lower than in 1895, when it was 39·6 and 42·84, respectively, but higher than that recorded during the preceding six years. Deaths from cholera in Calcutta increased from 2,099 to 3,449, a rise of 1,350; in Howrah, on the other hand, the mortality from this cause decreased by 177, a result which is attributed to the introduction of a filtered water-supply. It is satisfactory to observe that deaths from small-pox, which numbered 2,220 in Calcutta and 65 in Howrah in 1895, owing to the epidemic of that year, fell to 69 and 12, respectively. There was also in both towns a considerable diminution in the mortality from fevers and bowel-complaints.

3. The following table compares the number of patients, indoor and out-door, treated at the Calcutta and Howrah hospitals during the past two years:—

4. The total number of outdoor patients, which is given as 258,794, shows a decrease of 7,878, which is accounted for by the year being less unhealthy than the previous one. At the Presidency General Hospital the numbers fell off by 163, at the Campbell Hospital by 4,537, at the Park Street Dispensary by 892, at the Dufferin Victoria Hospital by 941, and at the Howrah General Hospital by 768. A reduction of 5,745 at the Bhowanipur Dispensary is due to the fact that that institution was closed during the year in consequence of the opening of the new South Suburban Hospital. This decrease was, however, more than compensated for by the number of out-patients treated at the latter institution during the five months of the year it was open. The Mayo Hospital, on the other hand, shows a rise of 1,029; and there was a small increase in the attendance at the Medical College, the Eden, Ezra and Eye Hospitals, and also at the Chandney Hospital.

5. There was a decrease of 1,232 in the total number of indoor patients treated, and the daily average fell from 1,303·63 to 1,238·51. The Campbell, Chandney and Howrah General Hospitals show a slight rise, but at all the other hospitals the numbers declined, the falling off of 780 at the Police Hospital being the most noticeable. A decrease of 224 in indoor patients at the Dufferin Victoria Hospital, as well as the decrease in outdoor patients above mentioned, is attributed to the removal of the hospital to a new locality and to changes in the staff. The popularity of the new South Suburban Hospital is shown by the fact that the daily average of indoor patients treated was 22 32.

6. Altogether 171,480 men, 46,712 women, and 66,249 children were treated as outdoor and indoor patients during the year, as compared with the 178,982 men, 45,764 women, and 68,805 children treated in 1895, showing a total decrease of 9,110. The number of Europeans diminished by 1,100, of Eurasians by 254, of Muhammadans by 6,061 and of Hindus by 2,729.

7. The death-rate for all the hospitals, excluding the Eye hospital, was 14·2 per cent. of the number of patients treated, against 14·3 in the former year. Marked variations, depending on the class of patients admitted, occurred at the several institutions. Thus the death-rate for men was 1·31 at the Police Hospital, 5·39 at the Presidency General Hospital, 20·70 at the Campbell Hospital, and 23·95 at the Howrah General Hospital. At the last-named hospital, however, the rate both for men, women and children was lower than in 1895, while at the Campbell Hospital the death-rate among men, women and boys diminished, owing to fewer small-pox cases, while that among girls rose from 18·38 to 30·52, in consequence of deaths from cholera and diarrhœa.

8. The previous year's epidemic of small-pox showed no sign of reappearing in Calcutta, and only 57 cases, of which 16 ended fatally, were admitted to hospital, against 771 admitted in 1895. Among 16 of those attacked who were said to have been vaccinated, one, or 6·25 per cent., died; of four who had been inoculated, one, or 25 per cent., died; and of thirty-six who were unprotected, eleven, or 30·55 per cent., succumbed.

9. The number of cholera patients admitted rose from 600 to 1,007, and the number of deaths from 349 to 566; still the death-rate (56·20) was slightly lower than that of the preceding year (58·16). Among the patients there were 54 Europeans and Eurasians, of whom 30 died, a ratio of 55·55 per cent. The Lieutenant-Governor regrets to observe that 26 cases, of which 19 resulted in death, originated at the Campbell Hospital, as compared with 5 in 1895. The greatest care should be taken to ascertain, if possible, the origin of these cases, and to prevent the possibility of a recurrence of such an outbreak. One patient at the General Hospital was attacked with cholera, but it is reported that he had been infected before entering the hospital.

10. Dysentery cases decreased by 605, and the number of deaths among in-patients suffering from this disease by 166, the death-rate falling from 32·17 to 27·81. Diarrhœa patients also were fewer by 286 than in the previous year, but the death-rate rose from 32·37 to 39·87. While the death-rate among Europeans and Eurasians was only 10 per cent., the rate among other classes was 43·82, which is explained by the fact that a large number of moribund cases were admitted at the Campbell and Howrah General Hospitals. Malarial fever was less prevalent than in the preceding year, as was shown by the decrease in admissions from 59,256 to 48,982. The number of persons

treated for venereal diseases rose from 13,674 to 14,216, the more serious cases also showing an increase. Twenty-two cases of leprosy were treated during the year, 15 of which were dealt with in the Campbell Hospital. There were 23 cases of enteric fever and 1,075 cases of remittent fever, against 22 and 1,072, respectively, in 1895.

11. Surgical operations, in accordance with the orders of the Government of India, are no longer classed as "major" and "minor," but are returned according to the list of operations contained in the Appendix to the Nomenclature of Diseases, the number of individuals operated on being specified, and the operations being classified as "principal" and "secondary." In accordance with this system, 24,067 operations are shown as having been performed during the year. There were only five secondary operations; but, besides the number of operations stated above, there were 6,340 reported as having been performed, but not specified in the returns. The total number of deaths was 160, against 124 which resulted from major operations in 1895; the percentage being ·73 on the total number of individuals on whom operations of all kinds were performed. The Mayo and Campbell Hospitals, where the figures were 3,158 and 2,115, respectively, show the largest number of operations.

12. In the Eden Hospital the number of women and children admitted as indoor patients increased from 1,453 to 1,579. Of these, 281 were Europeans, 460 Eurasians, 725 Hindus and Muhammadans, and 179 belonged to other classes. The death-rate for Europeans and Eurasians is given as 6·47, and that for all others as 10·50. The death-rate for native children fell from 34·71 to 25·36, although 13 children were admitted in a moribund condition. The number of confinements rose from 546 to 640, of which 49 resulted in death, as compared with 34 fatal cases in the previous year. There were 22 fatal cases of septicæmia, of which three originated within the hospital; but no record of the total number of these cases was kept, so that no comparison can be made with the figures for 1895. There were altogether 3,478 operations shown as performed within the hospitals, while in 1895 the number of major operations was 357 and the number of minor 4,803. It is satisfactory to note that in eight cases ovariotomy was performed without a death, against six cases and one death in the preceding year. The number of outdoor patients increased from 7,083 to 8,432. The suggestions for the improvement of this hospital are still under the consideration of Government.

13. The Shama Churn Law Eye Hospital shows an increase of 25 in the number of indoor, and a decrease of 519 in the number of outdoor patients treated during the year, but the latter figure is probably incorrect, as it is stated that the attendance on Sundays was not entered in the registers. The daily average attendance rose from 148·57 to 161·34 and the number of operations from 470 to 597. Of the latter, 347 were in cataract cases, and 80·40 per cent. were successful, against 76·82 per cent. in 1895.

14. At the Ezra Hospital indoor patients increased from 199 to 205, and outdoor patients decreased from 1,624 to 1,611. Only 11 operations were performed, against 108 in the previous year, the falling off being explained by a large decrease in the number of minor operations. The cost of the hospital was Rs. 6,646, of which Rs. 5,770 were contributed by Government.

15. The Lieutenant-Governor is pleased to receive a favourable report on the nursing staff at the Campbell and Howrah Hospitals. The question of the nurssing arrangements at the Presidency General and at the Eden Hospital is under consideration, but at the former institution the work is said to be improving. Thirteen pupil nurses and five *dais* passed their examinations during the year from the Eden Hospital.

16. The invested capital of all the hospitals decreased from Rs. 5,99,400 to Rs. 5,96,100, only Rs. 2,500 being invested during the year by the Medical College and the Howrah General Hospital, and the invested capital of the Bhowanipur Dispensary, Rs. 5,800, being shown as withdrawn. The following

statement shows the main heads of receipts and expenditure of the Calcutta and Howrah hospitals during 1895-96:—

17. Excluding the opening balance, the total income amounted to Rs. 6,57,863, against Rs. 5,42,777 in the preceding year. The cost to Government increased by Rs. 1,13,715, the greater part of which is accounted for by the sums spent on building, viz., Rs. 68,013 at the South Suburban and Rs. 15,621 at the Howrah General Hospital, and the remainder by the amounts spent on nursing at the Medical College and the Presidency General Hospital, viz., Rs. 15,621 and Rs. 18,081, respectively, which were for the first time included in the general statement of accounts. The inclusion, on the other hand, of the amounts paid by the Ladies' Committee of the Hospital Nurses' Institution on the nursing establishment of the Medical College and the Presidency General Hospitals accounts for the increase shown in the receipts from local funds. Receipts from paying patients fell off by Rs. 4,361, the decrease being most marked at the Campbell Hospital. There was a slight falling off in the receipts from municipal funds and in subscriptions from Europeans, while subscriptions from natives decreased by nearly half. The total expenditure rose from Rs. 5,38,770 to Rs. 6,54,444, the increase being chiefly observable under the heads "Buildings and repairs," the sum spent on which rose from Rs. 70,530 to Rs. 1,28,562, and "Miscellaneous charges," which absorbed Rs. 1,01,209, as compared with Rs. 87,752 in the preceding year.

18. The suggestion made in last year's resolution that certain items of expenditure in several of the hospitals were capable of reduction appears to have received attention. A reduction was effected in the sums spent on European medicines at the Mayo Hospital, and the returns show that the amount expended on the salaries of compounders and dressers was considerably less than in the preceding year.

19. The South Suburban Hospital was opened to the public on 1st August, the entire cost of its construction having been met by Government. The Municipal Commissioners contribute Rs. 5,203 a year, including the annual subsidy from the trust funds in their possession, towards the maintenance of the hospital, and appoint two out of the six governors by whom the institution is managed, Government appointing the remaining four. The hospital is reported to be working satisfactorily. It has since its opening been daily crowded both with indoor and outdoor patients, and there is no doubt that its erection has met a want long felt in that part of the town.

20. During July and August a specially appointed Committee enquired into the structural defects of the Presidency General Hospital, and submitted a carefully considered scheme for its reconstruction, which was accepted by Government. The land required for the purpose has already been acquired, but the demands of the present year on the finances of the province, which were not then foreseen, have delayed the execution of the scheme. Every effort will, however, be made to carry out the Committee's recommendations, as soon as funds permit. Meanwhile, a second Committee has lately been appointed to report how the existing defects of the hospital can best be remedied, to examine the nursing arrangements, the supply of bedding, linen and clothing, the general system of supervision and the adequacy of the staff of servants, and to suggest rules for management. The report of this Committee has not yet been received. An estimate of Rs. 87,317 has been passed for the improvement and enlargement of the out-door dispensary at the Medical College Hospital, while a sum of Rs. 57,000 has been allotted for the purchase of beds and instruments for the hospital. For the improvement of the Campbell Hospital, Rs. 63,564 have been granted for the extension of the outdoor department, which in future will have separate accommodation for each sex.

21. The office of Inspector-General of Civil Hospitals was held for the greater part of the year by Surgeon-Colonel G. C. Ross, who was unfortunately compelled by ill-health to take furlough in March last, previous to retirement. He was succeeded by Surgeon-Colonel J. H. Newman, by whom the present report has been submitted. The Lieutenant-Governor takes this opportunity of expressing his sense of obligation to Dr. Ross for the energetic measures he took to initiate much-needed reforms in the medical institutions in Calcutta. His Honour's thanks are also due to Dr. Newman for his clear and concise report.

By order of the Lieutenant-Governor of Bengal,

C. E. A. W. OLDHAM,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORTS OF THE ALIPORE AND HAZARIBAGH REFORMATORY SCHOOLS FOR THE YEAR 1896.

No. 2715P.

RESOLUTION.

JAILS.

Dated 24th August 1897.

READ—

Letter No. 5691, dated the 10th June 1897, from the Inspector-General of Jails, submitting the Annual Reports on the Alipore and Hazaribagh Reformatory Schools for the year 1896.

Read also—

The Reports for the years 1895 and 1894, and the orders of Government recorded thereon.

These Reports have been submitted by the Inspector-General of Jails with remarks summarising the results of the year's working in both the institutions. The want of uniformity in the treatment of the subjects in the two Reports noticed in the last year's Resolution has been remedied. The Reports might, however, be somewhat condensed with advantage by the omission of petty details of no interest. Since the close of the year, the law relating to Reformatory Schools has been amended, and further provision for dealing with youthful offenders has been made by Act VIII of 1897.

2. The total number of boys in the two schools on the 31st December 1895 was 548, of whom 213 were in the Alipore and 335 in the Hazaribagh school. The number admitted into the two schools, respectively, during the year 1896 was 70 and 77, making a grand total of 695. Of these, 156 boys were released, eight died, two at Alipore and six at Hazaribagh, and two escaped from the Hazaribagh school. At the end of 1896, 529 boys remained in confinement, of whom 201 were at Alipore and 328 at Hazaribagh. Of the total number, 358 were Hindus, 160 Muhammadans, 9 aboriginals, and 2 Native Christians. The daily average number of boys was 215·79 at the Alipore and 331·27 at the Hazaribagh school, compared with 218·27 and 344·29 respectively in 1895, and 223·60 and 313·13 respectively in 1894. The general health of the two institutions, especially of the school at Hazaribagh, was not so good as in the two previous years, the daily average of sick being 5·35 at Alipore and 2·12 at Hazaribagh, against 3·16 and ·85 respectively in 1895, and 3·83 and 1·55 respectively in 1894. The Superintendent of the Hazaribagh School reports that a particularly fatal epidemic of influenza affected the immediate neighbourhood from February, and he attributes to it a general deterioration of the health of the boys, resulting in four deaths. The usually excellent health of the institution did not return until July. Another death in the school was caused by chronic dysentery brought on by the boy's constantly taking the juice of an euphorbia growing in the garden, with a view to escape work. Of the two deaths in the Alipore school one was due to a fatal assault committed by a grown-up boy of the school, who was subsequently tried judicially and sentenced to seven years' rigorous imprisonment in jail.

3. *Offences, punishments, and marks.*—The number of offences committed and punishments awarded in the Alipore school rose from 83 to 162, but in the Hazaribagh school fell from 322 to 271. The increase in the Alipore school is said to have been due to stricter supervision rather than to any actual increase of misconduct. There being no solitary cells in either of the institutions, separate confinement is resorted to when the segregation of a boy is considered desirable. The heading "Solitary confinement" in Statement III attached to the annual

Reports should, therefore, be changed to "Separate confinement." There were 19 cases of separate confinement in the Alipore school against 16 in 1895. No such case occurred in the Hazaribagh Reformatory in 1895, and there was only one case in that institution during the past year. The average number of boys entitled to marks was 179 at Alipore and 319 at Hazaribagh, against 159 and 324 respectively in 1895. The weekly average money earnings amounted to Rs. 11-9-10 at Alipore and Rs. 14-9-9 at Hazaribagh, against Rs. 5-15-1 and Rs. 13-11 respectively in 1895. The total earnings were Rs. 604-6-9 at Alipore and Rs. 759-12-6 at Hazaribagh, against Rs. 405-2 and Rs. 679-2 respectively in 1895.

4. *Instruction and gymnastics.*—As in previous years, blacksmith's and tinsmith's work and carpentry were taught in both the institutions. Besides these, book-binding, printing, and cane-work were taught at Alipore, and carpet and blanket-weaving, shoe-making, cloth-weaving and tailoring at Hazaribagh. The suggestion made by the Superintendent of the Hazaribagh school to discontinue instruction in some of the trades now taught in that institution, in view of the discouraging results shown by the return of boys following those professions after release, should be considered by the Inspector-General of Jails, from whom a report will be awaited. The boys in both the institutions were instructed in Hindustani, Bengali and arithmetic, and the more advanced boys were also taught English. The number of teachers has been found insufficient in both the schools. The Board of Management have recommended the reorganization of the educational staff at Alipore, and the omission of English as one of the subjects taught. The matter is before the Government. The revision of the school staff at Hazaribagh is also being considered by the Inspector-General of Jails in communication with the Director of Public Instruction, and a report will be made to the Government. The teachers in both the institutions are reported to have performed their duties in a satisfactory manner. Drill and gymnastics were carried on with regularity throughout the year, and the exercises are reported to have had a beneficial effect on the health of the boys.

5. *Character reports of released boys.*—The Report of the Alipore school furnishes information regarding the conduct of boys released during 1895, while the information in the Hazaribagh school report relates to boys released in 1896 as well as in 1895. There should be uniformity in the reports, and, as suggested by the Inspector-General of Jails, the heading of Statement IV, which requires two years' statistics to be given, should be amended, and figures for the year preceding that under report should alone be furnished, as was ordered in the Resolution on the Reports for the year 1894. Of the 62 boys released from the Alipore school during 1895, 27 are reported to be well conducted, 22 cannot be traced, 4 are in jail, 1 is viewed with suspicion, 6 are following the trades taught in the school, and 2 have died. The figures of the Hazaribagh school are:—

	1895.	1896.
Well conducted	24	36
Not traceable	12	4
In jail	3	2
Viewed with suspicion	3	1
Pursuing trade taught	2	3
Dead	2	1
Total ...	46	47

6. *Manufactures.*—The total profits from manufactures fell from Rs. 16,679 to Rs. 16,074, of which sum Rs. 11,190 were made in the Alipore school and Rs. 4,884 at Hazaribagh, against Rs. 12,763 and Rs. 3,930 respectively in 1895. At Alipore a great portion of the profits was derived from book-binding, and at Hazaribagh from cloth-weaving and tailoring. The average earning per head at Alipore was Rs. 60-8-5 and at Hazaribagh Rs. 19-5-7, against Rs. 64-2-2 and Rs. 17-7-6 respectively in the previous year.

7. *Expenditure.*—The following table compares the expenditure under the several heads in the two schools during the past two years :—

* Including travelling allowance.

The instructions issued in the last year's Resolution to show the charge for construction and repairs below the total of the above return have not been followed in the preparation of the Report of the Alipore school. As remarked in the Resolution, this item is casual and does not properly enter into the calculation of the cost of the school per head of population, and should, therefore, be shown separately. There has been an increase in the cost per head in both the institutions, chiefly due to the purchase of new clothing for boys and to the rise in the price of food-grains.

8. *General.*—Two boys were received from Assam in the Hazaribagh school. One managed to make his escape while working outside the school premises, and has not yet been recaptured. It is probable that no increase of accommodation will be needed at Hazaribagh to provide for boys sent from Assam. Wrought-iron pipes were laid in the Hazaribagh school during the year for conveying drinking and cooking water to the cook-house and feeding-platform, and at the Alipore school a new latrine was constructed, and a second story on the southern workshop, which is required to enlarge the accommodation, has been nearly completed. A note on the nutritive value of the food supplied to the boys of the Hazaribagh School prepared by Surgeon-Captain Nott, Superintendent of that institution, and appended to the Report, shows that the boys are given sufficiently nourishing food. The number of visits paid by the official and non-official visitors to the two institutions during the year was satisfactory.

9. The Lieutenant-Governor desires to thank the Board of Management and the Committee of Visitors for their continued interest in the working of the two institutions. Mr. Hill's management of the school at Hazaribagh has been most efficient, and the assistance gratuitously given by Mrs. Hill, especially in personally supervising the diet and nursing of the boys when sick, is highly spoken of by the Superintendent and the Inspector-General. The Lieutenant-Governor observes that the Inspector-General is strongly of opinion that every Reformatory School should endeavour to secure the services of a matron who should form part of the regular establishment. Dr. Comins should submit a separate report on the subject for the consideration of Government.

Order.—Ordered that a copy of the Reports and a copy of the Resolution be forwarded to the President of the Board of Management of the Reformatory School at Alipore, for information and for communication to the members of the Board.

Ordered also that a copy of the Reports and a copy of the Resolution be forwarded to the Inspector-General of Jails for information and for communication to the Superintendent of the Hazaribagh Reformatory School.

Ordered also that the Resolution be published in the *Calcutta Gazette.*

By order of the Lieutenant-Governor of Bengal,

REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF 1897-98.

No. 645B., dated Calcutta, the 13th August 1897.

From—H. LUSON, Esq., I.C.S., Offg. Secretary to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Financial Department.

SALT.

THE HON'BLE MR. W. H. GRIMLEY.

I AM directed to submit the following report on the state of the salt market for the first quarter of 1897-98, comprising the months of April, May and June 1897.

2. The quantity of salt of every description cleared during the quarter under review, amounted to 26,17,863 maunds, as compared with 26,63,599 maunds in the previous quarter and 28,63,069* maunds in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs. 61,10,816, as against Rs. 63,09,759 in the previous quarter and Rs. 68,06,060 in the corresponding quarter of the previous year. In all cases fractions are omitted.

* Revised figures.

3. The quantity of locally-made salt removed from the *golas* in Orissa during the quarter under review, and the quantity which remained in store at the close of the quarter, are shown in table I below:—

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 2152 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 24th August 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending the 14th August 1896, and the corresponding period of 1897, is shown in the following statement:—

Total ...	32,451	44,169	356,143	4,84,750

Imports.—During the period under report, the imports of rice amounted to 339,780 cwts., against 16,277 cwts. in the second week of August 1896. The amount imported from Burma was 294,089 cwts., that from Madras 6,753 cwts., and that from the Straits Settlements 4,882 cwts., all against nil in the corresponding period of last year; shipments of rice from Chandbali rose from 12,943 cwts. to 30,699 cwts. The imports of paddy from Chandbali fell off by 12,133 cwts., but this decrease was for the most part counterbalanced by larger imports from Madras, Rangoon and Balasore. The fluctuations under the head of gram and pulses were unimportant.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 14th August 1897 is compared with that for the corresponding period of 1896:—

	8TH TO 14TH AUGUST			
	1896.		1897.

Foreign Ports.

The exports of rice from Calcutta to foreign ports declined from 37,421 cwts. in the second week of August 1896 to 26,161 cwts. in the period under report. The decrease in exports to Ceylon was 12,181 cwts., and in exports to the Mauritius 9,517 cwts., while to Réunion 17,179 cwts. were shipped, against nil in the corresponding period of last year. The decrease under gram and pulses was chiefly due to smaller exports to the United Kingdom and Mauritius.

Indian Ports.

As regards Indian ports, the exports of rice during the second week of August 1896 amounted to 722 cwts., against 683 cwts. in the period under report. Under gram and pulses there was a decrease in exports to the Madras ports of 5,843 cwts.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

During the 10 days ending 31st July 1897 the imports of rice into Chittagong aggregated 18,959 cwts. against 1,360 cwts. in the corresponding period of last year; the imports of gram and pulse to this port fell by about half, viz. from 909 cwts., to 441 cwts. and those of miscellaneous food-grains to ⅓rds, viz. from 326 cwts. to 221 cwts. The exports of rice from Chittagong to Narayanganj and to Calcutta were 147 cwts. respectively, against nil in the last 10 days of July 1896. The net increase in the exports of food-grains from Balasore to Calcutta was 24,051 cwts., of which 27,697 cwts. were under rice, against a decrease of 2,602 cwts. under paddy and 1,044 cwts. under gram and pulse. There were no exports of food-grains from False Point during the 10 days under review, while in the corresponding period of 1896, 2,660 cwts. of rice and 163 cwts. of gram and pulse were shipped to Colombo and 2,567 cwts. of rice to Cochin.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

General Summary.—The rainfall during the week has been general and in place heavy. It is not yet sufficient in Champaran and parts of the Gopalganj subdivision of Saran, where the transplantation of winter rice is still retarded. In all other parts of the Province transplantation is well forward. Prospects of *bhadoi* crops continue to be generally favourable. In Patna, Gaya and Shahabad some damage to *bhadoi* crops is reported to have been caused by heavy rain. *Aus* rice, jute, and the earlier *bhadoi* crops are being harvested. Prices continue generally stationary with a slight tendency to fall in some places. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Bankura (common rice) 7½ to 9½ seers, Nadia (common rice) 7 to 8½ seers (old) and 9 to 11 7/16 seers (new *aus*), Murshidabad (common rice) 7½ to 8½ seers (old) and 9 to 10½ seers (new *aus*), Khulna (common rice) 8 seers, Saran (barley) 13 seers, Champaran (barley) 11¾ seers and (*rahar*) 11½ seers, Muzaffarpur (*makai*) 13 seers and (*rahar*) 10 seers, Darbhanga (common rice) 7 seers and (*makai*) 11 seers, Sonthal Parganas (rice) 7 to 8 seers and (maize) 9 seers, Puri (common rice) 9 to 10 seers, Hazaribagh (rice) 5½ to 7 seers and (*mahua*) 13 to 24 seers, Lohardaga (rice) 8 seers, Palamau (rice) 8 seers, Manbhum (common rice) 7¾ seers.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; ≤ lightning.

NOTIFICATION.

No. 4518L.S.-G.—The 30th August 1897.—It is hereby notified, for general information, that in exercise of the power conferred on him by Section 138 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to amend Rules 41, 42, 52 and 71, clause 3 of the Rules made under clauses (*i*) and (*t*) of the aforesaid Section of the Act and published under Notification No. 1758, dated the 14th April 1884, at pages 77 to 127 of Part IB of the *Calcutta Gazette* of the 18th idem, as follows :—

41. No cheque shall be signed unless required for immediate delivery to the person to whom the money is to be paid, nor until the bill, which it will discharge, has been presented in a complete form, examined and passed for payment in accordance with Rules 50 and 52.

42. Every cheque shall be drawn in English in favour of the person to whom the money is actually due. Payment shall not be made to any other person, except on production of a written authority from the creditor to receive it on his behalf. The rule does not apply to cheques issued for a sum of money distributable as pay or wages among a number of District Fund employés, or for recouping the permanent advance, or for payment to a Postmaster for a money-order or money-orders issued for payment of stipends or rewards to gurus. Whenever money is paid to persons who are illiterate and unable to sign their names in acknowledgment, the payee shall make his mark; the fact of the payment shall be certified to by the officer who pays, and by a witness of respectability. Money-orders in payment of Educational and other bills shall be issued in the name of the Chairman of the District or Local Board.

52. If payment is to be made by cheque, the Chairman shall cause the bill to be endorsed with the words "paid by cheque No. ," and shall then sign the endorsement, and cause the cheque to be drawn out, signed and issued. The payee or person taking delivery of the cheque on his behalf shall give a dated acknowledgment of the receipt thereof on that bill. Whenever necessary and convenient to the treasury, cheques issued from the District Board's office may be enfaced at the district treasury for payment at a sub-treasury. In all such cases the cheque with the contractor's certificate or bill shall be sent from the District Board's office to the Chairman of the Local Board, where there is a Local Board, or to the Subdivisional Officer in charge of the sub-treasury concerned for delivery to the payee, an advice under registered cover being sent at the same time to the payee. On delivery of the cheque, the contractor will sign and date the receipt on the certificate or bill form, and the Chairman of the Local Board, or Subdivisional Officer, will return the bill direct to the District Board's office. If the bill with the contractor's receipt is not returned within a month, the Chairman of the Local Board, or the Subdivisional Officer to whom the bill was sent, shall report the reasons for the delay to the Chairman of the District Board.

71. For the record of transactions other than cash, a register of adjustments shall be opened in Form No. VI, in which a few sample headings have been given in way of illustration.

The chief adjustments are --

(1) Rectification of errors in classification.
(2) The adjustment of a bill against an advance.
(3) The charge to a head of expenditure, by credit to deposits, of a sum due on a contractor's bill, which sum is retained as a security deposit.

NOTE.—The 10 per cent. deductions from contract certificates or other provincial disallowances, pending inspection or approval of the work, shall not be adjusted under this rule. In such cases only the net amount paid shall be entered in the accounts.

(4) Adjustments due to refunds of income or recoveries of expenditure.

These transactions shall be entered, item by item, in the register of adjustments, Form No. VI, whence the totals pass into the abstract registers of receipts and expenditure.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 24th September 1897, corresponding with 9th Assin 1304.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them as revenue-free or subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Notice.

THE terms of the leases in respect of the Mica Mines named in the accompanying list having expired, fresh leases for five years will be granted to the highest bidders. For this purpose, the mines will be put up to auction, at the Deputy Commissioner's Office, Hazaribagh, on the 15th October next. In addition to the rent thus determined, a royalty of 2½ per cent. will be levied on the sale value of the Mica at the pit's mouth.

The conditions of the lease have been prescribed in rule 15 of the revised rules for the grant of prospecting licenses and mining leases for Mica published at page 919, Part I, of the *Calcutta Gazette* of the 7th July 1897.

J. L. HERALD, Deputy Commissioner.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

A Dictionary of the Economic Products of India

BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product, even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo. pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G.; Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI (which consist of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI); but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the Vernacular and European names of the plants, animals and minerals of India, and, as such, will be a work of reference, which, it is hoped, may prove of considerable value.

CHINA SEA—STRAIT OF MAKASSAR.

Rocks on Laars bank and among the islands north-westward.

THE British Admiralty has given notice (No. 397 of 1897) of the existence of the undermentioned dangers on Laars bank:—

1. A rock, with a depth of 3½ fathoms on it, in approximately lat. 5° 39′ 0″ S, long. 118° 17′ 30″ E.
2. A rock, with a depth of 4 fathoms on it, in approximately lat. 5° 41′ S., long. 118° 20′ E.

Also, of various rocks, with 3¾ fathoms least water on them, between and westward of the islands Medemblik, Bangko, Bangkoang, Hoorn, Little and Great Doang Doangan; all north-westward of Laars bank.

The words "shoal water reported in this locality" have been placed on the chart among the above islands and between them and Kalu Kalukoan to the westward.

JAPAN—KIUSIU.

Amakusa Shimo Sima—Sunken rock reported westward of Shiki Saki.

THE British Admiralty has given notice (No. 400 of 1897) that the Master of the steam-vessel *Queen Olga* reports that, about noon on 31st December 1896, that vessel (draught 23¼ feet) touched the ground, but was not stopped, in a position rather more than a mile, West, from Shiki Saki, north-west point of Amakusa Shimo Sima.

The position of the ship when striking must be considered doubtful, and needs verification.

Approximate position, lat. 32° 31′ 50″ N., long. 129° 59′ E.

The symbol for a rock with less than 6 feet water on it, with the letters "*P.D.*" against it, has been placed in the above position on the Admiralty Chart.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE POLICE DEPARTMENT FOR THE YEAR 1896.

No. 4849J.

RESOLUTION.

POLICE.

Calcutta, the 27th August 1897.

READ—

The Report on the administration of the Police Department for the year 1896.

Read also—

The Report for the year 1895 and the orders of Government recorded thereon.

MR. E. R. HENRY held the office of Inspector-General throughout the year.

The present report was received by the Government on the 9th July, the date of submission being the 1st. With the exception of those from Orissa, Burdwan and Patna, the reports from Divisional Commissioners, due in Inspector-General's office on the 20th March, were received in that month.

2. *Constitution of the Force.*—The sanctioned strength of superior officers at the close of the year was 77, as in the previous three years: that of subordinate officers was 23,502 as compared with 23,514 in 1895, an increase of 66 Sub-Inspectors and 88 town chaukidars having been sanctioned against a decrease of 67 head-constables and 99 constables. The force actually

employed on the 31st December 1896 was below the sanctioned strength by 29 Sub-Inspectors, 67 head-constables, 192 constables and 35 town chaukidars. The vacancies in the rank of Sub-Inspectors were purposely kept open, and will be gradually filled up by recruitment of officers by competitive examination. Those in the rank of head-constables will provide the absorption needed for the gradual replacement of head-constables by Sub-Inspectors in accordance with the scheme of redistribution. The vacancies among constables and town chaukidars are reported to have been due to difficulty of recruitment.

3. *Expenditure.*—The following table compares the expenditure under the main heads during the financial years 1895-96 and 1896-97, subject to any correction by the Accountant-General, Bengal, in the figures for the latter year when the accounts are finally closed:—

Sub-heads.	Heads of charges.	Actual expenditure for 1895-96.	Actual expenditure for 1896-97.	Increase.	Decrease.
		Rs.	Rs.	Rs.	Rs.
	Inspecting agency	1,64,883	1,64,601		282
	Pay of District and Assistant Superintendents	5,10,233	4,96,453		13,780
	Pay of Executive Police and establishments, with good conduct pay and batta allowance, &c.	31,59,651	33,62,505	2,02,854	
	Travelling allowance	1,07,480	1,21,546	14,066	
	Fixed boat establishment	57,899	59,815	1,916	
	Special, regular and contract contingencies	5,62,065	5,65,191	3,126	
	Government contribution to the Municipal and Railway Police	1,56,384	1,57,991	1,607	
	Bengal Military Police	70,786	49,773		21,013
	Total	47,88,881	49,77,375	2,23,569	35,075
	Net increase			1,88,494	

The increased expenditure of Rs. 1,88,494 over that of last year is due partly to the grant of compensation for dearness of provisions, which amounted to over one lakh of rupees, and partly to the entertainment of additional police in connection with the railway extensions, plague and famine, and also to certain other increased establishments sanctioned during the year for which no provision had been made in the estimate. Last year there was an increase under the eighth head chiefly due to expenses incurred in connexion with the Military Police at Gnatong. This year there is a corresponding decrease under the same head owing to the force at Gnatong having been withdrawn and disbanded.

4. *Reduction of investigating centres and recruitment of investigating officers.*—Two outposts in Muzaffarpur recommended by the Police Redistribution Committee for abolition are still retained, the question of their abolition having been deferred for the present. Being on the Nipal frontier, their permanent retention is probably necessary. Nearly all the centres recommended for abolition by the Redistribution Committee were abolished in the preceding year. At the examinations held in July and December 1896 for Sub-Inspectorships over 100 candidates were selected. The total number of Sub-Inspectors appointed upon the results of open competitive examination, including those selected in the year under report, already exceeds 500, that is, nearly one-third of the total investigating officers. These men are of higher social position, and have the advantage of knowing English and of being generally better educated than their predecessors of the old school, but, coming into the force with no knowledge of its working details and without having to work their way up through the lower grades of constable and head-constable, they are at first necessarily raw and inexperienced. The claims of meritorious head-constables who entered the service before the new rules came into force are duly considered, and selections are periodically made from them for promotion to the rank of Sub-Inspector, those who know English being permitted to attend one term of the Training School.

5. *Police Training School.*—During the year the curriculum of studies was revised and new rules were issued. The School continued to do most useful work. The students are instructed in law, criminal and police procedure, surveying, drill, anthropometry and finger-print decipherment. Assistant Superintendents are also kept there until they pass the lower departmental

standard. Besides the instruction imparted, the encouragement of athletics has done much to improve the physique of the students. Sir Alexander Mackenzie visited the School during the year, and was satisfied with the system of management. The Lieutenant-Governor is glad to learn that since the close of the year a beginning has been made in opening district schools for the instruction of the rank and file of the police. Much has to be done in this direction, the percentage of educated men among the constables and town chaukidars being only 26·8.

6. *Working of the Town Police.*—Further effect was given during the year to the plan of substituting chaukidars for regular police in towns, by the appointment of chaukidars for town duty in certain municipalities of the districts of Burdwan, Rangpur and Backergunge. The change should be introduced where it is stated to be feasible in the 24-Parganas, Nadia, Champaran, Malda and Balasore.

Mr. Henry again brings to notice the general complaint that the rate of pay offered to town chaukidars is insufficient to induce local men of respectability to accept the appointments. Of these chaukidars he writes:—"Being utilised as whole-time officials, it is only reasonable that they should receive the remuneration of whole-time servants. This subject is one which has been under consideration for a long time, and practical experience has convinced all those connected with the administration of the Town Police system that suitable watchmen cannot be obtained at less than the rates which prevail for the remuneration of unskilled labour." The Lieutenant-Governor, when discussing the subject last year, thought that an increase in the rate of pay now drawn by the bulk of these men was advisable where the wages of labour are higher, subject to the general condition that the pay of town chaukidars should not be the same as that of constables. A proposal recently received from the Inspector-General for increasing the pay of town chaukidars in seventeen districts has accordingly been sanctioned, and a better class of men will thus be obtained, from whom whole time service can be taken. The Bengal Town Police system, which requires constant patrolling, has been introduced in many towns in place of the old system of watch and ward, under which the constables or chaukidars are kept stationary at beats. It is an unquestionable improvement, but demands for its successful working the proper lighting of the streets or the supply of bull's-eye lanterns to the police. In many towns, however, street lighting does not exist or is most defective. The necessity for improvement in this respect has already been pressed on municipalities, and the Lieutenant-Governor expects that the matter should be kept constantly in view. If the municipal funds do not permit of more effective lighting being provided, the Commissioners should, at least, meet the cost of supplying the police with bull's-eye lanterns and oil His Honour trusts that ill-advised economy in this respect will no longer be allowed to interfere with the efficiency of the patrol system.

7. *Rural Police.*—The number of chaukidars under Act VI of 1870 and Regulation XX of 1817 and of chaukidars holding service lands (chakran) in each of the past five years is shown below:—

Class of chaukidars.	1892.	1893.	1894.	1895.	1896.
1	2	3	4	5	6
Under Act VI of 1870 ...	96,787	101,517	109,870	114,134	115,762
„ Regulation XX of 1817	53,665	48,696	41,366	35,069	32,004
Chakran	18,629	17,911	17,003	17,063	19,324
Total ...	169,081	168,124	168,239	166,266	167,090

These figures show the progress made in introducing the provisions of Act VI of 1870 in recent years. The increase apparent in the number

of chakran chaukidars in the past year is doubtless due to the number of such chaukidars in certain districts having been incorrectly returned in previous years. The Inspector-General has noticed this important subject at appropriate length. The organization of the village police on a sound and satisfactory basis lies at the root of improvement of the police administration in reference to crime. The system of remunerating chaukidars by service lands has by long experience been found to yield bad results, and it is also impossible to secure a suitable class of men where Regulation XX of 1817 remains in force and the chaukidars are dependent on the zamindars for their pay. Act VI (B.C.) of 1870 affords unquestionably the best means of improving the status and efficiency of the rural police, and its introduction in places which are still under the other systems should be pushed on as rapidly as may be practicable. The Act ensures the remuneration of the chaukidars at better rates and with greater regularity, and places them under more effective control. Since its amendment in 1892 it has been possible to enlarge the areas entrusted to the panchayats or village committees, so as to admit of the appointment of sardar chaukidars or dafadars for the supervision of the chaukidars and to act as intermediaries between them and the police, without appreciably increasing the incidence of assessment on the villagers. These officers are a valuable addition to the rural police, and their gradual introduction has the approval of Government.

The progress made in the Burdwan Division in the operations for the resumption of chaukidari service lands and the general introduction of Act VI (B.C.) of 1870 has not been satisfactory, and it is clear that the work is not receiving the attention which its importance demands. The number of chaukidars is far in excess of requirements, and the resumption of the service lands would render it possible to employ an adequate body of men on pay which would go far to remove temptation to dishonesty. Under the present system the village watch is underpaid, the consequence being that many of its members are either active criminals or accomplices of criminals. The attention of the Commissioner of Burdwan will again be drawn to the subject. In the Dacca Division the reform most needed is the general introduction and utilisation of dafadar chaukidars. In the Backergunge district 172 dafadars were appointed, who are beginning to render valuable service. In the Patna Division, Mr. Savage in Gaya and Colonel Ramsay in Muzaffarpur have given special attention to the introduction of the dafadar system. Mr. Savage's work in reforming the chaukidari organization in Gaya deserves special mention. By the introduction of Act VI (B.C.) of 1870, and a careful adjustment under it of the areas placed under the panchayats and of the number of men allotted to each area, he has been able, while appointing nearly 400 supervising chaukidars, to effect a considerable reduction in the total cost of the village watch, by dispensing with 2,517 Regulation XX and chakran chaukidars, and reducing the total number of men employed from 6,495 to 4,432. The Lieutenant-Governor has learnt with pleasure that the Raja of Deo has set an excellent example to the gentlemen of position in the district by joining the panchayat of the area within which he resides. The question of the reorganization of the chaukidari system in Orissa, which had been under discussion for very many years, has been finally disposed of. The old and inefficient system of remuneration by service lands and voluntary contributions will be replaced generally by the system of panchayats and fixed pay under Act VI (B.C.) of 1870, the services of the large body of useless rural police known as paiks and khandaits will be formally relinquished, their service lands will be resumed and settled with them at favourable rates, and the proceeds will be utilised, under sanction received from the Government of India, for the employment of the requisite number of head chaukidars.

8. *Rewards.*—The figures show that a sum of Rs. 21,035 was spent in rewards from the Chaukidari Reward Fund against Rs. 13,971 in 1895, and the balance at the close of the year to the credit of the fund was Rs. 71,868, as compared with Rs. 58,343 at the end of 1895. The closing balance is large in many districts, and the Inspector-General concludes that rewards are not given freely enough by District Magistrates and District Superintendents of Police in deserving cases. Mr. Henry states that the explanation offered by local

officers is that more rewards were not earned by chaukidars. His Honour agrees with him that it is undesirable to fix too high a standard for the work which is to receive recognition in the shape of a small reward. A District Superintendent who interests himself in the supervision of the immense body of chaukidars under his control must have many opportunities for granting rewards, whether large or small, for meritorious work. As in the previous year, the largest amount of rewards from the fund was given in the Dacca Division, the district of Backergunge, where criminal administration has been specially vigorous during the year, alone accounting for an expenditure of Rs. 3,459. In the Patna Division the amount credited to the fund was Rs. 7,382, while the amount spent in rewards was only Rs. 3,306. A similar disparity between receipts and expenditure is noticeable in other Divisions, and His Honour trusts that it is not an indication that fines are being too frequently imposed upon chaukidars for petty offences while rewards are at the same time seldom granted. It is noticeable that, though this year was one of extreme hardship for chaukidars, the number fined departmentally was 29,964, as compared with 24,613 in 1895. The attention of all Commissioners, Magistrates and District Superintendents of Police is requested to the remarks and suggestions of the Inspector-General on the subject of generally improving the status of the village watch.

9. *Railway Police.*—There was an increase of 4 Sub-Inspectors and 17 constables and a decrease of 1 head-constable during the year, the total force being raised from 634 to 654. The increase of staff was required for new lines of Railway.

10. *Special Constables and Private Police.*—In 12 cases 448 men were appointed special constables under section 17 of Act V of 1861, as against 218 men appointed in 1895 in 10 cases. The increase is due to the large number of special constables, 349, appointed in two cases in Darbhanga to keep the peace during the Muharram, there having been a bad outbreak of lawlessness in the previous year at that festival. In Shahabad, where there were five cases of appointment of special constables, four were connected with the Sone Canals. The special constables were appointed along the canals for six weeks only to prevent the cutting of the embankments during the irrigation period. Police were supplied to private persons under section 13, Act V of 1861, in 80 cases, a large number of them being appointed to form treasure guards for Railway Companies.

11. *Military Police.*—The fourth company of Military Police, which was sanctioned in 1894 and was quartered at Gnatong in Sikkim, was disbanded during 1896. The other three companies at Dacca, Bhagalpur and Dumka were maintained at their full strength and are again reported to have attained a degree of efficiency creditable to their superior officers. New drill has been introduced, signalling classes have been started, and gymnasia have been fitted up for the use of the men. His Honour is pleased to learn that the conduct of all three companies was excellent throughout the year. The efficiency of this force is mainly due, as the Inspector-General observes, to the attention which has been constantly given to it by Mr. Pratt, the Deputy Inspector-General.

12. *District and ordinary Reserves.*—The District Police Reserve gave useful help in Rangpur and Saran in preventing serious breaches of the peace. These Reserves consist generally of about 25 well-trained men, who are kept at head-quarters, in order to be available at a moment's notice in case of organised disturbances occurring. His Honour agrees with the Inspector-General that the men should be kept together and the full number always maintained. The ordinary Reserves of districts are maintained for the purpose of supplying escorts and filling up vacancies caused by leave or sickness, and are consequently often much reduced.

13. *Casualties.*—The following figures show the casualties in the police force during the past three years:—

		1894.			1895.			1896.		
1.	Retirement on pension or gratuity ...	465,	or	1·93 per cent.	383,	or	1·55 per cent.	273,	or	1·12 per cent.
2.	Resignation	889,	,,	3·70 ,,	814,	,,	3·31 ,,	774,	,,	3·17
3.	Dismissal	615,	,,	2·56 ,,	591,	,,	2·40	534,	,,	2·19
4.	Discharge	161,	,,	·67 ,,	184,	,,	·74	144,	,,	·59
5.	Desertion	47,	,,	·19 ,,	90,	,,	·36	66,	,,	·27
6.	Death	559,	,,	2 33 ,,	521,	,,	2·11	520,	,,	2·13
	Total ...	2,736,	or	11·4 ,,	2,583,	or	10 5 ,,	2,311,	or	9.4 ,,

The total admissions to hospital numbered only 9,653, as compared with 11,277 and 11,571 in the two preceding years. This is satisfactory, the decrease being apparently largely due to the fact that 1896 was a healthy year throughout the Province generally.

14. *Torture and extortion by the Police.*—The number of charges of torture brought against the Police was 17, as compared with 15 in 1895. Of these only two were finally prosecuted to conviction, nine cases were declared false, two were dismissed, and in two there were acquittals. In one case in the district of Backergunge, in which Counsel was retained by the Government to prosecute before the Magistrate and the Sessions Judge, a Sub-Inspector was sentenced to 7 and a constable to 10 years' rigorous imprisonment for causing the death of a man by torture, but the conviction was set aside by the High Court.

There were 99 extortion cases reported, against 83 in 1895 and 127 in 1894. Only 16 cases ended in conviction, while 32 were declared false. Mymensingh, as in past years, shows an inordinate number of cases, the district being responsible for 37 cases in 1896 and 24 in 1895. Convictions ensued in three cases only, the accused being constables. Nineteen of the cases were dismissed as false or mistakes of fact or law. One, which was compromised, was returned as true, and 14 were undecided at the close of the year. In addition to these a number of other petty charges were made against the Police. The Inspector-General again draws attention to the systematised persecution of the Police which evidently prevails in this district. It should be the care of the Magistrate, while avoiding any possible encouragement of the police in wrong-doing, to protect them from false and frivolous charges in the honest execution of their duty, and the most effective means appears to be the institution of prosecutions against false complainants. Although the number of complaints of torture and extortion against the police is still large, the Lieutenant-Governor agrees in the view that there is a steady improvement in the general conduct of the force. Complaints from the public are in no way discouraged and are always fully enquired into, whether by the District Superintendents or the Magistrates, but the number of cases in which the police are shown to have acted badly is comparatively small.

15. *Punishments*.—The following table shows the punishments inflicted on members of the force during the past ten years:—

Year.	Judicial convictions under the Penal Code.			Judicial convictions under Act V of 1861.			Departmental punishments.		
	Number.	Percentage of officers.	Percentage of men.	Number.	Percentage of officers.	Percentage of men.	Number.	Percentage of officers.	Percentage of men.
1887 ...	279	·5	1·3	218	·3	1·0	5,137	48·9	17·4
1888 ...	287	1·3	1·3	191	·2	·9	5,149	50·5	17·1
1889 ...	330	1·2	1·4	153	·3	·7	4,997	45·0	17·5
1890 ...	334	1·1	1·5	160	·2	·7	4,828	46·0	16·2
1891 ...	260	·3	1·2	112	·3	·5	4,234	39·2	14·3
1892 ...	245	·7	1·0	120	·1	·5	4,223	41·0	14·0
1893 ...	237	·4	1·0	126	·3	·5	4,853	42·4	16·7
1894 ...	276	·3	1·2	133	·08	·6	4,638	36·7	16·2
1895 ...	243	·4	1·1	98	·1	·4	3,893	28·7	13·7
1896 ...	258	·5	1·1	167	·1	·7	3,233	25·5	11·1

In departmental punishments it is noticeable that the number of punishments and the percentage of officers and men punished, 25·5 and 11·1, respectively, are the lowest on record. Mr. Henry remarks:—"No punishments are inflicted until proceedings have been drawn up and explanations recorded, and every order is fully weighed before being carried into effect. When the order directs reduction in grade or rank, its meaning as a pecuniary penalty is explicitly set forth in the proceedings. . . . As the punishments now inflicted are much less severe in character and less uncertain in incidence, it would appear that discipline can be maintained under less drastic sanctions than formerly." Mr. Stevens has read these observations with much satisfaction. Far greater judgment and consideration are unquestionably now shown in the infliction of departmental punishments than in past years, and this cannot, but contribute to raise the self respect of the men and the general tone of the force.

16. *Suicides and Accidental deaths.*—Deaths by suicide were 3,154 in number, 1,921 being cases of women. Accidental deaths reported also increased from 28,996 in 1895 to 29,351 in 1896, deaths by drowning being 12,887. Thirty-eight deaths reported to be accidental were proved to be murders or culpable homicides. The number of alleged suicides afterwards found to be deaths due to violence is not shown.

17. *Conduct of the Police.*—The quinquennial statements of the results obtained by the Police in dealing with serious crime which have been furnished in the report for the past fifteen years are interesting, but comparison would have been simplified if the percentages of successful and unsuccessful cases and of persons convicted and persons acquitted had been given. The figures show that there has been no deterioration in the work of the police. Mr. Henry repeats the remark in the previous year's report, that the complaint against the investigating police is changing form, the principal indictment against them no longer being that they are corrupt, but that they lack the detective skill of their predecessors, and are less capable of controlling the criminal classes. It cannot, however, be denied that corruption still exists, the cause being mainly the small pay of the lower grades of officers, especially the writer-constables, on whom the duty of recording first informations of crime devolves in the absence of the Station Officer. As regards the want of detective skill, Mr. Henry observes:

"The allegation that there has been a decline in detective skill, and that the police now control the criminal classes less effectively than before, is an explicit charge, susceptible of proof or disproof. Opinions on such an issue obviously are not entitled to special weight, for reliance must be placed upon actual working results. A comparative statement for the last fifteen years, showing under the principal heads of crime the success achieved by the police, has been prepared and is given with this Report, some of the information of which may be thus briefly summarised. As evidencing the hold maintained over the criminal classes, the following figures are suggestive. During the five years' period ending 1886, re-convictions were proved against 7,057 old offenders, and 5,767 suspects were prosecuted for bad livelihood, of whom 67 per cent. were convicted. For the following period ending 1891, the figures are 8,626 re-convictions proved and prosecutions instituted against 10,509 bad characters, 64 per cent. of which were successful. During the five years ending 1896, previous convictions were proved against 11,124 old offenders, and prosecutions instituted against 14,451 bad characters, of which 75 per cent. proved successful. Both in respect of the increase and of the effectiveness of preventive action, it appears that police work of late compares favourably with work during any preceding period of the last fifteen years."

The Lieutenant-Governor agrees generally in the views expressed by the Inspector-General.

18. *Inspections.*—The Inspector-General spent 130 days and the Deputy Inspectors-General 168 and 203 days, respectively, on tour, and the headquarters of every district was inspected. The information desired by the Government as to the number of serious crimes in which local investigation was made by the District Superintendent in person has not been furnished. It should not be omitted from future reports. It is important that the District Superintendents should assist their subordinates in the investigation of serious cases, and take a personal interest in the work of detection. It is difficult to appraise the work of inspection done by District Superintendents from the bare chronicle of the days spent by them on tour. The District Superintendents of Bhagalpur, Rajshahi and Lohardaga are the only officers shown as having spent no time at all on miscellaneous duties in the interior of their districts.

19. *Crime.*—The following table shows the incidence of cognizable crime investigated (excluding nuisance cases), according to Divisions:—

Divisions.	Police.	Population.	Cases.		Proportion of police to population.	Proportion of police to cases.		Proportion of cases to population.

The total number of cases of cognizable crime, excluding cases in which enquiry was refused under section 157 of the Criminal Procedure Code, and cases of public and local nuisances, was 1,03,341, as compared with 91,360 in 1895 and 92,747 in 1894. The proportion of police to cases of cognizable crime, as shown in the above statement, is again lowest in the Dacca Division, where there were 16,936 cases and only 2,435 police officers. The police are reported to have been worked under greater pressure nearly everywhere, and the increase in work discounted the relief afforded to Backergunge and Mymensingh by an addition which was made to their police staff.

20. *Police tests.*—The following figures show the working results during the past three years according to the prescribed tests:—

		Percentage of cases investigated to cases reported.	Percentage of cases ending in conviction to cases decided.	Percentage of persons convicted to persons sent up for trial.
1		2	3	4
Classes I to V taken together ...	1894	66	74	58
	1895	67	74	62
	1896	72	77	58
Classes I to VI taken together ...	1894	75	86	75
	1895	75	85	74
	1896	78	87	74

Class VI includes mainly public and local nuisances and cases under local laws.

The figures for 1896 compare favourably with those of the preceding years. A comparison of these figures with those of the North-Western Provinces again indicates that the percentage of cases investigated by the Police in those Provinces is much smaller than in Bengal, while the percentage of success in both cases and persons is usually higher. The Inspector-General furnishes figures, in a statement comparing the strength of the police force to cognizable crime and population in the principal Provinces, which support his conclusion that Bengal is, in a marked degree, more under-policed than the other Provinces of India.

21. *Reported crime of the Province.*—The following statement shows the cognizable and non-cognizable crime reported in the Province during the last ten years, with the average price of common rice:—

Year.	Cognizable crime.	Non-cognizable crime.	Total reported crime of the Province.	Average price of food-grain (common rice) for the rupee.
1	2	3	4	5
				Srs. Ch.
1887	101,969	109,254	211,223	21 11½
1888	110,357	112,006	222,363	19 0
1889	119,656	117,407	237,063	15 15
1890	117,443	116,554	233,997	17 7
1891	128,472	119,072	247,544	16 8
1892	146,185	121,624	267,809	13 1
1893	137,898	121,490	259,388	13 11
1894	140,902	118,070	258,972	14 9
1895	136,777	125,685	262,462	16 12
1896	147,433	129,439	276,872	13 3½

The increase in both cognizable and non-cognizable crime is noticeable. In cognizable crime it is attributed everywhere to the pressure upon the poorer classes, resulting from the high prices of food-grains. For the marked increase in non-cognizable crime, which represents voluntary litigation, no explanation has been offered by the local officers. It might have been anticipated, as Mr. Henry remarks, that in a year of general distress less money would have been spent in seeking redress for petty wrongs.

22. The incidence of total crime, both cognizable and non-cognizable, according to Divisions, will be seen from this statement :—

Division.	Population, 1891.	Total crime.	Number of population to each case.	Number of population to each case of cognizable crime.	Number of population to each case of non-cognizable crime.
1	2	3	4	5	6
Burdwan ...	7,688,818	43,917	175	335	366
Presidency ...	7,853,566	35,392	221	439	448

Chota Nagpur ...	4,628,792	12,409	345	532	980
Grand Total ...	70,558,141	276,872	254	478	545

It appears from these figures that, in cognizable offences, Burdwan is the most criminal of the Divisions, while Orissa stands much below any other Division.

23. *False cases.*—The following table shows the number of cases declared to be false, and the result of prosecutions during the past five years:—

	1892.	1893.	1894.	1895.	1896.
1	2	3	4	5	6
Number of cases declared to be false ...	6,253	6,103	6,634	6,735	6,891
Ditto in which prosecution was instituted.	743	725	695	584	627
Percentage of prosecutions resulting in conviction.	33·1	37·2	29·5	33 3	35·2

The increase in cases reported during the past year explains the rise in the number of cases declared false. Mr. Henry rightly remarks that our rules impose an unfair task upon the Magistrate dealing with Police reports, for he is required on the information before him to decide that a case is true or is false, although many of them are necessarily doubtful. The only remedy, however, would be to order an enquiry by the Magistrates into doubtful cases, and this

would involve an increase of work for which no corresponding advantage would be obtained. The number of cases excluded from the returns as false is exceedingly high in Mymensingh (1,625), and high in Backergunge (524), and Nadia (525). It is not clear why the figures should be so much higher in these districts than elsewhere, and the attention of the Commissioners and Magistrates will be drawn to the matter.

The increase in the number of false cases in which successful prosecutions were instituted and convictions obtained is satisfactory, the figures being 221 and 195 respectively. The Lieutenant-Governor agrees with Mr. Henry that, even when these prosecutions fail in Court, they do some good, as they serve to emphasize the fact that the making of a false charge involves the risk of a prosecution.

In successful prosecutions Jessore has again shown good results, while Hooghly, Khulna, Rangpur, Murshidabad, Puri and Balasore have all done badly. In Mymensingh out of 471 false cases there were only 27 prosecutions, and only three of these cases resulted in conviction. These figures are most unsatisfactory.

24. *Abstention from enquiry by the Police in burglary and theft cases.*—The tendency of the Police to abuse the powers given to them under section 157, Criminal Procedure Code, has been further checked in the past year, and the orders contained in last year's Resolution on this subject appear to have received attention. The number of enquiries refused in house-breaking cases, however, still seems high, the statistics showing that 37,272 cases were reported, and 19·5 were not enquired into. The number of theft cases reported was 33,227, and the percentage not enquired into was 13·9 as compared with 30,185 and 15·1 in 1895. The following remarks made in last year's Resolution are reproduced for the guidance of Magistrates and District Superintendents.

"Mr. Henry himself is of opinion that too much advantage has been taken of the power of refusal in burglary cases, where the offender may ordinarily be presumed to have had some previous experience in crime, or to have the boldness which is likely to harden him into a professional criminal. The Lieutenant-Governor agrees with him that enquiry is advisable in many of these cases even when the chance of success appears very remote. The contention of many experienced officers which he quotes is sound, namely, that, whether the enquiry proves successful or not, the visit of the Police to the spot makes the bad characters realise that the authorities are on the alert, and that they might suffer on a recurrence of crime. It is incumbent on the District Superintendents, therefore, to see that their subordinates do not make it a practice to refuse enquiry in all cases in which success seems hopeless. Especially is it desirable that enquiry should take place when the recurrence of attempts at burglary or reported thefts shows that bad characters are active in any particular locality."

25. *Results of trials.*—The following table shows the number of persons convicted and acquitted and the percentage of convictions and acquittals in Police cases for the whole province during the past seven years :—

Year.	Convicted—		Total.	Acquitted—		Total.	Total disposed of.	Percentage of convictions.	Percentage of acquittals.
	By Magistrate.	By Sessions.		By Magistrate.	By Sessions.				
1	2	3	4	5	6	7	8	9	10

1891	73,559	1,463	75,022	34,552	1,222	35,774	110,796	67·7	32·3
1892	84,008	1,668	85,676	34,444	1,348	35,792	121,468	70·5	29·5
1893	79,922	1,463	81,385	32,644	1,100	33,744	115,129	70·7	29·3
1894	76,443	1,364	77,807	32,534	817	33,351	111,158	70·	30·
1895	72,831	1,357	74,188	31,707	1,080	32,787	106,975	69·3	30·7
1896	76,203	1,623	77,826	31,328	1,162	32,490	110,975	70·5	29·5

The highest proportion of convictions is again shown by Howrah, the figure 94·9 being practically the same as last year (94·5). The only other districts showing more than 80 per cent. of convictions are Darjeeling (89·2), Gaya (82·4) and Singhbhum (80·4). Noakhali (52·9) and Lohardaga (53·6) again stand last, as in 1895. The attention of District Magistrates is recalled to the remarks made in the last Resolution, that it is their duty, while abstaining

from any interference with the judicial independence of the staff in individual cases, to exercise a close supervision over, and control and direct the work of their subordinate Magistrates of all grades, pointing out mistakes in procedure, flaws in judicial enquiries, and inefficiency in dealing with crime of every description.

The results of trials before the Sessions Courts during the year show that 69·4 per cent. of cases tried ended in conviction, and that 58·2 per cent. of persons tried were convicted, as compared with 66·3 and 55·6 per cent. respectively in 1895. These figures show a slight improvement and are so far satisfactory. The results are good in Patna, Bhagalpur and Darbhanga, but bad in Pabna, Tippera, Shahabad, Monghyr, Burdwan and Mymensigh. In Backergunge the percentage of 70·5 is satisfactory.

26. The total value of property stolen during the year is returned at Rs. 17,20,005, as compared with Rs. 14,58,618 in 1895; and the percentage recovered was 17·2, the same as in the previous year. This percentage is still very low. The statistics, however, are not reliable, as correct information is often not furnished by the Police or by the complainants themselves.

27. The subjoined table shows class by class the number of true cognizable cases reported during 1896 and each of the preceding seven years:—

Analysis of crime by classes. *True cases.*

	1889.	1890.	1891.	1892.	1893.	1894.	1895.	1896.
Class I ...	2,818	2,874	2,765	2,817	2,843	2,892	2,7 2	2,907
" II ...	4,702	4,340	4,624	4,666	4,568	4,794	5,146	5,417
III ...	27,824	25,085	28,288	33,325	31,453	34,094	33,570	38,764
IV ...	2,334	2,210	2,220	2,268	2,082	2,412	2,627	2,271
V ...	41,032	38,078	39,841	44,870	43,098	45,393	41,423	45,951
VI ...	38,960	38,439	43,903	51,986	47,748	44,684	44,743	45,231

There has been an increase in all classes except class IV, which includes only a few minor offences against the person.

28. CLASS I.—*Offences against the State and public tranquillity.*—Offences under this class show a net increase of 135. There was a slight decrease of 16 in the number of occurrences relating to coins, stamps, &c., the total number being 116. Excluding the cases of passing quicksilvered pice, the Police had to deal with 31 true coining cases, of which they sent up 30, with favourable results, convictions having been obtained in 11 cases before the Magistrates and 9 cases before the Sessions Courts. False coining still prevails in the districts of the Dacca Division, but apparently not on an extensive scale. Enquiries made regarding a considerable number of spurious coins found in Orissa treasuries proved that they had been imported by professional coiners from Bijapur in the Bombay Presidency. Several of these men were successfully prosecuted.

Under rioting the number of true cases rose from 2,229 in 1895 to 2,363. The majority of these cases were not serious, but, as observed by the Inspector-General, it is discreditable that rioting should have been more prevalent in 1896 than it was ten years ago, and that our returns should show three times as many cases as those of the North-Western Provinces. The difficulty of securing the conviction of principals for whose benefit riots are committed, the rulings of the Courts requiring strict proof of a common object actuating the rioters and separate trials when two batches of contending rioters are prosecuted, and the improper admission of the plea of self-defence are mentioned as obstacles in the way of effectively dealing with this crime. Disputes regarding land are a very frequent cause of riots in many districts. The large floating population of operatives employed in the Jute and Cotton Mills in Howrah, Hooghly and the 24-Parganas, who have shown themselves easily excited and ready to break out of control under evil advice, is a source of trouble and danger. The question of revising the police establishment in the neighbourhood of Calcutta has accordingly been taken up, and is under the consideration of a Committee. The Dacca Division again shows very high figures under this head, the number of true cases (583) being 37 more than last year. The following districts in Eastern Bengal, in which agrarian disputes resulting in violence have long been most prevalent, had the largest number of cases attended with loss of life; Jessore (7), Khulna (12), Faridpur (13). The number of cases in Backergunge shows a satisfactory decrease from 156 to 123. On the other hand, there has been a recrudescence

of this crime in Mymensingh, where the number of true cases has risen from 95 to 186. The binding down in 1895 of 4,196 persons concerned in agrarian disputes in that district had, as is usually the case, only a temporary effect in the reduction of rioting.

29. CLASS II.—*Serious offences against the person.*—Under this class there has been an increase of 271 cases. Increases of 131, 83 and 64 respectively are shown under the heads "Grievous hurt," "Hurt by dangerous weapon" and "Criminal force to public servants." The number of persons sent for trial was 7,655, of whom 1,273 appeared before the Sessions. The percentages of convictions has improved, being 52·3 against 50·8 of last year. The number of true cases of murder rose from 362 in 1894 and 389 in 1895 to 421 in 1896. Altogether 238 cases were detected and brought to trial. In 36 cases the accused were discharged by Magistrates, while 176 cases were committed to the Sessions, 65 of which resulted in acquittals and 80 in convictions. Appeals were made to the High Court in 55 cases, and the orders were modified in 12 and set aside in 3 cases. The death sentence was actually passed on 21 persons. The serious prevalence of homicidal crime, especially of murder by gunshot, in Backergunge, has been noticed in previous years. In October 1895 four special Inspectors were added to the district staff, but it was found necessary last year to take further measures of a stringent character, and a copy of the orders issued by Sir Alexander Mackenzie was appended to the Resolution on the Inspector-General's last annual report. The chief of these measures was the withdrawal of all licenses for guns and ammunition, as the only effective means of suppressing the use of fire-arms for taking life. The success so far attained by the action in the past two years has been sufficiently marked to justify the hope that the reign of terror under which the people of the district have been living for so many years is coming to an end. The enquiries of the special Inspectors have led to the incarceration of a considerable number of dangerous characters who were suspected or known to be hired assassins, and to the conviction of several perpetrators of gunshot murders. The good results of the work of these officers and of the disarmament of the district are evidenced by a reduction of the number of murders from 76 in 1895 to 55 in the past year. The withdrawal of the gun licenses took effect in September 1896. During the eight months up to April 1887 there were 23 murders, of which three were by gunshot, and seven attempts at murder, of which five were by gunshot, two of the latter being, however, doubtful. The figures for the corresponding periods of 1894-95 and 1895-96 show, for the former, 64 murders and 12 attempts, of which 14 and 8 respectively were by gunshot, and, for the latter, 45 murders and 15 attempts, of which 14 and 11 respectively were by gunshot. The excellent service done by Mr. Beatson-Bell, the District Magistrate, and Mr. Ryland, the District Superintendent, in carrying out the special measures has already been acknowledged by the Government.

There were 13 true cases of professional drugging as against 21 in the previous year. Out of eight sent up for trial, only three ended in conviction. One notorious poisoner was sentenced to transportation for life. The Inspector-General also mentions an important case from Monghyr, in which a man poisoned seven persons to obtain Rs. 6,000 worth of property. The accused was sentenced to eight years' imprisonment under section 328, Indian Penal Code.

30. CLASS III.—*Serious offences against property.*—Under this class there was a decrease of 524 cases in 1895; but a very considerable increase of 5,194 cases, mostly under the heads "Burglary" and "Mischief by killing," &c., occurred in 1896. The increase in burglaries is 5,043. There were 331 true dacoities (including three cases under sections 399 and 400) against 255 in the previous year. This crime is steadily increasing, the number of occurrences in the past year being the highest on record. The percentage of cases and persons convicted to cases and persons tried shows a falling off, the figures being 53·6 and 46·1, respectively, as against 65·6 and 52·3 in 1895. The most serious cases took place in Burdwan, Manbhum and the Sonthal Parganas, a peculiar feature being the use of dynamite cartridges by the dacoits in some cases, which has necessitated a modification of the rules regarding the possession of dynamite without a license. The districts from which most true dacoities were reported are Burdwan (24),

Midnapore (15), Birbhum (14), Mymensingh (15), and Gaya (19). Mr. Henry considers that the alarming increase in this serious crime cannot fairly be attributed to the general scarcity, which only became pronounced towards the close of the year. The improvement in communications, which facilitates the movements of bodies of criminals or of parties in search of labour containing criminals, and leniency in the punishment of convicted dacoits possibly account partly for the increase of this crime, as surmised by him; but it is evident that increased vigilance and exertion on the part of the police are greatly needed. A special force for dealing with the dacoities in Western Bengal has already been sanctioned, and sustained efforts must be made in all districts to detect and break up the gangs by which many of these offences are committed. The total number of robbery cases was 283, against 238 in 1895 and 225 in 1894. There has been a steady and unsatisfactory increase in this crime also during the past six years.

Arson cases were most frequent in Chittagong (54) and Noakhali (26). In the former district the increase of arson is a very serious feature, as it is stated that a very large number of cases are never reported owing to fear of vengeance being taken upon the informants. Mr. Henry correctly points out the difficulty of dealing with this offence:—

"The standard of proof required by the Courts is one that it is almost impossible to work up to. Incendiaries select dark nights for their operations, and take special precautions to prevent their identity being made clear. The police consequently have to rely mainly upon circumstantial evidence, which is not deemed by the Courts sufficiently conclusive."

31. CLASS IV.—*Minor offences against the person.*—There is a net decrease of 116 in this class of offences, chiefly shown in the Rajshahi, Dacca, Chittagong, Bhagalpur and Chota Nagpur Divisions. Many of these cases are compromised, and, as these are shown as acquittals under section 345 of the Criminal Proceduro Code, the judicial results always appear worse than they are in reality.

32. CLASS V.—*Minor offences against property.*—An increase of 9,531 is shown under this head, chiefly under "Ordinary Theft" (3,103) and "Burglary" (5,043). The increase is generally attributed to the failure of the crops and the consequent impoverishment of the lower classes. About 83 per cent. of reported cases of theft were investigated, and of these about one-third were prosecuted to conviction. In 14,111 out of 35,699 cases of house-breaking it was reported that no property had been stolen. The Inspector-General rightly doubts the correctness of these statistics. As usual, by far the largest number of burglaries occurred in the Patna Division, which shows 9,673 cases as against 9,427 in 1895. This is mainly accounted for by the density of the population and the poverty of the lower orders, as well as by the existence in the Division of notorious criminal classes, such as the Maghaya Domes, the Saran Domes and the Ahirs of Shahabad. The Inspector-General has furnished in two statements some interesting details regarding burglaries and thefts. It appears from the returns received, which are not, however, accepted as quite trustworthy, that, while property was stolen in 60 per cent. of the cases reported, the value was below Rs. 5 in 23 per cent. As to the methods adopted for entering the houses, it is shown that burglaries are most frequently committed by cutting through the walls, next by burrowing under the walls, and, lastly, by forcing a closed door. In 60 per cent. of the theft cases, the property taken was below Rs. 5 in value, and in nearly one-third of the occurrences vegetable products were the subject of theft. These particulars indicate that in a large proportion of cases the offenders were not professional thieves.

33. *Class VI.—All other cases.*—The total number of true cases was 45,231, as compared with 44,743 in 1895. The number of bad-livelihood cases was 4,200, against 3,289 in 1895 and 2,806 in 1894; and the percentage of cases in which security for good behaviour was demanded was the highest on record. The institutions were very few in Burdwan (46), Hooghly (17), Khulna (54), Rajshahi (24), Dinajpur (34), Pabna (27) and Bogra (37); and the Inspector-General draws attention to the fact that crime has been notoriously prevalent in these districts, where preventive measures against the criminal classes have been neglected. The Lieutenant-Governor observes that the proportion

of cases enquired into in the villages of the accused is again small in many districts. The neglect to hear the cases locally is especially marked and inexcusable in most districts of Bihar, where the means of communication are good at all times of the year. His Honour desires that local trials should be the rule, wherever and whenever they are practicable. The results of the trials cannot fail to be more satisfactory, as better and more reliable evidence would be obtainable on the spot than at head-quarters, needless harassment of witnesses, resulting from their attendance at distant places to give their evidence, would be obviated, and a good effect would be produced on the bad characters of the localities visited.

The number of registered surveillés at the close of the year was 43,810 against 42,080 in 1895.

34. *Railway Police.*—The number of cognizable and non-cognizable cases reported during the year was 3,813, against 3,575 in the preceding year. Of 2,527 persons sent up for trial, 2,190 were convicted, the percentage being 86·6 against 87·7 in 1895. In cognizable cases 85·6 per cent. of persons tried were convicted, a result which reflects credit on the working of the Railway Police. There were 626 accidents with 216 deaths, as compared with 388 with 214 deaths in 1895. Eighteen cases of obstruction occurred in which railway material was used, and 14 cases in which stones were placed on the line. Convictions were obtained in 10 cases. No less than 7 cases occurred on the newly-opened Assam-Bengal Railway.

35. *Working of the Arms Act.*—Under this Act 2,172 cases were decided and convictions were obtained in 2,089. The largest number of prosecutions occurred in the Presidency and Rajshahi Divisions, and there was a marked increase in Midnapore, Hooghly and the 24-Parganas. Licensees appear to have availed themselves to a considerable extent in some districts of the facility accorded of renewing their licenses through the agency of the police and the Subdivisional Officers. The orders for the marking of guns must be strictly enforced in all districts, all guns which have not been marked being called in for this purpose on the renewal of the licenses at the end of the year. While, again, licensees should not be treated with undue severity for unintentional omission to apply for renewal of their licenses on expiry, punctuality in the filing of such applications must be insisted on, and where applications are not received the cause should be ascertained. The record of licenses and of guns in each district must be maintained with the fullest accuracy attainable.

36. *Non-cognizable crime.*—The total non-cognizable crime under the several classes for the year 1896 is compared with that of the previous year in the following table :—

	Number of cases.			
	1895.	1896.	Increase.	Decrease.
Class I	9,665	9,692	27	
" II	28	26		2
" III	882	849		33
" IV	59,361	63,164	3,803	
" V.	10,369	11,497	1,128	
" VI	14,312	13,879		433
Special Laws	31,068	30,332		736
Total	125,685	129,439	4,958	1,204
Net increase ...	.....	.....	3,754	

There has been a net increase of 3,754 cases, chiefly under Class IV (3,803) and Class V (1,128), while a decrease of 736 cases appears under "Special Laws." The greatest increase is under "Criminal Force" (3,130). The percentage of cases in which the police were employed is 4·8 against 4·2 in 1895. The worst results are shown in Midnapore, where 2,224 persons were acquitted to 1,560 convicted. The Chota Nagpur and Orissa Divisions show improvement, but the results in the Patna Division are poor. The large number of acquittals in non-cognizable cases is, no doubt, partly due to compromises made after the parties have appeared in Court, and this possibly accounts for the large proportion of acquittals in Bihar, where compromises are frequent in petty cases of assault and criminal trespass. Many of the acquittals are, however, attributable

to neglect to examine the complainants carefully before the issue of process, and a considerable excess of acquittals over convictions is very generally evidence of such neglect on the part of the Magistrate. It should be borne in mind by Magistrates that the issue of processes in petty cases without due consideration often causes harassment to innocent persons, which it is the duty of the Courts to avoid to the fullest extent possible.

37. *Remands.*—The following table shows the percentage of remands in police cases sent up for trial during the past three years:—

Year.	Percentage of cases disposed at the first hearing.	Percentage of cases remanded once.	Percentage of cases remanded twice.	Percentage of cases remanded thrice.	Percentage of cases remanded four times.	Percentage of cases remanded five times	Percentage of cases remanded six times.	Percentage of cases remanded more than six times.	Pending.
1									10
1894	35·7	24·1	15·0	9·4	5·5	3·1	1·8	2·1	2·8
1895	34·8	22·4	15·1	9·9	6·0	3·5	2·2	3·0	2·7
1896	32·1	22·7	15·3	10·5	6·6	3·7	2·2	3·2	3·4

The percentage of A forms disposed of at the first hearing is lower than in 1895 and 1894. The percentages of police cases remanded once, twice and thrice are all too high, and the percentage of cases remanded more than six times (3·2) is higher than in 1894 and 1895. From other returns the Inspector-General finds that the average detention of accused persons in Magistrates' Courts was 14 days—a period exceeding the average for the past four years. The larger number of cases dealt with during the year threw more work on the Courts, but the Lieutenant-Governor has no doubt that many Magistrates procrastinate, and are far too ready to find excuses for postponing cases. The worst returns as regards police cases decided at the first two hearings are from Rangpur (38·2), Bogra (30·4), Pabna (42·4), Mymensingh (39·3), Faridpur (37·9), Monghyr (38·3) and Lohardaga (30·0). Of these districts, Rangpur, Monghyr, and Lohardaga were unfavourably mentioned last year. Lohardaga is the worst district in the whole Province in this matter, and the percentage there has fallen from 39·6 in 1895 to 30·0 in 1896, in spite of the attention drawn to it in last year's Resolution. On the other hand, Backergunge and Shahabad, two other districts unfavourably mentioned in last year's report, show very considerable improvement. The frequency of remands in police cases reflects on District Magistrates, who are expected to make periodical inspections of the registers of the subordinate Magistrates and pass orders to prevent the undue postponement of cases.

38. *Reconviction of old offenders.*—The production of proof of previous convictions against old offenders under trial is an important duty of the police, and the report shows that it is being discharged with greater efficiency. Both the jail and the departmental returns give for the past year a higher percentage of previous convictions proved on the total number of persons convicted than in any previous year. This result has been contributed to by the anthropometrical system of identification, which will now be gradually replaced by the system of finger impressions.

39. *Anthropometry.*—During 1896 the Central Office was able to identify and furnish the criminal history of 334 ex-convicts whom the local police had failed to identify, 27 of the cases being from Assam, 1 from Burma, from the North-Western Provinces and 69 from the Calcutta Police. In Bengal districts, of 2,101 persons who were unidentified on arrest, the local police, after sustained enquiry, recognised 1,270. Of the remaining 831, the Central Office identified 252, or 28 per cent. If impossible cases are excluded, the percentage identified was 42·3. The similar percentages for 1894 and

1895 were 27 and 31·6, respectively. With regard to the system of identification by finger impressions, Mr. Henry observes:—

"The considerable advantages which identification by finger impressions would possess over anthropometry in respect of saving time and money, of greater certainty in recognition owing to the elimination of the error due to the "personal equation," and of its being better suited for general use in a country where so large a proportion of the constabulary are illiterate, having been recognized, a commencement was made more than two years ago in working out a scheme of classification by which duplicates of the impressions of the ten digits could be rapidly and unerringly traced. The many difficulties met with have been overcome, and a Committee consisting of Major-General Strachan, R.E., Surveyor-General, and Mr. Pedler, F.R.S., have reported to the Government of India that the system of classification adopted answers all possible tests. They are able to add, having seen identification by anthropometry and by finger impressions working side by side, that the new system requires least training and education on the part of operators, is the cheapest, most rapidly worked and most effective that has yet been devised, and must in time supersede all others."

The system of classification which has been so favourably reported on by the Committee was perfected by Mr. Henry himself, and the Lieutenant-Governor recognizes the great attention which he has given for several years to the important subject of the identification of criminals.

40. *Character of officers.*—The Inspector-General again notices the excellent services of Messrs. Giles, Pratt and Masters, Deputy Inspectors-General, and of Mr. Showers, his Personal Assistant. The names of the District Superintendents, Assistant Superintendents and Inspectors favourably mentioned in paragraph 43 of the report will be noted in the Appointment Department. Mr. Henry himself has for years administered the department with great efficiency, and the thanks of Government are again due to him.

ORDER.—Ordered that copies of this Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and to all Commissioners of Divisions for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

C. W. BOLTON,

Chief Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF THE INCOME TAX DEPARTMENT FOR THE YEAR 1896-97.

FINANCIAL DEPARTMENT—SEPARATE REVENUE.

Dated Calcutta, the 27th August 1897.

RESOLUTION No. 4900S.R.

READ—

The Report of the Board of Revenue on the financial results of the Administration of the Income-tax for the year 1896-97.

No change of any importance was effected during the year in the administration of the Income-tax Act.

2. The following statement compares the financial results during the last two years:—

	1895-96. Persons.	1896-97. Persons.
Number of persons originally assessed, excluding Government servants	110,584	112,901
Number of persons finally assessed, exclusing Government servants	108,901	111,190
Number of persons finally assessed, including Government servants	117,639	120,106
Number of assessees, including Government servants, who paid the tax within the year ...	114,820	117,050
	Rs.	Rs.
Final demand of income-tax for the current year	46,44,587	48,59,582
Final demand, including penalties, fines, and arrears of previous years ...	48,14,912	50,61,295
Collections of income-tax within the year	45,14,456	47,54,783
Gross receipts	46,58,323	49,15,713
Charges	1,81,774	1,79,599
Percentage of charges on receipts ...	3·9	3·7
Net revenue	44,76,549	47,36,114

The net revenue shows an increase of 5·8 per cent. against an increase of 2·08 per cent. in the previous year. The gross receipts, including advance payments and excess collections, and making allowance for various adjustments, amounted to Rs. 49,15,713, of which Rs. 47,77,144 represent the receipts on account of the current demand for the year.

3. There was a decrease in the final demand in the districts of Dacca, Darbhanga, the 24-Parganas, Muzaffarpur, Burdwan, Chittagong, Rangpur, Khulna, Gaya, Lohardaga, the Sonthal Parganas, Cuttack, Malda, Noakhali, Monghyr and Bogra. Various causes are assigned, but in no district does the percentage of decrease exceed 3, except in Dacca and Darbhanga, which show a decline of 17·6 and 5·4 per cent., respectively. The decrease in Dacca is attributed to the failure of the jute crop and the depression in trade due to the famine, but the Lieutenant-Governor is not satisfied that these causes can have operated so much more in this district than elsewhere. In Darbhanga the falling off is ascribed to the large remissions granted in consequence of losses in the grain trade. Enhanced assessments and the discovery of new assessees produced an increase in all districts other than those named above. In Singhbhum the increase was large, but is only temporary, being due to the assessment of contractors and other persons working on the Sini-Midnapore Railway. Special causes also account for the rise in Darjeeling and Backergunge.

4. *Demand, Collections and Balances.*—The following statement shows the original demand, the revised demand, and the percentage of collections from assessees, exclusive of Government servants:—

Year.	Original number of assessees.	Revised number of assessees.	Original demand.	Final demand after revision.	Amount of final demand collected.	Percentage of final demand collected.
1	2	3	4	5	6	7
			Rs.	Rs.	Rs.	
1895-96	110,584	108,901	42,28,930	41,32,282	40,02,151	96·9
1896-97	112,901	111,190	44,47,473	43,52,957	42,43,058	97·6

The outstanding balance at the close of the year, including penalties, &c., compares favourably with the figure for the preceding year, being Rs. 1,42,605 against Rs. 1,64,461 in 1895-96. Of this balance, Rs. 45,852 are reported to be good and under realization, Rs. 74,009 doubtful, and Rs. 22,744 bad and irrecoverable.

5. The percentage of collections on the final demand on account of tax alone was 97·6, as compared with 96·9 in the previous year; while the percentage of collections on the final demand on account of tax, penalties &c., both current and arrear, excluding advance payments and excess collections, was 96·08, against 94·7 in the previous year. These results are satisfactory. The districts of Burdwan, Bankura, Murshidabad, Dacca, Patna and Malda succeeded in collecting the entire demand within the year. In the case of Dacca this result was no doubt due to a great extent to the large reduction in demand, but the other districts did equally well in the previous year. The districts in which the collections on account of current and arrear demand, including tax, penalties, &c., were below 95 per cent., are the following:—

Calcutta	94·9	Puri	91·5
Dinajpur	94	Singhbhum	85·3
Darbhanga	91·5	Manbhum	80·4

The Lieutenant-Governor observes with pleasure that the prescribed standard was attained in Muzaffarpur and the 24-Parganas during the year. Singhbhum shows a considerable, and Calcutta and Darbhanga a slight improvement. No explanation is given of the appearance of Puri and Manbhum in the list, and it is hoped that the collections of the current year in these districts will show a better result.

6. *Assessments.*—The number of assessors employed during the year was 49, the same number as in the previous three years. The number of villages (including streets in Calcutta) visited by these assessors was 72,220, against 69,450 in 1895-96. It is explained that in certain districts more attention was given to towns, and consequently the visits made to villages were fewer. Time ought not to be spent in visiting small villages when it can be better employed in making more careful assessment elsewhere; still enquiries should be extended to all villages in which new assessees are likely to be discovered. The Lieutenant-Governor agrees with the opinion of the Board that Income-tax Deputy Collectors should pay more attention to their duty of revising the assessments in towns, in order that the assessors may be left more free to visit as many villages as possible. The Board remark that Income-Tax Deputy Collectors may well be employed on other revenue work, but that they should not be given criminal cases to try. Rules to this effect have already been issued under the orders of Government contained in the Financial Department letter No. 2089S.R., dated the 30th March 1894. The number of persons finally assessed was 111,190, against 108,961 in 1895-96, showing an increase of 2·1 per cent. Calcutta again shows the largest increase (1,268), followed by Midnapur, Mymensingh, Saran, Bhagalpur and Jessore, which show increases ranging from 298 to 117. No district shows a reduction of more than 100, except the 24-Parganas and Purnea, where the decrease was 240 and 128, respectively. The decrease in the 24-Parganas is attributed to insufficient rainfall, which affected the paddy and sugarcane cultivation and the fisheries in the Salt Water Lakes, while in Purnea depression of trade is assigned as the cause of the falling off.

7. *Objections.*—The statistics of objections to assessments are shown in the following table:—

Year.	Number originally assessed, excluding Government servants.	Number of objections.	Percentage of objections.	Number of successful objections.	Percentage of successful to total number of objections, column 5 to column 3.
1	2	3	4	5	6
1895-96 ...	110,584	10,797	9·8	3,362	31·1
1896-97 ...	112,901	10,493	9·3	3,413	32·5

The percentage of objections to assessments was highest in Puri (26), Gaya, where the percentage was 36·9 in 1895, coming second with 25·6. Successful objections exceeded 40 per cent. in the 24-Parganas (53·4), Calcutta (52·06), Chittagong (49·8), Rangpur (48·5), Purnea (43·7), and Malda (41·4). These figures are considerably worse than those of the preceding year. Special reasons are given for special districts, but the chief cause assigned is the straitened condition of assessees, owing to failure of crops or loss in trade. There is evidently still much room for improvement both in making and in revising the assessments.

8. *Incidence of the tax.*—The average incidence of the tax in the whole Province (excluding the tax on the interest on Government securities and the salaries of Government officials) was Re. 1 to every 16·3 persons, against an average of Re. 1 to every 17·2, persons in the preceding year. Outside Calcutta, the average incidence was Re. 1 to 33·2 inhabitants. Darjeeling continues to show the highest mufassal average, Re. 1 to every 4 persons; while the incidence was lowest in Cuttack, Re. 1 to 85 persons. In Calcutta the average incidence was Re. 1 to every ·4 persons, and 1 person in every 37 was assessed to the tax. The proportion of persons assessed for the whole of Bengal was 1 to 640, against 1 to 653 in the previous year.

9. The following statement illustrates for the year under review and for previous years the distribution of the income-tax and of the other directta xes which preceded it, as between Calcutta and the rest of the Province:—

* Figures not available.
† Exclusive of the tax on salaries, &c., recovered by the Accountant-General and the tax on the interest of Government securities.

The figures show that, out of the total collections, a little more than one-half (50·8 per cent.) is contributed by Calcutta alone, and that both in Calcutta and in the mufassal there is a steady increase in the amount of tax collected.

10. *Coercive measures.*—The following table compares for the last three years the coercive measures which had to be taken for the realization of the tax:—

Year.	Number of persons finally assessed.	Distress warrants.		Cases of distraint.		Cases of sale.	
		Number.	Percentage to column 2.	Number.	Percentage to column 2.	Number.	Percentage to column 2.
1	2	3	4	5	6	7	8
1894-95 ...	106,975	5,035	4·7	1,934	1·8	337	·3
1895-96 ...	108,901	5,656	5·2	2,173	2·	317	·3
1896-97 ...	111,190	4,858	4 4	2,142	1·9	337	·3

The number of distress warrants issued was smaller than in the previous r, but the cases in which property was sold rose from 317 in 1895-96 to 337 in the year under review. The proportion of warrants issued on the number of persons assessed was above 10 per cent. in the districts of Darbhanga (13·3), Singhbhum (11·9) and Jessore (11·5). These figures show an improvement on the results of the previous year, when seven districts showed high percentages, and five of them returned a percentage of over 13. As in the two preceding years, sales of distrained property were most numerous in Jessore, Gaya and Rangpur. In twelve districts, including Calcutta, no such sales were found necessary. In Calcutta, however, the number of distress warrants issued increased from 684 to 850, which is reported to be due to wilful neglect on the part of assessees to pay on receipt of the demand notices.

11. The amount of tax collected under section 9 (2) of the Income-tax Act, which permits managers of companies or other employers of labour to undertake the collection of the tax from their employés on receipt of a commission from the Government, was Rs. 2,87,934 against Rs. 2,74,233 in the preceding year; and the number of companies, &c., who undertook to collect the tax also rose from 318 to 320. Five of these, however, failed to carry out the collection, and the tax had to be realized by the district officers. The Collector of Income-tax, Calcutta, succeeded during the year in inducing several of the local firms to collect the tax on behalf of Government. The system is not calculated to work with any great advantage, unless the number of employés is large, in which case the commission allowed is remunerative to the employer, and repays Government by the amount of relief afforded to the collecting establishment.

12. *Expenditure.*—The expenditure incurred in the working of the tax fell from Rs. 1,81,774 in 1895-96 to Rs. 1,79,599. In view of the larger collections, this decrease is very satisfactory.

13. *General remarks.*—The system of payment of income-tax by money-order continues, it is said, to become more popular. The Lieutenant-Governor will be glad to have the Board's final views on the proposal to print the income-tax coupon on the money-order form itself, instead of affixing it, as now, to the form, a practice which is reported to cause inconvenience and hardship to the assessees. The proposal to open a sub-treasury in the office of the Collector of Income tax, Calcutta, should be submitted separately. A few cases of embezzlement of a trifling character were discovered during the year. Three persons were convicted of personating assessors and illegally collecting the tax. Public feeling in regard to the tax remains the same, though it finds less expression, as the people are beginning to realise more generally that the tax cannot be avoided.

14. The names of the Deputy Collectors specially reported by the Board as having done good service will be communicated to the Appointment Department.

15. The thanks of the Government are due to the Board for their administration of this Department during the year under review.

By order of the Lieutenant-Governor of Bengal,

FAMINE RELIEF IN BENGAL.

No. 1730Fam.—The 31st August 1897.—The following papers are published for general information.

M. FINUCANE,

Secretary to the Government of Bengal.

No. 1626(Fam.), dated Calcutta, the 20th August 1897.

From—M. FINUCANE, Esq., Secretary to the Govt. of Bengal, Revenue Dept.,
To—The Secretary to the Government of India, Revenue and Agricultural Dept.

IN continuation of this Government's letter No 1449Fam., dated the 22nd July 1897, I am directed to submit, under section 29 of the Bengal Famine Code, the following report on relief operations in this Province. Except in the case of the Bhagalpur Division, for which information has been furnished by the local officers only up to the 24th July, this report deals with the five weeks ending on the 31st July 1897, and has been delayed because the reports of the Commissioners of the Patna and Presidency Divisions were not received until the 13th and 16th August, respectively. A Statement of Rainfall and the usual Famine Statements A and B are hereto appended, and I am to submit herewith, as usual, copies of the two half-monthly reports* of the Commissioner of the Patna Division for the period above mentioned. I am also to enclose famine maps of the districts noted on the margin. No map is submitted for the Patna Division, as there was no change in the areas affected.

2. *Patna Division. Prospects of crops, prices, &c.*—The condition of the district of Patna continued good, except for a slight rise in prices. The Commissioner expects a full average *bhadoi* harvest, although some of the crops sown have been damaged by floods. Gaya remained the most prosperous district in the Division. The *bhadoi* crops, which are three weeks earlier than usual, were doing well, and the transplantation of winter rice was going on rapidly.

3. In some of the remaining five districts, dealt with in this and the following paragraphs, anxiety was felt during the first two weeks of the period, in consequence of a break in the rains. The heavy fall of the 23rd to 25th June was followed by dry, close, oppressive weather, with a curious haze and a high temperature, and in some districts, a west wind, and the result was that the *bhadoi* crops, which had come up well, began to wither, and the transplanting of winter rice was impossible. The succeeding three weeks brought plentiful rain throughout the Division, and completely removed the apprehensions previously felt. The rain was broken by intervals of sunshine and has been followed by a period of fine weather; these conditions were what the crops required, and prospects are now reported to be excellent, except in certain flooded tracts of Saran, in the Hajipur Subdivision of the district of Muzaffarpur, and in the Samastipur Subdivision of Darbhanga. Writing on the 11th August 1897, Mr. Bourdillon says that, with the exception of these tracts and of some parts of the Sitamarhi Subdivision of Muzaffarpur and the Madhubani Subdivision of Darbhanga, where the crops suffered from the drought, the *bhadoi* bids fair everywhere to yield a bumper crop, while the transplanting of winter rice is progressing most

satisfactorily. The outlook, he writes, could hardly be better than it is. There was, however, a slight rise in prices generally. The last fortnight of July and the first fortnight of August are usually the period of the greatest dearness of food-grains. It is hoped that prices will fall as soon as the new *bhadoi* harvest comes into the market. Imports fell off considerably during the first half of the month, after the heavy rain which fell in the last week of June; but during the three weeks ending 31st July, they increased* largely. The only district in which the exports exceeded the imports is Shahabad. Food-stocks were sufficient everywhere.

	Imports. Mds.	Exports. Mds.
* Two weeks ending 10th July	2,72,085	1,30,237
Three weeks ending 31st July	7,07,020	1,71,391
Total	9,79,105	3,01,628

(These figures include Gaya and Patna districts.)

4. *Area and population affected and numbers on relief.*—As stated in para-1 above, there was no change in the area and population affected. The following table shows the numbers and percentages of population on relief from the first-half of April:—

The numbers given in this table are as shown in the weekly telegraphic reports published in the *Calcutta Gazette* corrected up to date. The percentages rose in Shahabad and Saran. In the former district, relief works having been closed in the last week of July, the numbers above shown for the 31st July were all on gratuitous relief. The Commissioner is satisfied that relief was given to none but those who deserved it under the provisions of the Code. He wrote in paragraph 19 of his report for the first half of July:—"He (Mr. Windsor, Collector of Shahabad) thoroughly assimilated the principles of the Code on these matters, and is carrying them out. I am satisfied that he and his Circle Officers will allow no one to receive gratuitous relief who is fit to work either on relief works or in the fields." The rise in Saran was due to severe distress caused by the floods in the inundated tracts.

5. *Relief works.*—The following table shows the number of relief works open on the 31st July:—

	Under Civil Officers.	Under the Public Works Department.	Total
Shahabad	... ...	...	...
Saran	... 40	...	40
Champaran	... 18	29	47
Muzaffarpur	... 64	13	77
Darbhanga	... 71	42	113
Total	193	84	277

The total number of works open at the end of June was 424. Large reductions were made in all districts except in Saran, where works had to be opened for the relief of distress in or near the flooded tracts.

The numbers* (men, women and children taken together) on the relief works on the last day of the month are shown below in comparison with the corresponding numbers on the 26th June.

* Reproduced from column 10 of Famine Statement A.

Darbhanga	115,399	5·16	57,520	2·5
Total ...	219,861	2·9	125,568	1·6

The cause of the increase in Saran has already been stated. In Muzaffarpur the numbers had gone down, but they rose again in the last week of July. The increase was most marked in Hajipur and Sitamarhi, and is stated to have been due to the partial absence of rain during the last week of July, when the fall was 4·57 inches at Muzaffarpur, but only 1·55 at Hajipur and 1·60 at Sitamarhi. The result was that the weeding of the *bhadoi* being over and not enough rain having fallen for the transplanting of winter rice, many labourers came back to the works for employment.

The following table shows the results of task work as regards outturn, wages and cost in the second-half of July and in the corresponding period of June:—

* These are for the week ending 24th July. Figures for the last week of July have not been furnished.

No figures have been given for Shahabad in the table above, because in the latter half of July the relief works in this district were being wound up and were ultimately closed. The increase in the outturn of work was generally due to the rain having made the earth soft.

The instruction given in the foot-note to Form 7 at page 62 of the Bengal Famine Code for calculating the cost rate per 1,000 cubic feet is to multiply the total amount paid for the week as shown in column 19 of Famine Statement D (Form 5), and then divide the result by the total quantity of work done during the week as shown in column 18 of the same statement. With a view to checking the reported weekly figures, the Commissioner was asked to report whether the total earth excavated in all or any of the completed tanks or roads had been measured up and distributed over the total expenditure on such tanks or roads.

As regards Shahabad, Mr. Bourdillon reports in a separate letter as follows:—

Shahabad.—"The rate per 1,000 cubic feet in this district has been calculated on the wages of task workers only. The District Engineer of Shahabad reports that all the totals have not yet been checked, but the quantities have been frequently checked by him, the Subdivisional Officer and Charge Superintendents. The District Engineer has also instituted a further check by taking the chainage up to a certain date and checking it with the estimates which have been regularly prepared for each work as if it were an ordinary work of the District Board. In nearly every instance the amounts actually measured and paid for by the officers in charge are below the estimates by about the quantity which will be required for final dressing (the work is only rough dressed at present), and it therefore appears that the measurements have been honestly and carefully done. This, the Magistrate says, is borne out by the fact that the check measurements made by the different inspecting officers correspond with reasonable accuracy with measurements shown in the books except in one instance on the Jahanabad-Mullipur road, where the measurements were found to be faulty. It will be remembered that Mr. Toogood checked a number of measurements in the Bhabhua subdivision and found them remarkably correct."

In Saran the Code procedure as described above has been followed, and it is stated that the measurements of the work completed are now in progress. The same procedure has been followed in the remaining districts, with regard to which the Commissioner writes:—

Champaran.—"The tanks that were undertaken as relief works are only now being completed. Their deepening down to lowest water-level was postponed until the latter part of May and in June, before the rains began, and since the rains began the slopes have been undertaken. Consequently, the final measurements have not yet been taken. In one tank, however, which was deepened as far as it was possible to do so, final measurements have been made and reported to the Collector, and they amount to just 80 per cent. of the quantity shown in the returns. Mr. Macpherson argues that as fines are graduated according to deficiencies of 12½ per cent. in the task set, the work actually done as finally measured was 81 per cent. of what would earn the full wage, but the actual payments amounted to only 90 per cent. of the full wage: consequently the overpayment due to lax measurement was only 7·1 per cent. On the great bulk of the civil works no qualified sub-overseers were available, and the measurements have been made by an untrained staff. The above work, the Collector says, may be regarded as fairly representative of the average; at any rate, it need not be accepted as a specially favourable specimen of relief works."

Muzaffarpur.—"The measurements made by the sub-overseers have been subjected to constant check by superior officers, and in cases where it has been possible to make a reliable estimate of quantities, such as on the Baghmati canal, the Baya nala cutting, &c., these have been compared, chain by chain, with the standard measurement book in which is noted the estimated quantities. In existing road work where the section varies every few feet, the measurements have been checked as frequently as possible by each inspecting officer by blocks of pits. In Hajipur under civil agency the completed works were measured up, and in most cases found to agree very fairly with the amounts shown to have been done. In most instances there was a small deficiency in this and in the Sitamarhi subdivisions, but not more than was reasonable or than might have been expected under the circumstances."

Darbhanga.—"The reported cost rates have been arrived at from the weekly returns of the officers in charge as directed in the foot-note to Form 5, and these latter are supposed to duly test the measurements. This is a point to which the Charge Superintendents have always paid much attention, and the Collector believes that the measurements are now generally fairly accurate all over his district."

The results obtained on works under Public Works Department agency are described as follows:—

Superintendent, Famine Relief Works, 1st Circle.—"The rates are ascertained by taking the daily measurements as recorded by the overseer or sub-overseer and dividing them by the amounts paid as wages to relief workers.

"The measurements made by the overseer or sub-overseer are subject to constant check by superior officers. In the Darbhanga Division some of the works were personally measured by Lieutenant Ellis, R.E., and checked by the Executive Engineer. Mr. Long, Executive Engineer, Darbhanga, reports that after measuring pits taken at random on six works, he found that the actual quantities exceeded the recorded measurements by 15 per cent. in one place, were exactly the same in three, and were 98 per cent. and 85 per cent. of the truth in the remaining two. Very similar results are reported from other divisions. Mr. Banerjea reports that the ascertained average in his Division is 95 per cent."

Superintendent, Relief Works, 2nd Circle.—"The rates reported by this officer daily to Chief Engineer (extracted from the daily post-cards received) are based on the amount of work done by the 'task workers' only as directed by the foot-note to Form 5. No figures are given by Mr. Toogood for Champaran, but in Saran the check measurements made in ten completed works come to 91·97 per cent. of the recorded measurements, and thus work out very satisfactorily except in the case of the Sadowa channel, where they are 80 per cent. of the quantity shown in the returns."

The Lieutenant-Governor agrees with Mr. Bourdillon in thinking that these reports are eminently satisfactory as showing that the cost rate and average daily outturn reported from time to time approximate as closely to accuracy as it was possible to expect.

6. *Piece-work system.*—The same works as were mentioned in the report for June were open in July, but since the end of the month the work on the Baghmati Canal in Muzaffarpur has been closed, and it is reported that the earthwork on the Sakri-Jainagar Railway in Darbhanga has been practically completed, and will be closed in a few days.

7. *Private relief works.*—Most of the private relief works have been closed. In Saran the Hatwa Raj had nine works open, but the average daily number of male units employed on them in the last week of July was only 543 against 2,015, the corresponding figure for June. In Muzaffarpur the Darbhanga Raj works were closed in the week ending 24th July. In the district of Darbhanga the Raj works employed a total number of 2,780 persons on the 31st July against 6,695 on the 26th June.

26th June	5,568
3rd July	6,869
10th ,,	7,402
17th ,,	6,162
24th ,,	6,106
31st ,,	6,918

The numbers employed on the Moghalsarai-Gaya Railway in Shahabad were as noted on the margin.

8. *Poor-houses and kitchens.*—The number of Government poor-houses and kitchens open in July was as follows:—

District.	Poor-houses.		Kitchens.		Total average daily number relieved in poor-houses and kitchens.
	Number of poor-houses.	Average daily number of inmates.	Number of kitchens.	Average daily number fed.	
				5	
Shahabad	3		3	.....	809

Darbhanga	9	1,309	(Not stated)	8,585	9,894
Total	27	3,310	144	32,780	36,899

The number of poor-houses remained the same as in June, but there was a considerable increase in the number of kitchens in every district except Shahabad. In Saran the number at the end of June was only 2. The Collector reports that he was forced to increase the number of kitchens by the numbers of emaciated children he saw.

9. *Gratuitous relief.*—The following table shows the average daily numbers on gratuitous relief in the last week of July and the amounts of the average daily doles in comparison with the corresponding figures at the end of June:—

ending 31st July; while the number relieved by the Charitable Relief Committee during the same period was 468 against 960 in the week ending 26th June.

Lohardaga. Distress is reported to have broken out in the district of Lohardaga, and arrangements have been made to give employment on relief works and gratuitous relief in kitchens. The standing crops are reported to be in excellent condition, but prices had been rising continuously for some time. During the week ending 31st July rice was selling at 5 seers and under at 101 out of 188 hâts, the lowest rate at which it sold being between 7 and 8 seers the rupee, and this was obtainable at four markets only. The prices of other food-grains were proportionately high. In view of this rise in prices the Commissioner called a meeting of the principal grain-dealers and ascertained that the difficulty of importing food-grains lay in the great scarcity of transport from Purulia to Ranchi and the consequent high charge for cartage, which had risen from 9 annas to Re. 1-4 per maund. Mr. Forbes therefore recommended that Government should assist the traders by the grant of a bounty on importations similar to that already in force in the Palamau district, and the Lieutenant-Governor has sanctioned the grant of a subsidy of Re. 1 per maund of rice imported from Purulia to Ranchi up to a limit of Rs. 20,000 for one month only for the present. Twenty-one kitchens have been opened, at which 3,404 persons, of whom 2,082 were children, were being relieved at the end of the month, besides 299 who were in receipt of dry doles. Of these kitchens, 13 were supported from Government funds, and the remaining 8 by the local Charitable Committee. There were 15 relief works open with a daily average attendance of 814 persons; besides 1,293 individuals were daily employed on private works of improvement.

Singhbhum. In Singhbhum the price of rice rose in 10 out of 15 hâts to less than 8 seers per rupee; the condition of the crops caused no anxiety. One test work and one kitchen had been opened, but have now been closed.

13. *Presidency Division.*—Owing to the break in the rains during the period under report, the *aus* rice in the Presidency Division can no longer be expected to yield a full crop; but rain has since fallen, and prospects have improved. The *aus* crop is being harvested, and the condition of the people is said to be improving. The public health was good. The condition of the 24-Parganas gave no cause for anxiety.

Nadia. In Nadia, the area affected is now reported to be 1,070 square miles with a population of 562,101 souls. The increase is due not to any fresh area being added, but to corrections made in previous calculations. Outside this area, test works have been opened in thana Alamdanga; but it is hoped that they will be closed before long. Two test works had been opened in the Chuadanga subdivision, but have been closed as they were not attended by labourers. *Aus* rice is the most important crop in the district and is expected to yield a 10-anna outturn in the north; but for the intermediate period of drought a full crop might have been hoped for. There were 43 works open with 13,335 workers on the 31st July against 29 works and 23,335 workers on the 26th June. The number on the 14th instant was only 4,617. The lists of the recipients of gratuitous relief were and are being thoroughly scrutinized in accordance with the orders issued by the Lieutenant-Governor, and partly for this reason, and partly because of the reaping of the *aus* rice, the number fell from 81,225 on the 26th June to 50,362 on the 31st July 1897. They have further fallen to 35,653 on the 7th August, and 15,998 on the 14th idem, including 778 children fed in kitchens. The Collector has been instructed to open a poor-house at the head-quarters of each charge and a kitchen at each relief centre.

Khulna. In Khulna the prospects of crops were good, though the break in the rains caused some apprehension in the early part of the month. Prices remained stationary, and Burma rice was being imported as before, local stocks having been exhausted. There were 4 relief works open at the close of the month against 36 at the end of June, all conducted on the piece-work system, at a rate of Re. 1-14 per 1,000 cubic feet for soft soil. The average daily earning of each male unit was 2 annas 2·5 pies during the week ending 31st July. The number of relief

workers decreased. There were 167 workers only on the 31st ultimo against 772 at the end of June last; but the number of recipients of gratuitous relief increased slightly from 7,517 on the 26th June to 7,776 on the 31st July, partly because some people who were being relieved from the Charitable Relief Fund have been transferred to the Government list, and partly because some who had hitherto been supporting themselves could do so no longer. There were four poor-houses open with 68 men, 240 women and 453 children on the last day of the month.

Murshidabad.

The area and population affected in Murshidabad have slightly increased from 167 square miles and 95,000 to 205 square miles and 120,000 owing to the addition of the Jalangi Circle. The prospects of crops were not as good as might be expected. Between the 28th June and 6th July, and again between the 18th and 30th July, there was no rain, and this caused some apprehension: but the light showers that have fallen since the latter date in most parts of the district have materially improved the prospects of the crops, but no more than a 12-anna *aus* crop can now be expected.

The number of workers on the 31st July was 5,496 against 1,923 on the 26th June, and it is stated by the Collector that the increase commenced when the break in the rains caused apprehension respecting the crops; but it is not unlikely that the increase was due to the high rates allowed, which the Lieutenant-Governor has directed the Commissioner to reduce. Gratuitous relief was granted entirely from the Indian Famine Charitable Relief Fund.

Jessore.

In the last report it was stated that the heavy rain during the latter half of June had submerged the low-land rice everywhere in Jessore, particularly in the Narail subdivision. Since then a long interval of fine weather has enabled the crops swamped by the heavy downpour to recover and afforded further opportunities of sowing. The general condition of the affected area is said to have improved with a promise of a good *bhadoi* crop. Three test works were opened during the period under report: one has been closed since and another has been converted into a relief work; the number employed on the 31st was insignificant, being 226.

Gratuitous relief was given entirely from the Indian Famine Charitable Relief Fund.

14. *Bhagalpur Division.*—Reporting on the 4th August 1897, the Commissioner of the Bhagalpur Division wrote that throughout the Division prospects were as good as possible, and that the early *bhadoi* harvest, which had been sown to an unusually large extent this year, was secure.

Bhagalpur.

In the report for June it was stated that the Collector of Bhagalpur intended to keep three relief works open, but it was soon found that people would not work on them at the Code rates. They were therefore closed as relief works in the first week of July. In North Bhagalpur, which was the worst part of the district, a bumper *marua* crop is expected. The relief given was confined to gratuitous relief, and, as stated in the weekly telegraphic report, the total number in receipt of this form of relief in North Bhagalpur on the 31st July was 6,216. Government relief operations were entirely closed on that date, and this district will no longer be shown as distressed, although relief from the charitable relief funds will have to be continued for some time.

Sonthal Parganas.

Of the five relief works that were open in June in the Jamtara subdivision, three were closed, and on the remaining two there were only 24 labourers employed on the 24th July. In Deoghur there were 19 relief works which employed 701 workers on that date. The total number in receipt of gratuitous relief in the two subdivisions was 4,553 against 4,733 at the end of June. Mr. Carstairs writes that it will be necessary to continue relief operations until the Indian-corn is ripe here and there possibly by works, and more extensively by gratuitous relief to those unable to work. He hopes to be able to close all operations by the end of August.

15. *Rajshahi Division.*—As is shown in the rainfall statement appended to this letter, the rain held off or fell only in slight showers during the greater

part of July, and this fact caused much anxiety not only in Rajshahi and Pabna, the two districts of this Division in which test works and charitable relief were in progress, but also in Dinajpur and Bogra. In the south of Dinajpur the situation became so serious as to necessitate the opening of test works, on which 117 persons were employed on the 31st July. But in the last week of the month under report and in the first week of August there was good rain* in all the four districts mentioned, and prospects improved. Both in Rajshahi and Pabna prices continued high. In the former district the price of rice varied from 6 seers to 7 seers 12 chitaks during the second-half of July, and in Pabna from 6 seers to 8¼ seers. In Rajshahi there was only one test work which employed 571 labourers on the 31st July, against 341 at the end of June. This work commands a congested tract near the Ganges, mainly inhabited by persons who have settled there in order to maintain themselves by the silk industry, and this industry is now in a declining state. The Commissioner writes that even in ordinary years there is a want of employment in this tract. Some gratuitous relief was given through the police, the average daily number relieved during the last week of July being 21. In Pabna the millet which has been reaped is reported to be a bumper crop. The *aus* or autumn paddy is said to have been injured by the break in the rains. There were five test works open against four at the end of June. The number of test workers on the 30th June was 1,397. It rose to 2,316 on the 7th July, and then fell gradually to 1,620 on the 15th. The total number of workers on the 31st July was 437, while the number on Government gratuitous relief on the same date was 52.

16. *Burdwan Division.*—Bankura is the only affected district in the Burdwan Division. From about the 26th of June there was a break in the rains, which rendered prospects in that district extremely gloomy. Copious rain again commenced to fall about the 7th July, just in time to save the crops in the ground, which in the north of the district had begun to wither. This was succeeded on the 16th July by another prolonged break which lasted till the end of the month. Since then copious rain has again fallen, and the transplantation of the winter rice is in progress. During the latter half of July thana Raipur and independent outpost Simlapal were added to the affected tracts, and the total distressed area is now 1,053 square miles with a population of 412,842. The added tracts, like the greater part of the affected area in this district, consist to a great extent of jungle and low hills, and are extremely backward in communications, education and in other respects. Last year's winter rice crop was estimated at only 4 annas, and there is practically no importation. Many Sonthal and other labourers have migrated from this to other districts in search of work. In many villages *bhadoi* food-crops other than rice are grown to some extent by Sonthals, and the Collector reports that the ripening of these should begin to relieve the present distress. There were 28 relief works open in or near the affected tracts with 1,420 relief workers on the 31st July, against 17 works with 1,872 workers at the end of June. The average daily number on gratuitous relief in the last week of July was 8,389, or 2·03 per cent. of the total population of the affected tracts. The corresponding number at the end of June was 6,507, which was 2·6 per cent. of the population, 258,000, of the area then affected.

On the night of the 14th July, the highest flood on record took place in the Damodar river, and about 50 villages in thana Sonamukhi were inundated. About 1,400 houses are reported to have been damaged and 1,100 families rendered homeless. Much damage has been done to rich arable lands, which have been covered with a thick deposit of sand. The local officers report that between 4,000 and 5,000 bighas of *aus* (autumn rice) and about 300 bighas of sugarcane have been totally destroyed, and that a large quantity of *aman* (winter rice)

seedlings has been buried under the sand. Fortunately no lives were lost. Advances under the Agriculturists' Loans Act are being given to those who are in need of them.

17. *Orissa Division.*—On the 7th August 1897, the Commissioner of the Orissa Division wrote that the prospects of the crops in Cuttack, Puri and Balasore were exceptionally good. In Cuttack, some gratuitous relief from Charitable Funds continued to be given during the period under report.

Puri.

The area and population affected in the district of Puri remained unchanged. Public health was generally good, and cholera and small-pox which were reported to have been prevailing in the month of June have abated. There were 12 relief works open against 19 in June, and the last work in Khurda was closed on the 29th July. On the 31st July there were 2,974 workers and 1,374 recipients of gratuitous relief, against 4,015 workers and 1,078 recipients of gratuitous relief at the end of June.

FAMINE RELIEF IN THE PATNA DIVISION.

No. 1731Fam.—The 31st August 1897.—The following paper is published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

No. 1791F.G., dated Bankipore, the 24th August 1897.

From—J. A. BOURDILLON, Esq., Offg. Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Revenue Department.

I HAVE the honour to forward, herewith, under Sections 13 and 24 of the Famine Code, my Report on famine relief operations in the Patna Division during the first-half of August 1897. The weeks comprised in the period under report are those ending on Saturday the 7th and 14th August.

PART I.—INTRODUCTORY.

2. On the 7th August, a Conference was held at Bankipore under my presidency, at which were present the Collectors of Shahabad (Mr. Windsor), Champaran (Mr. Macpherson), Muzaffarpur (Mr. Maude), and Darbhanga (Mr. Carlyle). Mr. Chapman, Collector of Saran, was unavoidably absent, and Mr. C. A. Mills, Inspector of Famine Relief Works, Bihar, was unable to attend the Conference, but arrived shortly afterwards. The object of the meeting was to discuss the prospects of the crops, the condition of the people and the movement of prices; also to settle the details of the steps to be taken to bring relief to an end. The conclusions arrived at were embodied in my Circular No. 30 of the 12th instant; briefly, it was arranged that, in tracts where there is good *bhadoi*, relief works should all be closed by the 1st September, but that in tracts where there is no *bhadoi*, they might, if need be, be kept open till the middle of that month. Gratuitous relief is to be cut down first in tracts where the *bhadoi* is good, and, as soon as prices ease a little, kitchens are to be opened for all children who choose to attend, and for all persons on our gratuitous lists, except those who are physically incapable of attending them: all other persons are to be told that, unless they accept cooked food, they will receive no relief. On the 1st October, all gratuitous relief of all kinds will cease. It will be arranged that the sick in the poor-houses will be transferred to the local hospitals.

PART II.—DISTRICT REPORTS.

3. *Patna.*—This district has had almost too much rain, and sunshine is wanted. The rainfall all over the district averaged an inch and three quarters during each of the weeks under report, but the fall in different places was much higher, reaching 3·28 inches at Hilsa in the first, and 2·91 inches at Barh in the second week. Heavy rain has fallen also since the fortnight closed. The result is, that what with floods and the absence of sunshine, the *bhadoi* is disappointing, and the Collector now estimates it at 10 annas, which, I think, is rather too low.

4. However, there is no distress of any importance, and prices are beginning to fall in Patna. Maize and *marwa* are in the market, and the prospects of rice are excellent. A statement showing general price of all grains is given in the margin.

5. Imports continue heavy, and exports have fallen off. The latter were 86,256 maunds against 1,36,295 maunds in the preceding three weeks, while imports fell in the same time from 55,124 maunds to 15,081 maunds. The result is a net import at the end of a fortnight of 71,175 maunds, against one of 81,171 maunds at the end of three weeks. As usual, most of the imports were rice, the total being 61,116 maunds, or nearly three-fourths of the whole.

6. The numbers in poor-houses have increased, being, as follows, on the last day of the fortnight:—Bankipore 251, Barh (including a kitchen) 185, and Bihar 35. Most of those at Bankipore were foreigners, and many now seek these institutions as much for shelter as for food.

7. Relief from the Charitable Fund has been given to 982 persons during the fortnight, most of them being respectable persons in Patna City, who are undoubtedly hard pressed by the continued high prices.

8. *Gaya.*—The prospects of this district continue excellent. Heavy rain fell throughout the fortnight, the average all over the district being returned by the Collector as 4·29 inches, and there has been a good deal more since, so that all the reservoirs must be full. The *bhadoi* promises well, and the transplanting of rice is nearly over. I visited Gaya on the 20th instant, and the state of the paddy, as seen from the Railway line, left nothing to be desired.

9. Prices are fairly stationary. A statement showing the general average price of all grain is given in the margin.

10. Imports continue steady: during the fortnight they aggregated 37,982 maunds, against 57,069 maunds in the previous three weeks, while the exports fell from 760 maunds to 664. The re-exportation of rice to Palamau appears to have ceased completely.

11. Four kitchens were open during the fortnight, and at the three, from which complete Returns are available, the daily average number fed was 306, against 272 in the previous period. The kitchens at Gaya and Madanpur, on the Grand Trunk Road, which were closed, have been opened again, as it has been found that relief is still wanted.

12. *Shahabad.*—In this district a great improvement is visible. The weather has been perfect for both *bhadoi* and rice crops. Relief works have been entirely closed, and gratuitous relief is being contracted.

13. Prices are stationary, with a tendency to fall in Bhabua. A statement showing the general average price of all grains is given in the margin.

14. During the fortnight under review, imports have increased and exports have fallen. The figures are, as follows, for road, river and rail:—Imports 49,478 maunds, exports 45,414 maunds, leaving a balance in favour of the district of 4,064 maunds, whereas in the preceding three weeks, the figures were imports 59,503 maunds and exports 68,846 maunds, leaving a balance against the district of 9,343. It appears that the export of *rabi* grain is ceasing for the present, either because stocks are running short, or, more probably, because, in Balia and other districts across the Ganges, the *bhadoi* crop is now coming in.

15. Relief works have altogether ceased in this district, and the numbers on the Moghulsarai-Gaya Railway embankment are slowly falling also. The numbers were, as follows, on the last four Saturdays previous to the Collector's report:—24th July, 6,106; 31st July, 6,918; 7th August, 5,183; and 14th August, 5,461.

16. Gratuitous relief is beginning to decrease, and more would have been done in this direction, but for the illness of one of the Charge Superintendents, Mr. D. P. Smith. The figures in the margin show the average daily numbers of adult units receiving Government relief of all kinds during the period named. Relief in two Circles, Hata and Chenari, will be closed at once, and, in the Ramghar Charge, as soon as possible. The transfer of *purda-nashin* ladies from the Government lists to those of the Charitable Fund has been concluded, and it is expected that the figures of the 14th August will be greatly diminished during the current fortnight.

17. As part of the above relief, the daily number of persons fed on the average at kitchens and poor-houses was 750 in the first and 675 in the second fortnight, as against 828 and 809 in the two previous weeks. Many children, dependants of workers on the Moghulsarai-Gaya Railway [illegible] fed at the

18. As noted above, a good deal has been done to distribute the grant from the Charitable Fund, but it has not all been accounted for. A statement shows that, up to the end of July, Rs. 8,142 had been accounted for, but at least an equal sum has been expended in addition.

19. *Saran.*—Matters in this district are more prosperous than they were when last I wrote, and a beginning has been made in the contraction of relief. In the worst tract, especially in Sewan, there is little alleviation, but over the greater part of the district, there has been a manifest improvement.

20. As in Shahabad, the rainfall has been most propitious, sunshine being alternated with heavy showers at Chapra; the fall during the first week was 1·11 inches and during the second week, 1·10 inches. In these circumstances, the Collector reports that the prospects of all the crops are excellent. Maize and the smaller millets, *sanwan*, *tanguni* and *marwa*, are already in the market. Swamps usually left untilled have this year been filled with transplanted rice, and much indigo land, in which the indigo has failed, has been let out for rice or *bhadoi*.

21. Prices show a tendency to fall at last, except in Sewan. The statement in the margin shows the average price of all kinds of grain lumped together for the last day of July and the 14th August. *Marwa* is selling at from 10 to 12 seers, and the coarser millets are as cheap as 16 seers at Gopalganj.

22. Imports continue high, in spite of the good promise of the crops. In the fortnight under review, the total imports by rail and river amounted to 1,29,927 maunds, against 1,60,705 maunds in the previous three weeks. The exports were, respectively, 8,521 maunds and 20,894 maunds, so that the balance in favour of the district was 1,21,406 maunds or 60,703 a week, against 1,39,811 maunds, or an average of 46,603 maunds a week in the previous period. The increase is chiefly in rice.

23. The following statement compares, as usual, the numbers on relief works and in receipt of gratuitous relief in each of the past five weeks—

24. To my disappointment, there has been no reduction in the number of relief works, and the numbers on relief works have actually risen during the last week of the period under review. Almost all the works are now in two groups, one in the south-east corner of the Gopalganj Subdivision under Mr. Lang, and the other, on the borders of the Sadar and Sewan Subdivisions near Baniapore Police station. On a large number of them, dressing and

finishing is going on, with weakly gangs and many women and children. In the east Gopalganj tract, Mr. Lang has been ill throughout the fortnight, and some laxity has occurred in allowing too many comers and labourers irrespective of task. The wage is now based on grain at 13 seers for the rupee, and is therefore less than the truth. The Collector has ordered almost all these works to be closed at once, and he is arranging that, unless unforeseen misfortunes occur, all relief works works shall cease from the 4th September. In spite of the flaws noticed above, the outturn and cost rate are good, due, no doubt, to the greater ease with which the softened earth can be dug and carried.

25. The Hatwa works employed a few labourers in finishing and dressing. The Collector has now ordered them to be closed.

26. The numbers in receipt of gratuitous relief still remain high, though they are lower than they were on the last day of July. It is obvious that these will decline more slowly than the numbers on relief works, but I hope that the substitution of kitchen relief for relief in villages, mentioned in paragraph 2 above, will cause a rapid reduction. A glance at Form 6 will show that the numbers are large only in the West Chapra, Sewan and East Gopalganj Charges, *i.e.*, the bad tracts of the district as above stated. The Collector has already closed gratuitous relief in certain parts of his district, and has given orders for the gradual withdrawal of it from other areas, in conformity with the general instructions he has received.

27. Part of the scheme for closure consists in the opening of more kitchens, and there are now 40 of these in the district, as against 28 when Mr. Chapman last reported. The average number relieved daily during the last week was 7,672 persons against 4,283 in the last week of July. Of this number, 6,877, or 89 6 per cent. were children.

28. The Government poor-houses housed a daily average of 245 persons, against an average of 203, and the Hatwa poor houses contained a daily average of 428 persons, against 483.

29. The total number of persons relieved from the Charitable Fund during the period under report is returned at 7,108. As no one of these is shown twice over, this sum may be taken as the daily average.

30. *Champaran.*—But for the somewhat critical condition of West Bettiah, the accounts from this district would be very satisfactory. The crops are good and numbers both on works and in receipt of gratuitous relief are falling.

31. During the first few days of the fortnight, good rain fell, but from about the 3rd August till the 14th, there has been an almost unbroken stretch of fine weather. The defect at the end of the fortnight was 12·66 inches at Motihari, and was actually greater than at the corresponding date in 1896. Since the fortnight closed, Motihari has had frequent showers about a quarter of an inch falling every day, and if this has been general, it has been just what was wanted for the *bhadoi*. But for the rice in the West Bettiah tract, much heavier rain is wanted, as transplanting is very backward, and unless it falls soon, the rice crop will be seriously affected; as it is, Mr. Still fears that, in any case, it must be a poor crop. Elsewhere there is little to complain of.

32. Prices have not yet begun to fall as they usually do, but have advanced slightly, about 2·3 per cent. on the average of all grains. The details are given in Mr. Macpherson's 9th paragraph. There seems, however, to be no lack of grain, and indeed some of hoarded *rabi* is being offered for sale. The marginal statement gives the general average price in the last two weeks.

33. Imports are falling off, showing clearly that the dealers expect a heavy *bhadoi* crop. During the fortnight, the imports, both by rail and across the frontier, amounted to 27,139 maunds, and the exports were 4,904 maunds. In the previous three weeks, the total was 46,739 maunds imports and 10,168 maunds exports: the net result is a weekly average of imports of 11,117 maunds for the last

and 12,190 maunds for the preceding fortnight. Of the imports, more than half, or 16,593 maunds, came in from Nipal, the Railway bringing in only 10,636 maunds. A good deal of grain is also coming into Bettiah from Nipal by a route where there is no registering station. I have now no fears whatever for the stocks in this district.

34. The public health continues remarkably good, and the great immunity from cholera, which the district has enjoyed so far, have rendered the general mortality unusually small.

35. The following statement compares, as usual, the figures for relief workers, and for those in receipt of gratuitous relief in each of the last five weeks:—

The number of works has fallen to 29, of which 10 are under the Collector and 19 under the Public Works Department. These are all large works, viz., the Tribeni and Dhaka Canals, and the Bettiah-Champatia Railway.

36. The total number (male units) on relief fell during the first week and then remained stationary, the reason being that the drought in West Bettiah sent back considerable numbers to the Tribeni Canal. It will be noted that the numbers on piece-work rose from 2,444 male units in the first, to 4,299 male units in the second-week. As soon as good rain falls, their number will diminish again. The outturn is good and the cost-rate low. Mr. Macpherson's remarks (paragraph 20 of his Report) on the outturn deserve perusal.

37. The total number of persons in each Subdivision, employed on relief works in each of the last three weeks, is set out in the marginal statement. The rise on the Tribeni Canal, mentioned above, is very conspicuous. The large drop in the Sadar Subdivision on Civil Work is due to works being closed.

38. The numbers in receipt of gratuitous relief are falling steadily also. The distribution by Subdivisions is shown in the margin as in last report. Clearly the numbers in Bettiah have been cut down as low as they will go. It remains to be seen whether they will fall any lower when the kitchen system is developed.

39. As regards these institutions, the number has been doubled, having gone from 41 to 83, and the daily average fed at them, was

5,743 during the fortnight, as against a previous average of 2,831. The children numbered 3,208, or 55·85.

40. Poor-houses during the fortnight had an average of 1,179 inmates per diem, instead of 1,325, as in the previous fortnight. The advent of the *bhadoi* crop has doubtless enabled Relief Officers to send some of their better cases back to the villages.

41. *Muzaffarpur.*—In this district, prospects are generally good, but rain is wanted in Sitamarhi. The numbers on relief works are not falling much, and those on gratuitous relief, contract slowly. Rain has since fa in Sitamarhi.

42. Rainfall during the fortnight under review has been capricious and unevenly distributed. At the end of July, the Sadar station was short by 1·77 inches, Hajipur by 1·11 and Sitamarhi by 5·05. During the period under report, Muzaffarpur received 3·94 inches, Hajipur 2·59 and Sitamarhi only 2·65, so that the latter place is still in considerable defect, but during the fortnight, the worst portion of Sitamarhi, viz. Pupri, received a fall of 8·49 inches which brought it up into line, and since the fortnight closed, sufficient rain has fallen all over the district, Muzaffarpur itself receiving nearly 2½ inches in the week ending the 31st.

The broad result is that, except in parts of Sitamarhi, the prospects of the crops are excellent. Here, as in Saran, the Collector reports that an unusually large area has been sown with *makai*, *marwa*, and other millets, and he anticipates a full crop all over the district. The condition of the rice crop is excellent, except in parts of Sitamarhi, where more rain is wanted.

43. Prices, however, are not falling so rapidly as was hoped, or as they generally do. The Collector examines the question at length in his 6th paragraph, but the general result is given in the margin, which shows the average number of seers to be had for a rupee of all the grains in the market taken together. *Marua* at 12 seers is the cheapest grain at Muzaffarpur, while barley and *rahar* are at 16 seers 6 chittaks at Hajipur, and 10 seers at Sitamarhi, where *marwa* is the same price.

44. The Railway statistics are again incomplete, and I have once more written to the Traffic Manager on the subject. As the Returns from Bhagwanpur, one of the most important stations in the district, are missing for the week ending the 7th instant, the figures are very defective. However, it appears, so far as they go, that the imports during the fortnight were 71,175 maunds and the exports 2,051, the figures for the previous three weeks having been 1,17,032 maunds, and 7,971 maunds respectively. The balance in favour of the district was, therefore, 69,124 maunds or an average of 34,562 maunds a week, against a balance of 1,09,061 maunds or 36,353 maunds a week in the previous period. If the Bhagwanpur figures were available, it is certain that the difference would be more than made up. As usual, most of the receipts are rice. The public health continues good, except for sporadic cholera in a few villages. There has been no epidemic.

45. The following comparative table is given as usual:—

Muzaffarpur.

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.

The number of works has been reduced by 18, of which 10 were under the Civil Agency and 8 under the Public Works Department. That Department has now only five works open, as against 54 under the Collector.

46. It will be seen that, on task-work, the numbers keep up, which is due chiefly to a large rise in the Hajipur Subdivision, occasioned by too light a task on one work and perhaps on others, owing to the extremely easy conditions of the work: this has been corrected. The piece-workers have fallen off greatly, as the Bagmati Canal has been closed, and only the Bayanulla and one other work are kept open for piece-works: these will shortly be closed. The numbers on daily wage, without task, are well kept down, and the outturn and cost-rate, better than ever.

47. The table in Mr. Maude's 9th paragraph shows the figures for each Charge in the two weeks for persons, not male units. It shows, on the whole, a decrease, which would have been universal, but for the great rise of 103 per cent. in the Lalganj Charge, which has been referred to above.

48. There were no private relief works during the fornight, as the Darbhanga Raj have closed theirs at Parihar.

49. The average daily numbers of adult units on gratuitous relief have fallen during the fortnight by 4·23 per cent. A table in Mr. Maude's 33rd paragraph shows that, as regards village relief under Chapter V of the Code, there has been a general, though slight, falling off in all Subdivisions, but there has been a rise in the number of those relieved at kitchens, which is all part of the policy decided upon for the Division. Though is not so stated, I believe that this reduction is partly due to orphans and respectable women being transferred to the lists of the Charitable Fund Committee.

50. Kitchens have increased in numbers by two, being 74 against 72. The numbers have fallen from a daily average of 17,074 persons to one of 16,697. The ratio of children at these kitchens was 89·15 per cent. The new orders about developing kitchens have not yet had time to operate, but as soon as they have, it is expected that the numbers relieved at kitchens will increase, and those gratuitously relieved at their villages, will decline still more rapidly.

51. Poor-houses play but a small *rôle* in this district, and the daily average number of inmates was only 433 against 447. In the Darbhanga Raj poor-house at Parihar, a daily average, of 411 persons was fed and housed during the fortnight. The Darbhanga Raj relieved gratuitously an average of 1,422 persons per diem in the period under report, as against 1,048 in the previous period.

52. The figures given for expenditure from the Charitable Fund for July, show that Rs. 40,795 have actually been expended to the end of the month, that Rs. 94,807 are with the District Committee, and Rs. 63,742 with Local Committees.

53. *Darbhanga.*—All goes well in this district now, though, during the fortnight under review, the Collector was anxious about rain for the Madhubani Subdivision. The numbers on relief works have fallen, but those on gratuitous relief are about the same.

54. During the first week of August, good rain fell all over the district, the mean of 20 registering stations being 3·34 inches; but in the second week, the fall was much lighter, averaging only 0·71 of an inch: this was well enough for the southern half of the district where the *bhadoi* was coming on and transplanting was practically over, but not enough for the tract north of Darbhanga, where transplanting was seriously retarded up till the date of the Collector's report, viz. the 20th instant. Since that, however, I learn by telegram, on the 23rd idem, that good rain has fallen all over Madhubani, probably sufficient for transplantation.

55. In these circumstances, the outlook is exceptionally good: the *bhadoi* over a great part of the district is reported to be a bumper crop, so that even taking into consideration the places where it is bad, the district, as a whole, will have more than an average crop. The rice will all be transplanted in Madhubani by the end of the present week, and the prospects of the crops are everywhere very good.

56. Prices are beginning to fall even in Madhubani, as the figures in the margin will show. This result is produced by the advent of *marwa* and *maizé* into the market, the latter selling as cheap as 13 seers at Madhubani, while *marwa* is at 13½ seers at Samastipur. The price of rice has risen slightly at Darbhanga and fallen slightly at Madhubani.

57. Imports are gradually decreasing, no doubt in view of the good *bhadoi* crop and the excellent promise of the rice. The imports during the fortnight under review were 67,766 maunds, and the exports 3,339, giving a net importation of 64,427 maunds. In the previous three weeks the imports were 1,29,677 maunds and the exports 7,628, leaving a balance of 1,22,049 maunds; the average weekly net importation was, therefore, 32,213 maunds for the past fortnight and 40,683 maunds for the preceding period. Just half of the imports were rice (33,090 maunds), almost all of which came from Howrah and Kidderpore.

58. The health of the district continues excellent. The death-rate for July was only 2·02 per *mille*, against an average of 2·5.

59. The following table gives the usual comparison for relief works and gratuitous relief:—

Week ending—	Number of works open.	Average daily number of male units on—						Task-work.

It will be seen that there is a reduction of 26 in the number of works. All those under the Public Works Department have been closed or taken over except 6.

60. Speaking generally, there was a general fall during the fortnight under all heads of the above table, and the statement in the margin will show the progress made in each Subdivision. It will be seen that there is a rapid fall in each Subdivision, except Madhubani, where in the last week there was a large increase in the numbers on Civil Agency works owing to the drought and the absence of employment in transplanting. The great fall on Public Works Department work in the Sadar Subdivision is due to the closure or transfer of most of them.

61. The Collector explains that a large number of those shown as on daily wage without task, are really on piece-work exacted in superficial feet.

There has been a fall in the number of men on the works, which is explained by the fact that they find it more easy to get employment in the fields than the women and children. Transplanting, as is well known, is very hard work. All works have now been closed in Samastipur and Warisnagar Charges. On Darbhanga Raj relief works, the average daily number of persons was 1,008 in the first and 1,220 in the second week of the fortnight.

62. The numbers on gratuitous relief have remained pretty steady for the last three weeks, at about 85,000 adult units. There will be no great reduction till prices fall, or the new orders about kitchens begin to take effect.

63. As regards kitchens, of which there are now 37 in the district, the daily number of persons relieved in the first week, was 10,253, and in the second week, 10,781. Of this latter number, 9,996, or 92·7 per cent. were children. The daily average in the last week of July was 8,585. More kitchens will soon be opened.

64. The poor-houses are nine in number, and contained altogether a daily average of 1,299 persons in the first, and 1,078 in the second week, and the daily average last reported was 1,309.

65. The Darbhanga Raj relieved gratuitously a daily average of 14,483, and 12,401 persons in the two weeks under review.

Part III.—Conclusion.

66. The fortnight under review has been a time of general prosperity. The first week was marked by heavy rain in many places, followed by a week or ten days of comparatively fine weather, such as was required for the *bhadoi* crops.

67. Consequently, the prospects of the season, except in a few places, are excellent. The *bhadoi*, taking it all round, will be more than an average crop, though the Collector of Patna is despondent about the crop in his district. Along the north of the Division, also, some of it has withered for want of rain. As regards rice, the outlook is most promising everywhere except in West Bettiah and part of Sitamarhi, but my advices from these places are not very late. In the former tract, heavy rain is required at an early date to preserve the crop from severe failure, and it is feared that, in any case, it will give but a poor outturn.

It has been since reported that on the night of the 23rd August there was a fall of an inch of rain in Sitamarhi; while in Bettiah subdivision there were 3½ inches at Bagaha and 2½ inches at Ramnagar. A further fall of about 1 inch at Sitamarhi has recently been reported.
M. F.—31-8-97.

68. Prices show little tendency to fall, but the movement is just beginning in several places: it must be accelerated by the advent of the *bhadoi* crop, which is already in the market in most places. The condition of the stocks no longer causes anxiety anywhere.

79. The traffic in food-grains is shown as usual, at one glance, in the following table:—

70. Every district has now an excess of imports, as Shahabad has ceased exporting her hoarded *rabi*, and is herself an importer. The figures in columns 2, 4 and 6 of the above statement are, it is to be remembered, for three weeks, but even making from them a deduction of one-third, it appears that, except in Patna, Shahabad and Saran, there has been a falling off in the net balance

at credit of the district. This result is, of course, due to the excellent promise, and partial in-coming of the *bhadoi* crop, and the shrinkage will probably continue till trade runs again in its usual channels.

71. The imports from Howrah, &c., during the past fortnight, are set forth in the marginal statement. They show no reduction, but, on the contrary, an increase, allowance being made for the extra week in the previous Return. It will be noticed that Gaya is again an importer, and that while the Patna figures have grown largely, the imports into Champaran and Darbhanga have greatly shrunk.

72. The following statement, giving fortnightly mean figures, is given as usual:—

73. The figures below represent the total number of persons receiving relief of all kinds on the last day of the fortnight, together with the percentage they bear to the population of the affected area on this and previous occasions. The figures have been taken from the *Calcutta Gazette*, but the Champaran figures have been subsequently corrected by the Collector:—

There is a satisfactory fall of 1 per cent. on the whole, which is shared in by all districts. Champaran, owing to the rapidity with which works have been closed in that district, and also to the liberal distribution of advances under the Agriculturists' Loans Act and donations from the Charitable Fund, has now in proportion fewer of its inhabitants in receipt of relief than any other district.

77. During the remainder of the time during which famine relief operations continue, it is expected that the distribution of cooked food at kitchens will play a leading part. I give, therefore, below a statement showing how matters stand at present, in order that figures may be easily available for comparison as time passes. If my expectations are realised, the numbers fed at kitchens will increase considerably, while those receiving gratuitous relief in grain and money, will fall off greatly, till both are finally extinguished.

Statement showing the relief given in kitchens in the week ending 14th August 1897.

78. Appendix A as usual gives the expenditure to date as gathered from the financial statements. I have frequently explained that it is incomplete. As it stands, however, it shows that the total expenditure to date has been Rs. 62,66,332, of which 39 lakhs have been spent on relief works and 22 lakhs on gratuitous relief. The expenditure of the past fortnight has been Rs. 3,36,462 only.

PATNA COMMR.'S OFFICE;
BANKIPORE,
The 24th August 1897.

J. A. BOURDILLON,
Commissioner.

WORKING OF THE BENGAL JUTE WAREHOUSE AND FIRE BRIGADE ACT IN THE COSSIPUR-CHITPUR AND MANIKTOLA MUNICIPALITIES.

No. 4519M.—The 30th August 1897.—The following report is published for general information in accordance with the provisions of section 41 of the Licensed Warehouse and Fire Brigade Act of 1893.

C. E. A. W. OLDHAM,
Offg. Secretary to the Government of Bengal.

No. 152M., dated Calcutta, the 31st July 1897.

From—E. V. WESTMACOTT, Esq., Commissioner of the Presidency Division,
To—The Secy. to the Govt. of Bengal, Municipal Dept.

I HAVE the honour to submit herewith copies of reports on the working of the Jute Warehouse and Fire Brigade Act of 1893, for the year ending 31st March 1897, in the Cossipur-Chitpur and Maniktola Municipalities received from the Chairman of those municipalities.

No. 583, dated Talla, the 17th July 1897.

From—BABU KRIPANATH DATT, Chairman, Cossipur-Chitpur Municipality,
To—The Magistrate of the 24-Parganas.

I HAVE the honour to submit the following report under section 41 of Act I (B.C.) of 1893, of the jute warehouses, &c., in the Cossipur-Chitpore Municipality, for the year ending 31st March 1897, for submission to the Local Government.

2. On account of the accumulation of a large sum of money after payment of the liabilities of this municipality under the Act, the Commissioners at a meeting, held on the 10th September 1896, reduced the license fee of jute warehouses, &c., from 10 to 5 per cent. on assessed value of the premises with effect from 1st April 1896, subject to a maximum of Rs. 750 payable by the owner or occupier of any warehouse, as provided by section 10 of Act I of 1893.

3. During the year under review, licenses were granted to 94 jute-presses and warehouses, including roperies, firewood and straw depôts, as detailed below, and the amount of license fees realised was Rs. 12,226-8-9, namely—

No.	Particulars.	Amount. Rs.	A.	P.

COSSIPUR-CHITPORE MUNICIPAL OFFICE.

RAMDASS ROY CHOWDHURY.

No. 123, dated the 25th May 1897.

From—Babu Shamadhaba Roy, Chairman, Maniktolla Municipality,
To—The Magistrate of the 24-Parganas.

With reference to your letter No. 310M., dated the 8th May 1897, I have the honour to submit the following report on the working of warehouses and the maintenance of Metropolitan fire brigade for the year 1896-97 in accordance with the provisions of section 41 of Act I of 1893 as amended by Act I of 1894.

1. The Fire Brigade Budget for the year under review, prepared by the Commissioner of Police under section 26 of the Act, was laid before the Commissioners at their meeting held on the 17th April 1896, and they resolved to contribute Rs. 629, being the proportionate share towards the maintenance of the Fire Brigade Fund, and the amount was paid in two instalments.

2. During the year under review, eight licenses were issued to owners of jute warehouses and 72 to owners of other warehouses dealing in firewood, hay, durma mats, golepatta, and straw, against 7 and 63 of the preceding year. The total license fees realised from both class of warehouses amounted to Rs. 1,256, against Rs. 1,170-3-9 of the past year. The Commissioners levy license fees at 6 per cent. per annum on the annual value of holdings as assessed for payment of municipal taxes on jute warehouses and at 10 per cent. on other warehouses. A deduction of 10 per cent. was allowed on the outlay incurred in respect of the appliances for extinguishing fire in the Soora Jute Mill Company, Limited.

3. Under the Government Notification No. 2853M., dated the 14th August 1893, published in the *Calcutta Gazette* of the 16th idem, most of the traders licensable under section 261 of the Municipal Act for dealing with inflammable articles have come under the operation of the Fire Brigade Act, consequently the number of warehouse licenses are increasing year after year.

4. As all the owners of warehouses paid their license fees in time, no prosecution was made during the year, but there were six prosecutions during the preceding year.

The jute godowns and firewood depôts are mostly situated near the circular canal which forms the western boundary of this municipality. Soora Jute Mill is situated on the north side of the Narkaldanga main road. Jute was imported from the eastern districts by boats through the canals and also by Eastern Bengal State Railway. They are stored in pucka godowns, but firewood, hay, &c, are piled in open grounds. There are jute ropery business within this municipality, besides manufacture of gunny in the jute mill. Packing cases are also made by machine carpentry.

About two lakhs of maunds of jute were imported during the year and the trade was very brisk during the period.

No conflagration took place anywhere within the municipality, and the assistance of fire brigade was therefore not required.

RESOLUTION ON THE ANNUAL REPORT ON THE GOVERNMENT CINCHONA PLANTATION AND FACTORY IN BENGAL FOR THE YEAR 1896-97.

The Report for 1895-96, and the Resolution of Government recorded thereon.

THE drought which occurred in the year 1895-96 was repeated in a less severe form in the year under review. The effect of two successive years of drought could not fail to be disastrous to the cinchona plants, which are particularly susceptible to climatic influences, and it was only possible to plant out during the last cold weather 243,750 plants of the *Calisaya Ledgeriana* and 20,000 trees of the sort known as Hybrid Cinchona. The number of trees uprooted at the plantations for their bark was 1,064,200, against 453,000 uprooted in 1895-96. The result of the year's operations was that the total number of cinchona trees in the plantation at the close of the year (excluding the nursery stock, which amounted to 79,000) was 2,683,451, all being of the quinine-producing sort, with the exception of 185,000 trees of the red bark for the manufacture of cinchona febrifuge. The policy steadily observed for several years past has been to reduce the number of the trees which yield the febrifuge, and to plant out only the quinine-producing varieties.

2. The crop of the year amounted to 629,222 lbs. of dry bark, of which 251,468 lbs. were obtained from the trees uprooted in the Government plantations in Sikkim, and 377,754 lbs. were collected from the trees in the plantation purchased at Nimbong. The bulk of the bark was of the quinine-producing sort, and with the exception of 1,642 lbs. supplied to a medical depôt and sold to the public, the whole crop was, as usual, made over to the Cinchona Factory for disposal. Besides the bark obtained by cropping, 122,571 lbs. were purchased from private plantations in Sikkim and Travancore.

3. The outturn of the factory, which was strengthened by a new turbine, was 10,672 lbs. of sulphate of quinine, and 3,452 lbs. of cinchona febrifuge, against 9,004 lbs. and 3,124 lbs., respectively, in 1895-96, the total increase being 1,996 lbs. The following statement compares the issues of the year with those of the preceding year :—

The decrease in the issues of sulphate of quinine is attributed partly to the fact that the Medical Depôts indented to some extent on the Madras Government Factory, and partly to a reduced demand owing to fever being less prevalent during the year. The sales of cinchona febrifuge were also affected by this latter cause. Although the official indents fell off considerably, the febrifuge still maintains its popularity as a remedy for fever among the non-official public, the amount purchased by a single native medical practitioner in Jessore having exceeded the official consumption of the whole of Bengal. The stock of quinine in hand at the close of the year was 4,548 lbs., and of febrifuge, 1,205 lbs.

4. The revenue derived from the sale of sulphate of quinine, cinchona febrifuge, cinchona bark, and other products of the plantation, amounted to Rs. 1,71,779, against Rs. 1,89,530 in the previous year; thus:—

Total ...	189,530	171,779

5. The expenditure on the plantation amounted to Rs. 82,143, against Rs. 79,865 in the previous year. The amount spent on account of the factory rose from Rs. 62,982 to Rs. 79,867, which included the price paid for the bark purchased from private plantations, and the cost of a new turbine.

6. The net profit on the working of the plantations amounted to Rs. 9,767, against Rs. 4,598 in the previous year. The result is satisfactory.

7. The amount of quinine delivered to the Jail Department, for conversion into pice-packets for sale to the public through the Postal Department, was 3,330 lbs., or only 130 lbs. more than the quantity supplied in 1895-96. It appears that the smallness of the increase was due to the inability of the Printing Department to supply to the Jail Department, in sufficient quantity, the envelopes in which the quinine is wrapped up. Measures have since been taken to remedy this defect. At the same time, all restrictions on the supply of quinine, either in pice-packets or in bulk, to other Governments and Administrations, referred to in the last year's Resolution, have been withdrawn, and Dr. King has been instructed to comply with any demands he may receive.

8. The Lieutenant-Governor desires to thank Dr. King and also Mr. Gammie, the Deputy Superintendent of the Cinchona Plantations, who has since retired from service, for their efficient management of the Department during the year.

By order of the Lieutenant-Governor of Bengal,

C. E. A. W. OLDHAM,

Secretary to the Government of Bengal.

STATISTICS OF THE SEA-BORNE TRAFFIC OF CALCUTTA IN FOOD-GRAINS.

No. 2378 Statistics.—The following memorandum and statements are published for general information.

M. FINUCANE,
Secy. to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 31st August 1897.

Memorandum.

The sea-borne import and export traffic of Calcutta in food-grains during the week ending the 21st August 1896, and the corresponding period of 1897, is shown in the following statement:—

Imports.—During the period under report, the imports of rice amounted to 217,243 cwts., against 20,985 cwts. in the third week of August 1896. The amount imported from Burma was 188,413 cwts., against 873 cwts. in the same period of 1896, that from Madras 644 cwts., and that from the Straits Settlements 8,711 cwts., both against nil in the corresponding period of last year; shipments of rice from Chandbali rose from 15,990 cwts. to 18,200 cwts. The imports of paddy from Chandbali fell off by 5,278 cwts., but this decrease was more than counterbalanced by larger imports from Rangoon and Balasore. The fluctuations under the head of gram and pulses were unimportant.

Exports.—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 21st August 1897 is compared with that for the corresponding period of 1896:—

Foreign Ports.

The exports of rice from Calcutta to foreign ports declined from 37,896 cwts. in the third week of August 1896 to 8,336 cwts. in the period under report. The decrease in exports to Ceylon was 32,355 cwts., while Mauritius received 3,259 cwts., against nil in the corresponding period of last year. The decrease under gram and pulses was chiefly due to the cessation of exports to the United Kingdom, which took 12,419 cwts. in the corresponding week of 1896.

Indian Ports.

As regards Indian ports, the exports of rice during the third week of August 1896 amounted to 13,875 cwts., against 1,786 cwts. in the period under report. The shipments for Bombay amounted to only 960 cwts., against 12,637 cwts. in the third week of August 1896. Under gram and pulses there were no shipments to Bombay, against 16,272 cwts. in the corresponding period of last year, while there was a decrease of 6,802 cwts in exports to the Madras ports.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

During the week under report, the amount of rice imported into Chittagong from Burma amounted to 34,835 cwts., against 57 cwts., in the corresponding period of last year, while Narayanganj contributed 2,204 cwts., against nil, in that period. In the case of gram and pulses the imports from Calcutta and Narayanganj fell off from 807 cwts. to 112 cwts. The exports of rice and paddy from Balasore to Calcutta rose from 19,745 cwts. to 24,454 cwts., while there were no exports of rice from False Point during the first week of August 1897, against 21,640 cwts. shipped for Mauritius in the same period in 1896.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

General Summary.—There was rain in all districts during the week. The transplantation of winter rice is everywhere being rapidly completed, but more rain is still required for this purpose in Dinajpur, Purnea, Champaran, the Gopalganj subdivision of Saran, and the Sitamarhi subdivision of Muzaffarpur. The prospects of the *bhadoi* crops are generally favourable except that in places in the Patna Division and in Monghyr some damage has been caused by heavy rain and floods. In Patna the *makai* (Indian-corn) on the *diara* lands is said to have been totally destroyed. The harvesting of *aus* rice, jute, and the earlier *bhadoi* crops is going on. Prices are reported to be falling in some districts. New *aus* rice and Indian-corn are coming into the market. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Bankura (common rice) 7$\frac{1}{2}$ to 9$\frac{1}{4}$ seers, Nadia (common rice) 7 to 8 seers (old) and 9 to 11 $\frac{7}{16}$ seers (new *aus*), Murshidabad (common rice) 8 seers, Saran (barley) 13 seers, Champaran (barley) 12$\frac{5}{8}$ seers, Muzaffarpur (*makai*) 15 seers and, (*rahar*) 10$\frac{1}{2}$ seers, Darbhanga (rice) 8 seers and (*makai*) 13 seers, Puri (common rice) 9 to 10 seers, Hazaribagh (rice) 6 to 8 seers, Lohardaga (rice) 7$\frac{1}{2}$ seers, Manbhum (common rice) 8 seers.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

EXAMINATIONS.

Simla, the 27th August, 1897.

No. 292.—The following Regulations respecting the examination of candidates for the Civil Service of India to be held in August 1898 are published for general information:—

COPIES OF THESE REGULATIONS MAY BE OBTAINED ON APPLICATION TO THE SECRETARY TO THE GOVERNMENT OF INDIA IN THE HOME DEPARTMENT.

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

An open Competitive Examination for admission to the Civil Service of India will be held in London, under the subjoined Regulations, commencing on the 2nd August 1898.

The number of persons to be selected at this Examination will be announced hereafter.

No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received, on or before the 31st May 1898, an application on the prescribed form, accompanied by a list of the subjects in which the Candidate desires to be examined.

The Order for admission to the Examination will be posted on the 19th July 1898, to the address given on the Form of Application. It will contain instructions as to the time and place at which candidates will be required to attend, and as to the manner in which the fee (£6) is to be paid.

CIVIL SERVICE COMMISSION,
July 1897.

REGULATIONS.

*** *The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year:—*

'1. An examination for admission to the Civil Service of India, open to all qualified persons, will be held in London in August of each year. The date of the Examination and the number of appointments to be made for each Province will be announced beforehand by the Civil Service Commissioners.

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners—

(*i*) that he is a natural-born subject of Her Majesty;

(*ii*) that he had attained the age of twenty-one, and had not attained the age of twenty-three on the first day of the year in which the Examination is held;

[N.B.—*In the case of Natives of India it will be necessary for a Candidate to obtain a certificate of age and nationality signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or, should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.*]

(*iii*) that he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India;

(*iv*) that he is of good moral character.

3. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the Candidate on payment of the prescribed fee will be admitted to the Examination. The Commissioners may, however, in their discretion at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further enquiries as they may deem necessary; and if the result of such enquiries, in the case of any Candidate, should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India, and, if already selected, will be removed from the position of a Probationer.

4. The open Competitive Examination will take place only in the following branches of knowledge:—

English Law. Under the head of "English Law" shall be included the following subjects, viz.: (1) Law of Contract; (2) Law of Evidence; (3) Law of the Constitution; (4) Criminal Law; (5) Law of Real Property; and of these five subjects Candidates shall be at liberty to offer any four, but not more than four	500

Candidates are at liberty to name any or all of these branches of knowledge (*a*). None is obligatory.

5. The merit of the persons examined will be estimated by marks; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (*b*) in order to secure that no credit be allowed for merely superficial knowledge.

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the branches in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above-mentioned, a greater aggregate number of marks than any of the remaining Candidates, will be set forth in order of merit, and such Candidates shall be deemed to be selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate. A Candidate entitled to be deemed a selected Candidate, but declining to accept the nomination as such, which may be offered to him, will be disqualified for any subsequent competition.

9. Selected Candidates before proceeding to India will be on probation for one year, at the end of which time they will be examined with a view of testing their progress in the following subjects (*c*):—

Compulsory—

		Marks.
1.	Indian Penal Code and Criminal Procedure Code ...	500
2.	The Principal Vernacular Language of the Province to which the Candidate is assigned	400
3.	The Indian Evidence Act and the Indian Contract Act ...	500

Optional—[Not more than two of the following subjects, of which one must be either the Code of Civil Procedure or Hindu and Muhammadan Law.] Candidates offering one subject only are restricted to a choice between the two law subjects specified.

1.	The Code of Civil Procedure	400
2.	Hindu and Muhammadan Law	450
*3.	Sanskrit	400
*4.	Arabic	400
5.	Persian	400
6.	History of British India	350
7.	Chinese (for Candidates assigned to the Province of Burma only)	400

* These subjects may not be offered by any Candidate who has offered them at the open competition.

In this Examination, as in the open competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the open competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "*Final Examination.*"

10. The selected Candidates will also be tested during their probation as to their proficiency in Riding.

(*a*) A syllabus defining the character of the Examination in the various subjects, may be obtained on application to the Secretary, Civil Service Commission.

(*b*) No deduction will be made from the marks assigned to Candidates in Mathematics or English Composition.

(*c*) Instructions showing the extent of the Examination will be issued to the successful Candidates as soon as possible after the result of the Open Competition is declared.

The examinations in riding will be held as follows :—

(1) Shortly after the result of the open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(2) Again, at the time of the Final Examination, Candidates who may fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback shall receive a Certificate which shall entitle them to be credited with 200 or 100 marks, according to the degree of proficiency displayed, to be added to their marks in the Final Examination.

(3) Candidates who fail to obtain this Certificate, but who gain a Certificate of minimum proficiency in riding, will be allowed to proceed to India, but will be subjected on their arrival to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government. A Candidate who fails at the end of the year of probation to gain at least the Certificate of minimum proficiency in riding will be liable to have his name removed from the list of selected Candidates.

11. The selected Candidates who, at the Final Examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service.

12. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary, Civil Service Commission, London, S.W.," at any time after the 1st December, in the year previous to that in which the Examination is to be held. The Forms must be returned so as to be received at the office of the Civil Service Commissioners on or before the 31st May (or, if that date should fall upon a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the Examination is to be held.

The Civil Service Commissioners are authorised by the Secretary of State for India in Council to make the following announcements :—

(i) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance amounting to £100 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State,* viz., *the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrew's and Aberdeen; Victoria University, Manchester; University College, London; and King's College, London; provided such Candidates shall have passed the Final Examination to the satisfaction of the Civil Service Commissioners, and shall have conducted themselves well and complied with such rules as may be laid down for the guidance of selected Candidates. The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.*

(iii) *The allowance of £100 will not be paid to any selected Candidate until he has been certified by the Civil Service Commissioners to be entitled to be appointed to the Civil Service of India; and every Certificated Candidate must, before receiving his allowance, give a written undertaking to refund the amount in the event of his failing to proceed to India.*

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Civil Service of India of the selected Candidates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*

(vi) *Selected Candidates will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates rejected at the Final Examination held in any year will in no case be allowed to present themselves for re-examination.*

Date—

SIR,

I beg to inform you that I wish to be a Candidate at the Examination for the Civil Service of India, which is appointed to commence in London on the 2nd of August, 1898.

I hereby declare that I was born on the day of 18 , and that therefore I had attained the age of 21 years and had not attained the age of 23 years on the 1st of January, 1898; I also declare that I have no disease, constitutional affection, or bodily infirmity unfitting me, or likely to unfit me, for the Civil Service of India; and that I am of good moral character, and otherwise eligible under the Regulations.

This should be given the form attached.

I send herewith a statement of the subjects in which I desire to be examined.

Candidates who are not Natives of India should strike out this paragraph.

I also send herewith a Certificate of my Birth issued under Notification of the Government of India, No. 2252, dated 21st August, 1888.

Candidates not born within the British Dominions should state this fact in a separate letter.

I have also to state, with reference to Section 2, Clause (i) of the Regulations, that I am a natural-born subject of Her Majesty.

* If you have never been examined, insert here the word "never."
† If you have been examined, give the date, etc., of the *last* occasion.

I beg further to add that I have * been examined under the directions of the Civil Service Commissioners in the year 18——,† as a Candidate for the situation of ————

I am,

Sir,

Your obedient servant,

Name in full—

‡ If a London address, state postal district; if a country address, state the post town.

Address to which it is desired that the Order for Examination should be sent ‡————————————

Date—

To the Secretary,
Civil Service Commission.

No Certificates of age, health, and character, except as mentioned above, should be supplied until the result of the Examination is known.

☞ *If Candidates who fill up and return this Application Form do not receive an acknowledgment of it within four complete days, they should write to the Secretary, Civil Service Commission, London, S. W.*

N.B.—Attention is drawn to the annexed Form, which must be filled up by every Candidate.

EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE OF INDIA.

I. Every Candidate born in the United Kingdom should be prepared to produce, when required, a Certificate from the Registrar-General of Births, Marriages and Deaths, or from one of his Provincial Officers. This Certificate may be obtained from the Registrar-General in London, Dublin or Edinburgh, or from the Superintendent Registrar of the District in which the birth took place.

II. A Candidate born of European parents in India should be prepared to produce, when required, a Certificate of Baptism from the district in which he was baptised. If this does not also mention the date of birth, it should be accompanied by a statutory declaration by one of the Candidate's parents, stating the date and place of birth. When such certificates are not in the possession of the Candidates, an Extract from the Registers kept at the India Office will probably be obtainable.

III. A Candidate who is a Native of India must, *before he can be admitted to the Competition*, have his age and nationality certified by the Government of India, or of the Presidency or Province in which he may have resided.

[*No Certificates except those issued under Notification of the Government of India, No. 2252, dated 21st August 1888, will be accepted for this Competition.*]

Except as noted in paragraphs II and III, every Candidate who proves to be successful is expected to produce a Certificate of *Birth*. The Civil Service Commissioners will not in ordinary cases accept a Certificate of Baptism, or other testimony, unless they are first satisfied that a Certificate of Birth cannot be procured.

Official Certificates of Birth may generally be obtained as follows :—

(*a*) *For persons born in England or Wales since 30th June 1837.*—From the Registrar-General, Somerset House, London, or from the Superintendent Registrar of the district in which the birth took place.

(*b*) *For persons born in Scotland since 31st December 1854.*—From the General Register Office, Edinburgh; or from the Registrar of the Parish or district in which the birth took place.

(*c*) *For persons born in Ireland since 31st December 1863.*—From the General Register Office, Dublin; or from the Superintendent Registrar of the district in which the birth took place.

(*d*) *For persons of English, Scottish, or Irish parentage born on board British ships since the dates mentioned in* (*a*), (*b*) *and* (*c*), *respectively.*—From the General Register Office, London, Edinburgh, or Dublin, according to parentage.

(*e*) *For persons born in India of European parents.*—From the India Office, London.

Any Candidate who cannot produce a Certificate of Birth from one of the authorities named should, if possible, procure a Certificate of Baptism, and should then apply to the Secretary, Civil Service Commission, for further instructions.

CIVIL SERVICE OF INDIA;

CLERKSHIPS (CLASS I) IN THE HOME CIVIL SERVICE; AND EASTERN CADETSHIPS.

Syllabus showing the extent of the Examination in certain subjects after the examination to be held in 1897.

English Composition.—An Essay to be written on one of several subjects specified by the Civil Service Commissioners on their Examination Paper.

English Language and Literature.—The Examination will be in two Parts. In the one the Candidates will be expected to show a general acquaintance with the course of English Literature, as represented (mainly) by the following writers in verse and prose, between the reign of Edward III and the accession of Queen Victoria:—

Verse—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe Addison, Johnson, Burke, Scott, Macaulay (Essays and Biographies).

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the Candidates have studied the chief productions of the greatest English writers *in themselves*, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature. Candidates will also be expected to show that they have studied in these authors the history of the English Language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other year by year in the order indicated:—

1.	A.D. 1700 to A.D. 1800
(1898)	[Pope to Cowper]
2.	A.D. 1800 to A.D. 1832
(1899)	[Nineteenth Century writers to the death of Scott]
3.	A.D. 1360 to A.D. 1600
(1900)	[Chaucer to Spenser]
4.	A.D. 1600 to A.D. 1700
(1901)	[Shakespeare to Dryden]

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners.* The names placed under the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700; all the works of Swift within the period 1700 to 1800; all the works of Scott and Wordsworth, and all the works of Macaulay within the period 1800 to 1832.

French Language and Literature.—Translation from French into English, and from English into French. Critical questions on the French Language and Literature.

German Language and Literature.—Translation from German into English, and from English into German. Critical questions on the German Language and Literature.

* The Books for 1898 are—
Percy: Reliques of ancient English Poetry.
Swift: Gulliver, Battle of the Books.
Gibbon: Autobiography.
Lord Harvey: Memoirs.
Goldsmith: Plays and poems.
Collins: Poems.
Pope: Essay on Man, Essay on Criticism.

Latin Language and Literature.—Translation from Latin into English, Composition in Prose and Verse, or (as an alternative for Verse-Composition) a Latin Essay or Letter. Critical questions on the Latin Language (including questions on Philology) and Literature.

Greek Language and Literature.—Translation from Greek into English, Composition in Prose and Verse, or (as an alternative for Verse-Composition) a Greek Dialogue or Oration. Critical questions on the Greek Language (including questions on Philology) and Literature.

Sanskrit Language and Literature.—Translation from Sanskrit into English, and from English into Sanskrit. History of Sanskrit Literature (including knowledge of such Indian history as bears upon the subject); Sanskrit Grammar; Vedic Philology.

Arabic Language and Literature.—Translations as in Sanskrit; History of Arabic Literature; Arabic Grammar; Arabic Prosody.

English History.—General questions on English History from A.D. 800 to A.D. 1848; questions on the Constitutional History of England from A.D. 800 to A.D. 1848.

General Modern History.—Candidates may, at their choice, be examined in any one of the following periods:—

1. From the accession of Charlemagne to the Third Crusade.

   [A.D. 800 to A.D. 1193.]

2. From the Third Crusade to the Diet of Worms.

   [A.D. 1193 to A.D. 1521.]

3. From the Diet of Worms to the death of Louis XIV.

   [A.D. 1521 to A.D. 1715.]

4. From the accession of Louis XV to the French Revolution of 1848.

   [A.D. 1715 to A.D. 1848.]

Periods 3 and 4 will include Indian History.

Greek History.—Questions on the General History of Greece to the death of Alexander; questions on the Constitutional History of Greece during the same period.

Roman History.—Questions on the General History of Rome to the death of Vespasian; questions on the Constitutional History of Rome during the same period.

In Greek and Roman History candidates will be expected to show a knowledge of the original authorities.

Mathematics.—Pure Mathematics:—Algebra, Geometry (Euclid and Geometrical Conic Sections), Plane Trigonometry, Plane Analytical Geometry (less advanced portions), Differential Calculus (Elementary), Integral Calculus (Elementary).

Applied Mathematics:—Statics, Dynamics of a Particle, Hydrostatics, Geometrical Optics; all treated without the aid of the Differential or Integral Calculus.

Advanced Mathematics.—Pure Mathematics:—Higher Algebra, including Theory of Equations, Plane and Spherical Trigonometry, Differential Calculus, Integral Calculus, Differential Equations, Analytical Geometry, Plane and Solid.

Applied Mathematics:—Statics, including Attractions, Dynamics of a Particle, Rigid Dynamics, Hydrodynamics, the Mathematical Theory of Electricity and Magnetism.

Political Economy and Economic History.—Candidates will be expected to possess a knowledge of economic theory as treated in the larger text books, also a knowledge of the existing economic conditions, and of statistical methods as applied to economic enquiries, together with a general knowledge of the history of industry, land tenure and economic legislation in the United Kingdom.

Logic and Mental Philosophy (Ancient and Modern).—Logic will include both Deductive and Inductive Logic. Mental Philosophy will include Psychology and Metaphysics.

Political Science.—The Examination will not be confined to Analytical Jurisprudence, Early Institutions, and Theory of Legislation, but may embrace Comparative Politics, the History of Political Theories, etc.

Candidates will be expected to show a knowledge of original authorities.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 24th September 1897, corresponding with 9th Assin 1304.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them as revenue-free or subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

R. A. N. SINGH, Deputy Collector, for Collector.

Notice.

THE terms of the leases in respect of the Mica Mines named in the accompanying list having expired, fresh leases for five years will be granted to the highest bidders. For this purpose, the mines will be put up to auction, at the Deputy Commissioner's Office, Hazaribagh, on the 15th October next. In addition to the rent thus determined, a royalty of 2½ per cent. will be levied on the sale value of the Mica at the pit's mouth.

The conditions of the lease have been prescribed in rule 15 of the revised rules for the grant of prospecting licenses and mining leases for Mica published at page 919, Part I, of the *Calcutta Gazette* of the 7th July 1897.

Hazaribagh, Deputy Commissioner's Office, the 25th August 1897. J. L. HERALD, Deputy Commissioner.

Municipal Corporation of Calcutta.

Bye-law for Cart Registration.

EVERY driver of a registered cart shall, at all times while acting as such driver, wear a metal ticket exposed to view, marked or engraved with a number corresponding with the registration number of the cart; and such ticket shall on application be delivered by the Commissioners free of cost at the time of the registration of the cart to the owner or the person in charge at the time for the use of the driver of the cart for the time being. On the expiry of the period for which such license is granted, the owner or person in charge of the cart is bound to return such ticket to the Commissioners. But in the case of the words or figures on the metal ticket becoming disfigured or obliterated or of a metal ticket being lost or stolen within the period for which such ticket is issued, a duplicate ticket may, with the sanction of the Commissioners, be issued on payment of a fee of two rupees.
